Independent Auditor's Report

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

We have audited the accompanying financial statements of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2015 and 2014 and the changes in net assets for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 5, the financial statements include investments valued at \$30,756,390 (93 percent of total assets) at December 31, 2015 and \$30,784,047 (95 percent of total assets) at December 31, 2014, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on independent appraisal, management projections, and guideline market data. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2015 and reportable transactions for the year ended December 31, 2015 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following description of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - DRMF, Inc., HSMF, Inc., and VAMF, Inc., along with The Original Mattress Factory, Inc. (the "Employer"), established the Plan effective January 1, 2011. Effective December 31, 2012, AHMF, Inc. entered the Plan as a new "participating employer," along with DRMF, Inc., HSMF, Inc., and VAMF, Inc. (collectively, the "Participating Employers" or the "Companies"). The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an advisory committee as determined by the Employer. An independent third-party trust company is the Plan's trustee (the "Trustee").

In January 2011, the Plan purchased 65,811.50 shares of the Participating Employers' common stock with a fair value of \$21,250,000 in exchange for notes totaling \$21,250,000 (see Note 6). The borrowings are to be repaid over a period of 12 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. During 2012, the Plan amended one of the notes to extend the term and amend the interest rate.

On December 31, 2012, the Plan purchased 20,390.00 shares of AHMF, Inc. common stock with a fair value of \$8,436,150 (see Note 6). The borrowings are to be repaid over a period of 15 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2015 and 2014 and for the year ended December 31, 2015 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Eligibility - The Plan generally covers all full-time employees, other than former stockholder employees, of the Participating Employers who have completed one year of service in which they have completed 1,000 or more hours of service and are age 21 or older.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Participating Employers' common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of a participating employer as of the last day of the plan year and have completed 1,000 or more hours of service in the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting - Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service in which they have completed 1,000 or more hours of service. Participants vest in contributions made by the Companies 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Diversification - Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to diversify up to 25 percent of the value of the participant's account, less any prior diversification distributions for a six-year period. During the last year of the six-year diversification period, participants are eligible to diversify up to 50 percent of the value of the participant's account, less any prior diversification distributions. The Plan will either permit the participant to diversify their account and offer at least three investment options or, in lieu of such offering, the elected amount may be distributed to the participant within 90 days of the participant's election to diversify.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment. If a participant's vested accrued benefit is equal to or less than \$5,000, the benefit shall be made in a lump-sum payment of cash or stock, as elected. If the vested accrued benefit exceeds \$5,000, then the benefit shall be paid in installments not to exceed five years with payments equal to 20 percent of the vested benefit or \$5,000, whichever is greater. In no event shall any amounts allocated to a participant's account be distributed until the end of the plan year in which the loans detailed in Note 6 are repaid in full, except to make required minimum distributions as required by Section 401(a)(9) of the Code.

The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Under the provisions of the Plan, the Companies are required to distribute a participant's benefit in cash in accordance with the plan document. Cash may be obtained from the subaccounts of the remaining participants, who would receive an allocation of the Companies' stock equal to the cash used to make the distribution. The Plan may also use cash obtained from the sale of Companies' stock or from the Companies' contributions to the Plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Companies allocate forfeitures to participants based on participant compensation, as defined. Allocation of forfeitures is considered additional contributions and is subject to the vesting provisions of contributions. At December 31, 2015 and 2014, the amount of forfeited account balances totaled \$0 and \$32,989, respectively.

Termination - The Companies may terminate the Plan at any time, although its expectation is to continue the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances. Furthermore, all liabilities, trustee fees, and other operating expenses incurred after the termination date may, at the discretion of the Companies, be paid by the Plan. Additionally, shares of financed stock held in the loan suspense account are to be sold to the extent it determines such sale to be necessary in order to repay the loan. In the event of termination of the Plan, net assets would be distributed to the participants according to participant account balances.

