Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Midmark Corporation 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Midmark Corporation (the Company, Employer and Plan sponsor). The Plan was established effective January 1, 1992 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). There is no age requirement and employees may enter the Plan immediately.

Participant and rollover contributions: Participants can defer a dollar amount or percentage of compensation up to 60% of annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer contributions: The Plan allows for employer matching and profit sharing contributions, both discretionary and non-discretionary. The employer will make matching contributions in an amount equal to 50% of a participant's deferral, limited to 6%. The employer may also choose to make an additional discretionary matching contribution. There were no discretionary matching contributions for 2015 and 2014. The employer will make profit sharing contributions in an amount equal to 1% of compensation and the employer may make an additional discretionary contribution. The Company made the 1% profit sharing contribution but no additional discretionary contribution for 2015 and 2014. Participants are required to work a minimum 1,000 hours and be employed at year-end in order to be eligible for profit sharing contributions made for that year, unless the participant dies, becomes disabled, or retires. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of: (a) employer contributions, (b) plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Vesting: A participant shall have a fully vested and non-forfeitable interest in the value of his or her account derived from participant contributions. Vesting in the employer contribution portion of their account is based on years of service. The participant is 20% vested per year of service. A participant is fully vested after five years of credited service.

Payment of benefits: A participant is entitled to a benefit, in the form of a lump-sum distribution, if certain events occur. These events include normal retirement at age 65, early retirement at age 55, attainment of age 59½, death, disability or termination of employment.

Notes receivable from participants: Participants may borrow from the vested portion of their fund accounts up to a maximum of the lesser of \$50,000 or 50% of a participant's vested account balance and a minimum of \$1,000. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on notes receivable from participants range from 5.25% to 9.50% as of December 31, 2015 and 2014. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited accounts: Forfeitures are used to reduce employer contributions. Forfeitures unapplied at December 31, 2015 and 2014 amounted to \$58,807 and \$99,054, respectively. Employer contributions were reduced by \$209,456 of forfeited non-vested accounts in 2015.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment valuation and income recognition: The Plan's participant directed investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Contributions: Participant contributions are recognized when withheld. Company matching contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by the participants. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses: The administrative expenses paid by the Plan are primarily loan origination fees and maintenance fees which are paid by the participants who borrow. Investment management and administrative fees were paid by both the Plan and employer during 2014. The Company has an ERISA account in the Plan whereby a portion of the fund fees is collected in an administrative budget account and can be used to pay qualified plan expenses. The administrative budget account totaled \$61,504 and \$20,500 at December 31, 2015 and 2014, respectively. Fees were not paid from this account in 2015. Excess funds in the administrative budget account, that were not used to pay qualified plan expenses, will be periodically distributed to plan participants on a pro-rata basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Recent Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I, II, and III of this Update for the 2015 plan year and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting Part II these amendments is reflected in the financial statements. The adoption of Parts I and III had no impact on the December 31, 2015 or 2014 financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 20, 2016 the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Information Certified by the Plan's Trustee, Fidelity Management Trust Company ("Fidelity")

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2015 and 2014 and for the year ended December 31, 2015 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and supplement schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$5,720,774, of net depreciation in fair value of investments, \$7,553,748 of dividends and interest related to investments and \$103,692 of interest income from notes receivable from participants for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2015 and 2014, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2015			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 120,958,153	\$ 120,958,153	\$ -	\$ -

Investments measured at NAV	6,767,178			
Total investments, at fair value	\$ 127,725,331	\$ 120,958,153	\$ -	\$ -

	2014

Notes to Financial Statements

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

Note 6. Income Tax Status

The Plan is an adopter of a Fidelity prototype plan, which obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the prototype opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for year before 2012.

Note 7. Related-Party Transactions

Fidelity is the trustee and record-keeper, as defined by the Plan; therefore, transactions with Fidelity qualify as party-in-interest. Certain Plan investments are shares of mutual funds managed by Fidelity. Fees paid by the Plan for management services of these funds, as well as record-keeping services provided by Fidelity constitute party-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for plan benefits.

Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Midmark Corporation 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Midmark Corporation (the Company, Employer and Plan sponsor). The Plan was established effective January 1, 1992 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). There is no age requirement and employees may enter the Plan immediately.

Participant and rollover contributions: Participants can defer a dollar amount or percentage of compensation up to 60% of annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer contributions: The Plan allows for employer matching and profit sharing contributions, both discretionary and non-discretionary. The employer will make matching contributions in an amount equal to 50% of a participant's deferral, limited to 6%. The employer may also choose to make an additional discretionary matching contribution. There were no discretionary matching contributions for 2015 and 2014. The employer will make profit sharing contributions in an amount equal to 1% of compensation and the employer may make an additional discretionary contribution. The Company made the 1% profit sharing contribution but no additional discretionary contribution for 2015 and 2014. Participants are required to work a minimum 1,000 hours and be employed at year-end in order to be eligible for profit sharing contributions made for that year, unless the participant dies, becomes disabled, or retires. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of: (a) employer contributions, (b) plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Vesting: A participant shall have a fully vested and non-forfeitable interest in the value of his or her account derived from participant contributions. Vesting in the employer contribution portion of their account is based on years of service. The participant is 20% vested per year of service. A participant is fully vested after five years of credited service.

Payment of benefits: A participant is entitled to a benefit, in the form of a lump-sum distribution, if certain events occur. These events include normal retirement at age 65, early retirement at age 55, attainment of age 59½, death, disability or termination of employment.

Notes receivable from participants: Participants may borrow from the vested portion of their fund accounts up to a maximum of the lesser of \$50,000 or 50% of a participant's vested account balance and a minimum of \$1,000. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on notes receivable from participants range from 5.25% to 9.50% as of December 31, 2015 and 2014. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited accounts: Forfeitures are used to reduce employer contributions. Forfeitures unapplied at December 31, 2015 and 2014 amounted to \$58,807 and \$99,054, respectively. Employer contributions were reduced by \$209,456 of forfeited non-vested accounts in 2015.

Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment valuation and income recognition: The Plan's participant directed investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Contributions: Participant contributions are recognized when withheld. Company matching contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by the participants. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses: The administrative expenses paid by the Plan are primarily loan origination fees and maintenance fees which are paid by the participants who borrow. Investment management and administrative fees were paid by both the Plan and employer during 2014. The Company has an ERISA account in the Plan whereby a portion of the fund fees is collected in an administrative budget account and can be used to pay qualified plan expenses. The administrative budget account totaled \$61,504 and \$20,500 at December 31, 2015 and 2014, respectively. Fees were not paid from this account in 2015. Excess funds in the administrative budget account, that were not used to pay qualified plan expenses, will be periodically distributed to plan participants on a pro-rata basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Recent Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I, II, and III of this Update for the 2015 plan year and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting Part II these amendments is reflected in the financial statements. The adoption of Parts I and III had no impact on the December 31, 2015 or 2014 financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 20, 2016 the date the financial statements were available to be issued.

Midmark Corporation 401(k) Savings Plan

Notes to Financial Statements

Note 3. Information Certified by the Plan's Trustee, Fidelity Management Trust Company ("Fidelity")

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2015 and 2014 and for the year ended December 31, 2015 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and supplement schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$5,720,774, of net depreciation in fair value of investments, \$7,553,748 of dividends and interest related to investments and \$103,692 of interest income from notes receivable from participants for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Note 4. Fair Value Measurements (Continued)

Money market funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2015 and 2014, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

Note 6. Income Tax Status

The Plan is an adopter of a Fidelity prototype plan, which obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the prototype opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for year before 2012.

Note 7. Related-Party Transactions

Fidelity is the trustee and record-keeper, as defined by the Plan; therefore, transactions with Fidelity qualify as party-in-interest. Certain Plan investments are shares of mutual funds managed by Fidelity. Fees paid by the Plan for management services of these funds, as well as record-keeping services provided by Fidelity constitute party-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for plan benefits.
