Participants may also elect to make Roth deferral contributions and may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan is a safe harbor 401(k) plan and provides for discretionary match contributions, profit sharing contributions and discretionary non-elective contributions by the Company. In 2015, the Company safe harbor match was 100% of the participant's contribution up to 4% of compensation. The Company did not approve additional discretionary or profit sharing contributions in 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's matching, profit sharing and discretionary non-elective contributions, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Payment of Benefits

Upon termination of service due to death, disability, retirement or separation, participants may elect to receive their benefits as a lump-sum amount equal to the value of the interest in their accounts, unless the participant elects to receive his or her benefits in the form of installments.

Additionally, under certain circumstances of financial hardship or age, participants are allowed to withdraw funds from the Plan.

Vesting and Forfeitures

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributed portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeitures resulting from the nonvested portions of participants' accounts who terminate prior to being fully vested are used first to pay Plan expenses, then to reduce future Company contributions. Forfeitures during 2015 were not material to the financial statements.

Notes Receivable From Participants

Participant notes are allowed, subject to limitations and requirements specified by the Plan. Participants may borrow from their account balances a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Notes must be repaid in full within five years, unless used to purchase a primary residence, in which case the repayment period may not extend beyond ten years. The notes are secured by the vested balance in a participant's account and bear interest at a reasonable rate as determined by the Plan Administrator based on the prevailing interest rates charged for similar loans. The interest rates ranged from 3.25% to 5.25% on notes receivable outstanding as of December 31, 2015. Principal and interest are paid ratably through payroll deductions at least on a quarterly basis.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. Administrative expenses not paid directly by the Company may be paid from the Plan in accordance with Plan provisions.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Subsequent Events

Subsequent events have been evaluated by management through July 27, 2016, the date these financial statements were available to be issued.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Participant loans are classified as notes receivable from participants, and are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, if any, are reclassified as distributions based upon the terms of the Plan Agreement, and recorded as benefits paid to participants in the statement of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement.* Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value only by general type,

rather than class, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using net asset value per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015, and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015, and early adoption is permitted.

Plan management reviewed both ASU 2015-07 and ASU 2015-12, and elected to early adopt both standards, as they believe it will simplify Plan accounting and its presentation in the financial statements. As such, the accounting and disclosures in these financial statements and notes reflect the provisions of ASU 2015-07 and ASU 2015-12.

3. Investments

In accordance with ASC 820, *Fair Value Measurements and Disclosures,* the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets and other inputs that are observable or can be corroborated by observable market data.

Level 3 - Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual Funds: Valued at quoted market prices in an exchange and active market, which represent the net asset value (NAV) of shares held by the Plan.

Common/Collective Trust (CCT): Valued at the NAV of the shares held by the Plan at year end, which is provided by the trustee and is determined based on the fair value of the underlying investments, primarily stable value investment contracts. The primary investment objective of the CCT is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The CCT provides

for withdrawals through participant-directed transactions by the Plan at reported NAV to be made within 30 days after written notification has been received by the Trustee.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth the Plan's investments by level within the fair value hierarchy. There were no significant transfers into or out of Levels 1, 2 or 3.

	Fair Value Measurements			
December 31, 2015	Level 1	Level 2	Level 3	Total

Mutual funds	$ 3,712,814	$ -	$ -	$ 3,712,814
Total investments at net asset value*				861,028
Investments, at fair value	$ 3,712,814	$ -	$ -	$ 4,573,842

** The common/collective trust is measured at fair value using the net asset value per share (or its equivalent) practical expedient and have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefit.*

4. Information Certified by Ascensus Trust Company

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the current custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

December 31, 2015	
Mutual funds	$ 4,304,180
Common/collective trust	807,548
Notes receivable from participants	181,352

Year ended December 31, 2015	
Interest and dividend income	$ 93,560
Net depreciation from mutual funds	(163,356)
Interest income from notes receivable from participants	7,692

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Related Party Transactions

Fees incurred for administrative, legal and accounting services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain Plan investments are shares of mutual funds managed by The Vanguard Group, Inc., an affiliate of the trustee; therefore, these transactions qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Income Tax Status

The Company has adopted the Ascensus, Inc. Defined Contribution Prototype Plan. The Plan Sponsor has obtained an opinion letter dated March 31, 2008 stating that the prototype plan document was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.