Administration of Plan Assets - The Plan's assets, which consist principally of the Participating Employers' common shares, are held by the Trustee of the Plan.

The Companies' contributions are held and managed by the Trustee, which invests cash received, interest, and corporate distribution income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is funded through contributions or S corporation distributions as determined by the Companies.

Certain administrative functions are performed by officers or employees of the Companies or the Employer. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Voting Rights - The Trustee shall vote any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Employee Stock Ownership Plan and Trust

Notes to Financial Statements
December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Companies' Distributions - The Companies are S corporations. Distributions from the Companies on allocated shares of stock must be allocated to each participant's account based on the number of shares of stock allocated to each participant's account as of the record date. Distributions from the Companies on unallocated shares of stock may be allocated to each participant's account based on a ratio of each participant's adjusted compensation in relation to the adjusted compensation of all participants as of the record date or they may be used to make payments on an acquisition loan or pay plan expenses.

Party-in-interest Transactions - Certain plan assets are in investments in the Companies' stock. The Companies are the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from those estimates.

Included in the accompanying statement of net assets (deficit) available for benefits is an investment in the Companies' common stock reported at fair value of \$30,756,390 and \$30,784,047 as of December 31, 2015 and 2014, respectively. This asset is valued based upon a third-party appraiser's estimation of the current market value of the common stock and is supported by the Companies' financial statements. Due to estimates and assumptions made in developing such appraisals, it is at least reasonably possible that the market value of the investment may be different than reported.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets (deficit).

New Accounting Pronouncement - During 2015, the Plan adopted Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part II of the ASU was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 22, 2016, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include the financial condition of the Companies, the discounted cash flows and guideline company methods, and the marketability of the Companies.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Common Stock - Fair value of the Companies' stock is determined by annual independent appraisals.

Money Market Fund - Money market funds are valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,756,390	\$ -	\$ -	\$ 30,756,390
Money market fund	2,178,157	2,178,157	-	-

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,784,047	\$ -	\$ -	\$ 30,784,047
Money market fund	1,479,643	1,479,643	-	-

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2015.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2015 are as follows:

	Companies' Stock
Balance at January 1, 2015	\$ 30,784,047
Total unrealized losses	(27,657)
Balance at December 31, 2015	<u>\$ 30,756,390</u>

Of the Level 3 assets still held by the Plan at December 31, 2015, the unrealized loss for the year ended December 31, 2015 was \$27,657, which is recognized in the statement of changes in net assets (deficit) available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Notes to Financial Statements

December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

The fair value of the Companies' common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Companies' assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method were the weighted average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method was revenue growth.

The valuation process involves the plan trustee's selection of an independent appraiser with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the financial statements of the Companies. The appraiser prepares a preliminary report, which the plan trustee reviews in detail and discusses and approves.

Note 6 - Notes Payable

In January 2011, the Plan issued notes payable due to stockholders of the Companies or the Companies in exchange for 65,811.50 shares of the Companies' common stock. Notes totaling \$2,360,000 matured on December 27, 2015 and bore interest at a fixed rate designed to match the rate the Companies pay their primary lender (3.52 percent as of December 31, 2014 and through December 27, 2015). Notes totaling \$18,890,000 mature between January 1, 2021 and January 1, 2023, with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2011. The notes bear interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). During 2012, one of the notes totaling \$4,135,000 was amended to extend the term until January 1, 2023, and the interest rate on the note was amended to 5.00 percent until December 31, 2013 and then at prime plus 3.50 percent for the years following.

On December 31, 2012, the Plan issued a note payable due to stockholders of AHMF, Inc. (the "Company") in exchange for 20,390 shares of the Company's common stock. The note bears interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). The notes totaling \$8,436,150 mature on January 1, 2028 with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2013.

