Star Leasing Company

401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Star Leasing Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Star Leasing Company (the "Company") who have met the eligibility requirements by the entrance dates specified in the Plan agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to make elective deferrals on the first day after they complete two months of service. Employees who complete two months of service are also eligible for a safe harbor matching contribution. Employees are eligible to receive profit sharing contributions if they are employed on the last day of the Plan year, provided that they are an eligible employee on this date.

Contributions

Each eligible participant may defer up to the maximum amount of their annual compensation allowed by law as either a pre-tax or Roth 401(k) deferral. Participants may also make qualified rollover contributions, inclusive of qualified vested balances from the Star Leasing Company Employee Stock Ownership Plan. Participants may enter the Plan the day on which the eligibility requirements are met.

Effective January 1, 2012 the Plan was amended to adopt a Section 401(k) safe harbor design for the Plan which means that the Plan automatically complies with the nondiscrimination requirements of Section 401 of the Internal Revenue Code. As such, the Company provided for a fully vested qualified, nonelective contribution of 100% of salary deferrals not to exceed 4% of compensation for all eligible participants for 2015 and 2014.

The Company may, in its sole discretion, make a profit sharing contribution to the Plan on a participant's behalf if they are employed by the Company on the last day of the Plan year. During 2015 and 2014 the Plan did not make any profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and the Plan's investment earnings or losses, net of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the plan sponsor's safe harbor matching contributions, plus actual earnings thereon. All non-safe harbor matching contributions made plus actual earnings thereon vest over four years of credited service.

Financial Hardship Withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant is entitled to 100% of his or her account balance upon early or normal retirement, death, or disability. Normal retirement age is 65; early retirement age is 61.

Notes Receivable from Participants

Loans can be made for any reason. Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the plan administrator through a review of current interest rates charged by external lenders. Principal and interest is to be paid ratably through payroll deductions. Loan terms shall not exceed five years, unless the loan was used to acquire a principal residence. A participant may only have one loan outstanding from the Plan at any time.

Forfeited Accounts

Forfeitures of nonvested amounts from participant accounts are used to reduce future employer contributions to the Plan. As of December 31, 2015 and 2014, forfeited amounts available to reduce employer contributions totaled \$174 and \$2,924, respectively. For the Plan years ended December 31, 2015 and 2014, \$2,924 and \$2,613, respectively, of the forfeited nonvested accounts were applied to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Pooled separate accounts are not quoted in an active market, and are reported at the value determined by John Hancock Life Insurance Company (U.S.A.) ("John Hancock" or the "Custodian") based on quoted

Notes to Financial Statements

market prices which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan includes guaranteed interest accounts with John Hancock. The contributions are maintained in general accounts. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals. The contracts are included in the financial statements at fair value, which represents contributions made under the contracts, plus earnings, less withdrawals, and they are not fully benefit responsive. There are no reserves against fair value for credit risk of the contracts' issuer or otherwise.

The fair value of the guaranteed interest account investment contracts at December 31, 2015 and 2014 was \$37,807 and \$51,709, respectively. The yield and crediting interest rates ranged from 0.05% - 0.78% and 0.05% - 0.63% for 2015 and 2014, respectively. The crediting interest rate is based on an agreed-upon formula and is reviewed on an annual basis.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Administrative Expenses

All administrative expenses except for certain professional fees for the administration and audit of the Plan are paid by the Plan, unless paid by the Company at its discretion.

Subsequent Events

The Plan has evaluated events and transactions that occurred between January 1, 2016 and July 27, 2016 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for Plan benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for plan years beginning after December 15, 2016. The Company has not early adopted this ASU though it is permitted.

In July 2015, the FASB issued ASU 2015-12 which updated guidance on investment valuation and presentation. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using NAV per share practical expedient. These amendments are effective retrospectively for plan years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the Plan's year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. This portion of the update is effective prospectively for plan years beginning after December 15, 2015 and early adoption is permitted. The Plan has early adopted this ASU.

3. Summary of Financial Data Certified by the Custodian

As directed by the plan administrator, no auditing procedures have been performed on the above certified information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820 are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Input to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relative observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values of such accounts which are provided by the Custodian. The NAV is based on the underlying assets owned by the account less liabilities and then divided by the number of shares outstanding. The accounts allow for daily redemptions and contributions.

Notes to Financial Statements

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described in the previous paragraph may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

5. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain plan investments are units of pooled separate accounts and guaranteed interest accounts managed by John Hancock. John Hancock also provides certain record keeping and accounting services for the Plan. Therefore, these investments and all transactions with them qualify as party-in-interest transactions. For 2015 and 2014, the Plan paid \$1,154 and \$7,837, respectively, in administrative fees to John Hancock.

Notes to Financial Statements

6. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator and trustee have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.
