1. Description of the Plan

General

Standard Supply and Distributing Co., Inc. The Retirement Plan (the "Plan") is a defined contribution plan established to provide retirement, disability, and death benefits for qualified employees of Standard Supply and Distributing Co., Inc. (the "Company") and its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Plan Administration

The Plan is administered by Great-West Trust Company, LLC (the "Trustee" or "Great-West") from January 1, 2015 through December 31, 2015 and by Putnam Fiduciary Trust Company (the "Trustee" or "Putnam") through December 31, 2014 and Company management. Under the plan document, the trustees also hold the Plan's investment assets and execute investment transactions and also maintain the accounting of participant accounts.

Eligibility

The Plan covers all employees of the Company, excluding union employees and non-resident aliens, who have reached age twenty one. Eligible plan participants may begin making contributions after one calendar year from their date of hire in which they worked at least 1,000 hours. Upon becoming eligible, employees are auto enrolled in the Plan at a 4% deferral rate. Employees who do not wish to participate in the Plan have a 30 day opt out period prior to their eligibility date in which they must return a signed opt out form.

Contributions

Each year, participants may contribute from 1% - 100% of pretax annual compensation, as defined in the plan document. These deferrals may be elective deferrals or Roth deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company's contributions, including matching and profit sharing are made on a discretionary basis, at the option of the board of directors. During 2015 and 2016, the board approved discretionary matching contributions in the amount of $202,616 and $182,709, respectively. During 2015, the Company contributed 50% of the first 4% of base compensation that a participant contributes to the Plan.

Participants direct the investment of their contributions, rollover contributions, if applicable, and the Company's matching contribution and profit sharing contribution, if any, into various investment options offered by the Plan. The Plan currently offers 18 registered investment companies, a common/collective trust, and self-directed brokerage accounts, as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and allocations of plan earnings and administrative expenses. Allocations are based on participant account balances or earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and rollover contributions, if applicable, plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing contribution portion of their accounts is based on years of continuous service. A participant becomes 20% vested after two years of service and an additional 20% each year with 100% vesting at six years.

Investment Options

Participants are allowed the option of investing their account balances among specific investment funds, which are made available by the Trustee of the Plan. Participants may change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by, if any, the highest outstanding loan balance within the previous 12-month period, or 50 percent of the participant's vested account balance. The participant requesting a plan loan must have a minimum vested account balance of $2,000 to be eligible. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest in accordance with prevailing rates. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence. As of December 31, 2015 and 2014, interest rates were 4.25%, with maturity dates on outstanding loans ranging from April 2016 to October 2020 and from June 2015 to October 2019, respectively.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or equal installment payments. The plan requires a mandatory distribution following severance from employment. For those participants who will receive distribution before attaining the later of age 62 or Normal Retirement Age, the maximum mandatory distribution is $5,000, excluding the rollover account from the vested balance. Any vested account balance, including rollover contributions, greater than $1,000 will be subject to automatic rollover after severance from employment. Additionally, in-service withdrawals are permitted for both hardships and by 59 ½ year old participants. Hardship withdrawals, as well as withdrawals by participants who are at least 59 ½ years old require 100% vesting and hardship withdrawals may not include Roth deferrals.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested account balances totaled $8,317 and $3,833, respectively. In accordance with Plan provisions, amounts will be used to pay for administrative expenses of the Plan or to reduce future employer contributions. During 2015 and 2014, forfeitures were utilized to pay $2,346 and $1,898 of plan expenses, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at each year end. The fair value of investments in the common collective trust is measured by using net asset value (NAV) as a practical expedient to estimate fair value and is determined by each fund trustee at year end based on the fair value of the underlying securities within that trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in fair value of its investments which consists of realized gains and losses and unrealized appreciation and depreciation on these investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses paid to investment advisors, transfer agents, and others described in each fund prospectus or other published documents are deducted by the investment funds or accounts prior to the allocation of the Plans' investment earnings activity and are therefore included in net appreciation of fair value of investments.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016 and is to be applied retrospectively to all periods presented. Early adoption is permitted.

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.*

Part I of this amendment provides that fully benefit-responsive investment contracts should be measured, presented, and disclosed only at contract value, thereby eliminating the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value in the Statement of Net Assets Available for Benefits. *Part I* also clarifies indirect investments in fully-benefit responsive investment contracts should continue to be reported at fair value.

Part II of this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment.

Part III of this amendment allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, Parts I and II to be applied retrospectively and Part III to be applied prospectively. Early adoption is permitted.

The Plan elected to early adopt ASU 2015-07 and the applicable parts of ASU 2015-12. Adoption of this guidance did not have a significant impact on the Plan's financial statements.

3. Fair Value Measurements

The accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 – Prices or valuations that required inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. These funds are classified as level 1.

Self-Directed Brokerage Accounts

Investments in the self-directed brokerage accounts consist primarily of U.S. Equities which are valued based on the exchange listed prices at the close of each business day. These funds are classified as level 1.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Investment Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

Investments measured at net asset value

Total investments measured at net asset value *				380,189
Total investments at fair value				$ 6,644,273

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are provided to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

Fair Value of Measurements in Entities that Use Net Asset Value

The fair value of the common collective trust fund based on net asset value per share as of December 31, 2015 and 2014 is $684,535 and $380,189, respectively. These investments held by the Plan provide for daily redemptions by the Plan at reported net asset value with no advance notice requirement. The Plan is permitted to redeem investment units at net asset value on the measurement date. There are no unfunded commitments.

4. Distributions

A plan participant is entitled to distributions of the amount which can be provided by the contributions and income thereon (including net realized and unrealized investment gains and losses) allocated to such participant's account. Upon service or disability retirement, death, or termination, the participant or beneficiary may elect to receive a lump sum amount equal to the value of the funds allocated to his account, or installment payments over a period not exceeding the participants' (or beneficiary's) life expectancy.

5. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 18, 2011, that the Plan and related trust under the Putnam plan are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust under the Great-West plan are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor (DOL). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to examinations for years prior to 2012.

6. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014;

- Net investment income, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015 as follows:

Year ended December 31,	**2015**
Interest and Dividends	**$ 240,566**
Net depreciation in fair value of investments	**$ (313,855)**

- Investment values disclosed in Note 3; and

- Investments, as reflected in the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Related Party and Party-in-Interest Transactions

Certain plan investments are units of a common collective trust managed by Putnam, who is the trustee as defined by the Plan through December 31, 2014 and continued to manage the common collective trust through December 31, 2015; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to a third party administrator of $35,081 which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company contribution portion of their account.

9. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31,:

11. Subsequent Events

The date to which events occurring after December 31, 2015, the date of the most recent financial statements and supplemental schedules, have been evaluated for possible adjustment to the financial statements and supplemental schedule or disclosure is July 29, 2016, which is the date the financial statements and supplemental schedule were available to be issued.