Independent Auditor's Report

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

We have audited the accompanying financial statements of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2015 and 2014 and the changes in net assets for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 5, the financial statements include investments valued at \$30,756,390 (93 percent of total assets) at December 31, 2015 and \$30,784,047 (95 percent of total assets) at December 31, 2014, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on independent appraisal, management projections, and guideline market data. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2015 and reportable transactions for the year ended December 31, 2015 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following description of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - DRMF, Inc., HSMF, Inc., and VAMF, Inc., along with The Original Mattress Factory, Inc. (the "Employer"), established the Plan effective January 1, 2011. Effective December 31, 2012, AHMF, Inc. entered the Plan as a new "participating employer," along with DRMF, Inc., HSMF, Inc., and VAMF, Inc. (collectively, the "Participating Employers" or the "Companies"). The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an advisory committee as determined by the Employer. An independent third-party trust company is the Plan's trustee (the "Trustee").

In January 2011, the Plan purchased 65,811.50 shares of the Participating Employers' common stock with a fair value of \$21,250,000 in exchange for notes totaling \$21,250,000 (see Note 6). The borrowings are to be repaid over a period of 12 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. During 2012, the Plan amended one of the notes to extend the term and amend the interest rate.

On December 31, 2012, the Plan purchased 20,390.00 shares of AHMF, Inc. common stock with a fair value of \$8,436,150 (see Note 6). The borrowings are to be repaid over a period of 15 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2015 and 2014 and for the year ended December 31, 2015 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Eligibility - The Plan generally covers all full-time employees, other than former stockholder employees, of the Participating Employers who have completed one year of service in which they have completed 1,000 or more hours of service and are age 21 or older.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Participating Employers' common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of a participating employer as of the last day of the plan year and have completed 1,000 or more hours of service in the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting - Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service in which they have completed 1,000 or more hours of service. Participants vest in contributions made by the Companies 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Diversification - Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to diversify up to 25 percent of the value of the participant's account, less any prior diversification distributions for a six-year period. During the last year of the six-year diversification period, participants are eligible to diversify up to 50 percent of the value of the participant's account, less any prior diversification distributions. The Plan will either permit the participant to diversify their account and offer at least three investment options or, in lieu of such offering, the elected amount may be distributed to the participant within 90 days of the participant's election to diversify.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment. If a participant's vested accrued benefit is equal to or less than \$5,000, the benefit shall be made in a lump-sum payment of cash or stock, as elected. If the vested accrued benefit exceeds \$5,000, then the benefit shall be paid in installments not to exceed five years with payments equal to 20 percent of the vested benefit or \$5,000, whichever is greater. In no event shall any amounts allocated to a participant's account be distributed until the end of the plan year in which the loans detailed in Note 6 are repaid in full, except to make required minimum distributions as required by Section 401(a)(9) of the Code.

The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Under the provisions of the Plan, the Companies are required to distribute a participant's benefit in cash in accordance with the plan document. Cash may be obtained from the subaccounts of the remaining participants, who would receive an allocation of the Companies' stock equal to the cash used to make the distribution. The Plan may also use cash obtained from the sale of Companies' stock or from the Companies' contributions to the Plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Companies allocate forfeitures to participants based on participant compensation, as defined. Allocation of forfeitures is considered additional contributions and is subject to the vesting provisions of contributions. At December 31, 2015 and 2014, the amount of forfeited account balances totaled \$0 and \$32,989, respectively.

Termination - The Companies may terminate the Plan at any time, although its expectation is to continue the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances. Furthermore, all liabilities, trustee fees, and other operating expenses incurred after the termination date may, at the discretion of the Companies, be paid by the Plan. Additionally, shares of financed stock held in the loan suspense account are to be sold to the extent it determines such sale to be necessary in order to repay the loan. In the event of termination of the Plan, net assets would be distributed to the participants according to participant account balances.

Administration of Plan Assets - The Plan's assets, which consist principally of the Participating Employers' common shares, are held by the Trustee of the Plan.

The Companies' contributions are held and managed by the Trustee, which invests cash received, interest, and corporate distribution income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is funded through contributions or S corporation distributions as determined by the Companies.

