Participants who are at least 50 years of age by the end of the calendar year are allowed to make a catch-up contribution for that year, subject to limits imposed by the IRC. The Company may make discretionary matching contributions as determined by the Company's Board of Directors. For the years ended October 31, 2015 and 2014, the Company contributed a discretionary matching contribution in the amount of \$183,585 and \$177,533, respectively, of which \$0 was allocated from forfeitures.

Investment options: Upon enrollment, participants may direct contributions among the investment options provided by the Plan. Participants may change their investment options any time throughout the year.

Participant accounts: Accounts are separately maintained for each participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are entitled to the vested portions of their accounts.

Vesting and forfeiture provisions: Participants are immediately vested in their voluntary contributions plus investment earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 20% vested after one year of credited service, 20% for each additional year, and is fully vested after five years. A participant is 100% vested, regardless of years of service, upon disability, death or attaining normal retirement age. Any employer discretionary matching contribution amounts not vested at withdrawal or termination are forfeited. Forfeitures are used to pay plan expenses with the remainder to be allocated among participant accounts. Plan assets included unallocated forfeitures of \$1,413 and \$0 at October 31, 2015 and 2014, respectively. Forfeitures in the amount of \$3,333 and \$3,842 were used to pay plan expenses for the plan years ending October 31, 2015 and 2014, respectively.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow a minimum of \$1,000 up to the lesser of \$50,000 or 50% of the current vested value of their account. Notes must be repaid, including interest at a fixed rate as determined at the time of issuance, over a period not exceeding five years except for the purpose of acquiring a principal residence. Interest rates are commensurate with local prevailing rates as determined by the Plan Administrator. The notes are secured by the balance in the participant's account and repayments, including interest, are paid ratably through monthly payroll deductions. Participant notes outstanding at October 31, 2015 have various maturity dates through April 2030 with varying interest rates ranging from 4.25% to 5.25%. A participant may only have one outstanding note at a time.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental Schedule H, Line 4i – Schedule of Assets (held at year end).

Withdrawals: Following attainment of the normal retirement age of 65, or upon termination of service due to death, disability, or other reasons, a participant or designated beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows participants to make hardship withdrawals, subject to certain limitations, as defined in the plan document.

The threshold for mandatory distributions is account balances greater than \$1,000. If a participant's non-forfeitable accrued benefit does not exceed \$1,000, then settlement occurs as a lump sum payment made within 60 days after the October 31 following termination of employment. If a participant's non-forfeitable accrued benefit exceeds \$1,000, then the participant has the option to elect the method used to distribute their benefits. The participant or beneficiary may elect distribution under one, or any combination, of the following methods:

- (a) by payment in a lump sum; or
- (b) by payment in monthly, annual or a series of installments over a fixed reasonable period of time, not exceeding the life expectancy of the participant, or the joint life and last survivor expectancy of the participant and his or her beneficiary.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date basis. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions from mutual funds that are reinvested are included with interest and dividends on the statement of changes in net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as an asset on the statement of net assets available for benefits, and continue to accrue interest until they are considered to be in default. Notes are considered to be in default and cancelled according to the terms of the note policy. Notes in default are classified as distributions on the statement of changes in net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to the year ending December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. There was no impact of adopting this Update in the current year.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

MJB Wood Group, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted this Update for the 2015 plan year, and the amendments in Part I and Part II were retrospectively applied to the year ending October 31, 2014. Prior year disclosures in Note 5 and the statement of net assets available for benefits have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through August 1, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by State Street Bank and Trust Company and Massachusetts Mutual Life Insurance Company

The following is a summary of the Plan's asset and income information as of October 31, 2015 and 2014, and for the year ended October 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company, the trustee, and Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate to the best of their knowledge and belief and information provided by the custodian is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the assets listed below.

Note 3. Information Certified and Provided by State Street Bank and Trust Company and Massachusetts Mutual Life Insurance Company (Continued)

The following information has been certified by the State Street Bank and Trust Company as of October 31:

	2015	2014
Investments, at fair value:		
Mutual funds	\$ 6,911,918	\$ 6,473,948
Notes receivable from participants	172,360	172,281

The following information has been certified by the Massachusetts Mutual Life Insurance Company as of October 31:

	2015	2014
Investments, at contract value:		
Guaranteed interest account	\$ 878,931	\$ 895,272

The trustee and custodian also certified to the completeness and accuracy of \$152,312 of net depreciation in fair value of investments, \$367,881 of interest and dividends, \$223 of other income, and \$7,281 of interest income on notes receivable from participants for the year ended October 31, 2015.

Note 4. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (Mass Mutual). Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield earned by the Plan and average interest rate credited to participants was 1.84% for the year ended October 31, 2015. Interest rates are reset on January 1 and July 1. Interest is credited daily at a rate of interest, which is the daily equivalent of the effective annual rate of interest applicable for each month.

Note 4. Investment Contract with Insurance Company (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, a participant termination of employment due to: (1) removal of a group of participants from plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business. Such events also include: (1) removal from the plan of one or more groups or classifications of participants; (2) partial or complete plan termination; (3) plan disqualification. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Note 5. Fair Value Measurements

ASC 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2015 and 2014 and no transfers between levels.

- **Mutual funds:** Valued based on quoted market prices in the active markets in which they are traded.

MJB Wood Group, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2015 and 2014:

	Level 1	Level 2	Level 3	Total
2015:				
Mutual funds	\$ 6,911,918	\$ -	\$ -	\$ 6,911,918
Total investments at fair value	<u>\$ 6,911,918</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,911,918</u>
2014:				
Mutual funds	\$ 6,473,948	\$ -	\$ -	\$ 6,473,948
Total investments at fair value	<u>\$ 6,473,948</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,473,948</u>

Note 6. Excess Contributions

Liabilities of \$17,092 and \$3,245 as of October 31, 2015 and 2014, respectively, relate to amounts payable to certain active participants to return to them excess deferral contributions as required to satisfy the relevant non-discrimination provisions of ERISA.

Note 7. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company, State Street Bank and Trust Company (trustee) and Massachusetts Mutual Life Insurance Company (custodian) qualify as party-in-interest transactions.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts and net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 9. Income Tax Status

The Plan adopted a volume submitter plan, which received a favorable notification letter from the Internal Revenue Service dated March 31, 2008 in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
