1. DESCRIPTION OF THE PLAN

The following description of Crain Walnut Shelling, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of Crain Walnut Shelling, Inc.; Crain Orchards, Inc.; or Eco-Shell, Inc. (the Companies) who have 1 year of service and are age 21 or older. In 2015, Plan amendments were adopted to make participants hired on specific dates in 2015 eligible to participate in the Plan immediately. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of January 1, 2004, and has been subsequently amended and restated. The Plan Trustees are responsible for oversight of the Plan; they determine the appropriateness of the Plan's investment offerings, and monitor investment performance.

Contributions Participants may elect to contribute to the Plan, in the form of employee 401(k) salary deferral contributions, up to the lesser of 100% of their eligible compensation or the maximum amount allowable by law. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers registered investment companies within a pooled separate account as investment options for participants.

The Companies make safe harbor matching contributions of 100% of each participant's deferral up to 3% of the participant's eligible compensation and 50% of the next 2% of eligible compensation. The Companies made safe harbor matching contributions of $148,259 and $139,836 respectively, for the years ended December 31, 2015 and 2014.

Additionally, the Companies may make discretionary non-elective contributions and discretionary additional matching contributions to the Plan. No discretionary non-elective contributions or discretionary additional matching contributions were made for the years ended December 31, 2015 and 2014.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, employer contributions, and account earnings, and may be charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Participants are immediately vested in their salary deferral contributions, employer safe harbor matching contributions, and earnings thereon. Discretionary non-elective contributions and discretionary additional matching contributions to the Plan are subject to vesting. A participant is 100% vested after six years of credit service. Participants are credited with one year of service for each plan year in which they worked at least 1,000 hours.

Payment of Benefits Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. Depending on the event, the withdrawal may be subject to early withdrawal penalties imposed by the *Internal Revenue Code* and the *California Revenue and Taxation Code*. Payments are made in the form of a lump-sum distribution or annual installments over a period of time of not more than the participant's life expectancy.

Forfeitures Forfeitures attributable to discretionary non-elective and additional matching employers' contributions may be used to pay for administrative expenses or reduce future employer safe harbor contributions. There were no forfeitures used, and no remaining forfeited nonvested accounts for the years ended December 31, 2015 and 2014.

Plan Termination Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The Plan Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and custodian. Fair value measurements are discussed below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Fair Value Measurement Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used during the years ended December 31, 2015 and 2014.

Pooled Separate Account: The underlying assets of the pooled separate account consist of mutual funds known as sub-accounts. Each sub-account invests in shares of an underlying mutual fund. Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds. Certain fund fees, expenses, and administration charges (if any) are deducted from the value of the mutual funds to arrive at the value of the sub-accounts. The accumulation units are valued at net asset value on a daily basis. Participant transactions (issuances and redemptions) may occur daily. If the Plan were to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay, for up to seven days, withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business manner.

See note 5 for the classification of these assets within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain operating expenses of the Plan are deducted from participant accounts and the remaining expenses are paid by the Company. Investment-related expenses are included in net appreciation (depreciation) of those investments.

Subsequent Events The Plan has evaluated subsequent events through July 27, 2016, the date the financial statements were available to be issued.

3. IMPLEMENTATION OF NEW ACCOUNTING STANDARD

In July 2015, FASB ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. This three-part standard simplifies reporting for fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part II is effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. The Plan has elected to adopt Part II early. Accordingly, the standards were retrospectively applied resulting in prior-period information that has been adjusted. Parts I and III are not applicable to this Plan.

4. INFORMATION CERTIFIED BY MASS MUTUAL LIFE INSURANCE COMPANY (MASSMUTUAL)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the investments included in the statements of net assets available for benefits and the investment income included in the statements of changes in net assets available for benefits as of and for the years ended December 31, 2015 and 2014, were not subject to auditing procedures and have been certified as complete and accurate by MassMutual. MassMutual is the trustee as defined by the Plan and, therefore, qualifies as a party in interest; however, they are exempt from the prohibited transaction rules under ERISA.

5. FAIR VALUE MEASUREMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

December 31, 2015	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,100,481	$ -	$ 3,100,481

December 31, 2014	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,014,617	$ -	$ 3,014,617

For the years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

6. TAX STATUS

The Plan has adopted a prototype, non-standardized profit sharing plan established by Associated Pension Consultants (the Sponsor). The Sponsor's prototype plan obtained an opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the form of the prototype plan, as then designed, is acceptable under Section 401 of the *Internal Revenue Code*. Although the Plan has adopted amendments since adopting the prototype plan, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the *Internal Revenue Code* and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