Certain administrative functions are performed by officers or employees of the Companies or the Employer. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Voting Rights - The Trustee shall vote any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Note 1 - Plan Description (Continued)

Companies' Distributions - The Companies are S corporations. Distributions from the Companies on allocated shares of stock must be allocated to each participant's account based on the number of shares of stock allocated to each participant's account as of the record date. Distributions from the Companies on unallocated shares of stock may be allocated to each participant's account based on a ratio of each participant's adjusted compensation in relation to the adjusted compensation of all participants as of the record date or they may be used to make payments on an acquisition loan or pay plan expenses.

Party-in-interest Transactions - Certain plan assets are in investments in the Companies' stock. The Companies are the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from those estimates.

Included in the accompanying statement of net assets (deficit) available for benefits is an investment in the Companies' common stock reported at fair value of \$30,756,390 and \$30,784,047 as of December 31, 2015 and 2014, respectively. This asset is valued based upon a third-party appraiser's estimation of the current market value of the common stock and is supported by the Companies' financial statements. Due to estimates and assumptions made in developing such appraisals, it is at least reasonably possible that the market value of the investment may be different than reported.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets (deficit).

New Accounting Pronouncement - During 2015, the Plan adopted Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part II of the ASU was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 22, 2016, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include the financial condition of the Companies, the discounted cash flows and guideline company methods, and the marketability of the Companies.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Common Stock - Fair value of the Companies' stock is determined by annual independent appraisals.

Money Market Fund - Money market funds are valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,756,390	\$ -	\$ -	\$ 30,756,390
Money market fund	2,178,157	2,178,157	-	-

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,784,047	\$ -	\$ -	\$ 30,784,047
Money market fund	1,479,643	1,479,643	-	-

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2015.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2015 are as follows:

	Companies' Stock
Balance at January 1, 2015	\$ 30,784,047
Total unrealized losses	(27,657)
Balance at December 31, 2015	<u>\$ 30,756,390</u>

Of the Level 3 assets still held by the Plan at December 31, 2015, the unrealized loss for the year ended December 31, 2015 was \$27,657, which is recognized in the statement of changes in net assets (deficit) available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

The fair value of the Companies' common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Companies' assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method were the weighted average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method was revenue growth.

The valuation process involves the plan trustee's selection of an independent appraiser with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the financial statements of the Companies. The appraiser prepares a preliminary report, which the plan trustee reviews in detail and discusses and approves.

Note 6 - Notes Payable

In January 2011, the Plan issued notes payable due to stockholders of the Companies or the Companies in exchange for 65,811.50 shares of the Companies' common stock. Notes totaling \$2,360,000 matured on December 27, 2015 and bore interest at a fixed rate designed to match the rate the Companies pay their primary lender (3.52 percent as of December 31, 2014 and through December 27, 2015). Notes totaling \$18,890,000 mature between January 1, 2021 and January 1, 2023, with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2011. The notes bear interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). During 2012, one of the notes totaling \$4,135,000 was amended to extend the term until January 1, 2023, and the interest rate on the note was amended to 5.00 percent until December 31, 2013 and then at prime plus 3.50 percent for the years following.

On December 31, 2012, the Plan issued a note payable due to stockholders of AHMF, Inc. (the "Company") in exchange for 20,390 shares of the Company's common stock. The note bears interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). The notes totaling \$8,436,150 mature on January 1, 2028 with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2013.

Independent Auditor's Report

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

We have audited the accompanying financial statements of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Plan Administrator
The Original Mattress Factory (South)
Employee Stock Ownership Plan and Trust

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2015 and 2014 and the changes in net assets for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 5, the financial statements include investments valued at \$30,756,390 (93 percent of total assets) at December 31, 2015 and \$30,784,047 (95 percent of total assets) at December 31, 2014, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on independent appraisal, management projections, and guideline market data. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2015 and reportable transactions for the year ended December 31, 2015 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following description of The Original Mattress Factory (South) Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - DRMF, Inc., HSMF, Inc., and VAMF, Inc., along with The Original Mattress Factory, Inc. (the "Employer"), established the Plan effective January 1, 2011. Effective December 31, 2012, AHMF, Inc. entered the Plan as a new "participating employer," along with DRMF, Inc., HSMF, Inc., and VAMF, Inc. (collectively, the "Participating Employers" or the "Companies"). The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an advisory committee as determined by the Employer. An independent third-party trust company is the Plan's trustee (the "Trustee").

In January 2011, the Plan purchased 65,811.50 shares of the Participating Employers' common stock with a fair value of \$21,250,000 in exchange for notes totaling \$21,250,000 (see Note 6). The borrowings are to be repaid over a period of 12 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. During 2012, the Plan amended one of the notes to extend the term and amend the interest rate.

On December 31, 2012, the Plan purchased 20,390.00 shares of AHMF, Inc. common stock with a fair value of \$8,436,150 (see Note 6). The borrowings are to be repaid over a period of 15 years by fully deductible contributions or the Companies' distributions to the trust fund. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2015 and 2014 and for the year ended December 31, 2015 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Note 1 - Plan Description (Continued)

Eligibility - The Plan generally covers all full-time employees, other than former stockholder employees, of the Participating Employers who have completed one year of service in which they have completed 1,000 or more hours of service and are age 21 or older.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Participating Employers' common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of a participating employer as of the last day of the plan year and have completed 1,000 or more hours of service in the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting - Vesting in the Companies' contribution portion of their accounts, plus actual earnings thereon, is based on years of service in which they have completed 1,000 or more hours of service. Participants vest in contributions made by the Companies 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Diversification - Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to diversify up to 25 percent of the value of the participant's account, less any prior diversification distributions for a six-year period. During the last year of the six-year diversification period, participants are eligible to diversify up to 50 percent of the value of the participant's account, less any prior diversification distributions. The Plan will either permit the participant to diversify their account and offer at least three investment options or, in lieu of such offering, the elected amount may be distributed to the participant within 90 days of the participant's election to diversify.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment. If a participant's vested accrued benefit is equal to or less than \$5,000, the benefit shall be made in a lump-sum payment of cash or stock, as elected. If the vested accrued benefit exceeds \$5,000, then the benefit shall be paid in installments not to exceed five years with payments equal to 20 percent of the vested benefit or \$5,000, whichever is greater. In no event shall any amounts allocated to a participant's account be distributed until the end of the plan year in which the loans detailed in Note 6 are repaid in full, except to make required minimum distributions as required by Section 401(a)(9) of the Code.

Note 1 - Plan Description (Continued)

Under the provisions of the Plan, the Companies are required to distribute a participant's benefit in cash in accordance with the plan document. Cash may be obtained from the subaccounts of the remaining participants, who would receive an allocation of the Companies' stock equal to the cash used to make the distribution. The Plan may also use cash obtained from the sale of Companies' stock or from the Companies' contributions to the Plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Companies allocate forfeitures to participants based on participant compensation, as defined. Allocation of forfeitures is considered additional contributions and is subject to the vesting provisions of contributions. At December 31, 2015 and 2014, the amount of forfeited account balances totaled \$0 and \$32,989, respectively.

Termination - The Companies may terminate the Plan at any time, although its expectation is to continue the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances. Furthermore, all liabilities, trustee fees, and other operating expenses incurred after the termination date may, at the discretion of the Companies, be paid by the Plan. Additionally, shares of financed stock held in the loan suspense account are to be sold to the extent it determines such sale to be necessary in order to repay the loan. In the event of termination of the Plan, net assets would be distributed to the participants according to participant account balances.

Administration of Plan Assets - The Plan's assets, which consist principally of the Participating Employers' common shares, are held by the Trustee of the Plan.

The Companies' contributions are held and managed by the Trustee, which invests cash received, interest, and corporate distribution income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is funded through contributions or S corporation distributions as determined by the Companies.

Certain administrative functions are performed by officers or employees of the Companies or the Employer. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Voting Rights - The Trustee shall vote any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Note 1 - Plan Description (Continued)

Companies' Distributions - The Companies are S corporations. Distributions from the Companies on allocated shares of stock must be allocated to each participant's account based on the number of shares of stock allocated to each participant's account as of the record date. Distributions from the Companies on unallocated shares of stock may be allocated to each participant's account based on a ratio of each participant's adjusted compensation in relation to the adjusted compensation of all participants as of the record date or they may be used to make payments on an acquisition loan or pay plan expenses.

Party-in-interest Transactions - Certain plan assets are in investments in the Companies' stock. The Companies are the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from those estimates.

Included in the accompanying statement of net assets (deficit) available for benefits is an investment in the Companies' common stock reported at fair value of \$30,756,390 and \$30,784,047 as of December 31, 2015 and 2014, respectively. This asset is valued based upon a third-party appraiser's estimation of the current market value of the common stock and is supported by the Companies' financial statements. Due to estimates and assumptions made in developing such appraisals, it is at least reasonably possible that the market value of the investment may be different than reported.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets (deficit).

New Accounting Pronouncement - During 2015, the Plan adopted Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part II of the ASU was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 22, 2016, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include the financial condition of the Companies, the discounted cash flows and guideline company methods, and the marketability of the Companies.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Common Stock - Fair value of the Companies' stock is determined by annual independent appraisals.

Money Market Fund - Money market funds are valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,756,390	\$ -	\$ -	\$ 30,756,390
Money market fund	2,178,157	2,178,157	-	-

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Investments (at Fair Value)	Level 1	Level 2	Level 3
Companies' stock	\$ 30,784,047	\$ -	\$ -	\$ 30,784,047
Money market fund	1,479,643	1,479,643	-	-

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2015.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2015 are as follows:

	Companies' Stock
Balance at January 1, 2015	\$ 30,784,047
Total unrealized losses	(27,657)
Balance at December 31, 2015	<u>\$ 30,756,390</u>

Of the Level 3 assets still held by the Plan at December 31, 2015, the unrealized loss for the year ended December 31, 2015 was \$27,657, which is recognized in the statement of changes in net assets (deficit) available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Notes to Financial Statements

December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

The fair value of the Companies' common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Companies' assets and liabilities. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method were the weighted average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method was revenue growth.

The valuation process involves the plan trustee's selection of an independent appraiser with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the financial statements of the Companies. The appraiser prepares a preliminary report, which the plan trustee reviews in detail and discusses and approves.

Note 6 - Notes Payable

In January 2011, the Plan issued notes payable due to stockholders of the Companies or the Companies in exchange for 65,811.50 shares of the Companies' common stock. Notes totaling \$2,360,000 matured on December 27, 2015 and bore interest at a fixed rate designed to match the rate the Companies pay their primary lender (3.52 percent as of December 31, 2014 and through December 27, 2015). Notes totaling \$18,890,000 mature between January 1, 2021 and January 1, 2023, with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2011. The notes bear interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). During 2012, one of the notes totaling \$4,135,000 was amended to extend the term until January 1, 2023, and the interest rate on the note was amended to 5.00 percent until December 31, 2013 and then at prime plus 3.50 percent for the years following.

On December 31, 2012, the Plan issued a note payable due to stockholders of AHMF, Inc. (the "Company") in exchange for 20,390 shares of the Company's common stock. The note bears interest at 5 percent for the first two years and then at prime plus 3.50 percent for the years following (6.75 percent as of December 31, 2015). The notes totaling \$8,436,150 mature on January 1, 2028 with equal payments due on January 1, April 1, June 1, and September 1 of each year, beginning on April 1, 2013.
