A. DESCRIPTION OF PLAN

The following description of the GPI Hourly Savings plan (For Represented Employees), formerly known as Riverwood International Hourly Savings Plan (the "Plan"), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan and is sponsored by Graphic Packaging International, Inc. (the "Company"). Legacy Riverwood and Graphic full-time hourly employees whose employment is covered by the terms of a collective bargaining agreement are eligible to participate in the Plan on the first payroll date following employment or immediately upon re-employment if previously employed. Legacy Altivity full-time hourly employees whose employment is covered by the terms of a collective bargaining agreement are eligible to participate in the Plan on the first payroll date after meeting the service and age requirements, if applicable, as defined by the Plan. Rehires are eligible to participate immediately upon rehire if they have already met the service and age requirements, if applicable, as defined by the Plan. If the employee is a covered employee, such employee is eligible to participate in the Plan after completing at least 1,000 hours and meeting the applicable age and service eligibility requirements as defined by the Plan. Effective January 1, 2009, the Altivity Packaging Savings Plan for Union Hourly Employees merged into the Plan and the Plan was amended and restated. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 30, 2014, the Company completed the sale of their multi-wall bag business to Mondi Group. The divested assets included 9 converting plants located throughout the United States and the Pine Bluff, Arkansas kraft paper mill. The divestiture affected approximately 1,700 employees company-wide of which approximately 1,100 were participants in the Plan. As a result, as of June 30, 2014, the Plan was amended to allow multiple employers to participate in the Plan, specifically Mondi Group, so that the participants affected by the divestiture could continue to participate in the Plan. On December 15, 2014, Mondi Group transferred the assets of the participants affected by the divestiture to a newly established plan for the affected participants, and the Plan was amended back to single employer plan.

Effective January 1, 2015, the Plan has been restated to incorporate all prior amendments.

Contributions. Each year, legacy Graphic participants may contribute up to 25% of their pre-tax annual compensation to the Plan. Each legacy Riverwood and legacy Altivity location has different participant pre-tax and after-tax contribution rate percentage maximums. Any participant who is age 50 by the end of the Plan year may contribute additional "catch-up" contributions. Participants may also contribute in the form of a direct rollover, amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to maximum annual contribution limits.

The Company contribution is based on matching of pre-tax contributions, as defined by the Plan. In addition, several locations are eligible for Supplemental Employer Contributions, Special Employer Contributions and Employer Automatic Contributions pursuant to the collective bargaining agreements in effect for each location, as defined by the Plan.

Notes to Financial Statements (Continued)

Participant Accounts. Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings or losses. Participant accounts are charged with withdrawals and investment fees which are netted against the revenue allocated to them and certain loan and distribution fees. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their elective deferrals, rollover contributions plus actual earnings thereon. Vesting in employer contributions varies based on the type of employer contribution which varies by location, as defined by the Plan.

Payment of Benefits. A participant is entitled to a distribution of 100% of his or her account balance upon retirement, death, or disability. Upon termination of service for any other reason or if the participant has attained the age of 59 1/2, a participant may elect to receive the value of the vested portion of their account either as a lump-sum amount or in the form of installment payments. A participant may take a distribution in the event of financial hardship if all requirements are met as specified by the Plan document.

Notes Receivable from Participants. In accordance with the Plan, certain participants may borrow from their accounts in amounts equal to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The Plan prohibits loans from being made out of the participant's Supplemental Employer Contribution portion of the participant's account. The loans are secured by the balance in the participant's account and bear varying rates of interest, which are commensurate with local prevailing rates as determined by the Plan administrator. The loans can have up to a maximum term of 57 months, unless the loan is to be used in conjunction with a purchase of a principal residence and in that case the loan can have a maximum term of 25 years. Interest rates range from 4.25% to 10.50% per annum on loans outstanding as of December 31, 2015. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts. For the plan year ended December 31, 2015, forfeitures of \$102,656 were used to reduce employer contributions. As of December 31, 2015 and 2014, forfeited nonvested accounts totaled \$734 and \$5,561, respectively. These accounts are available to reduce future employer contributions to the Plan or pay the Plan's administrative expenses.

Administrative Expenses. With the exception of certain administrative costs, substantially all costs of administering the Plan are paid by the Company. These costs include legal, accounting and administrative fees.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies which significantly affect the determination of net assets available for plan benefits and results of operations are summarized below.

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

GPI Hourly Savings Plan (For Represented Employees)

Notes to Financial Statements (Continued)

Investment Valuation and Income Recognition. Investments in the GPI Savings Plans Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the GPI Savings Plans Master Trust's net income (loss) which consists of realized gains or (losses), unrealized appreciation (depreciation) on investments and interest and dividend income.

Management fees and operating expenses charged to the GPI Savings Plans Master Trust for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risks and Uncertainties. The GPI Savings Plans Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the levels of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Payment of Benefits. Benefits are recorded when paid.

Adoption of New Accounting Pronouncements. In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification ("ASC") 820, *Fair Value Measurements* ("ASC 820"). The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt ASU 2015-07 effective with the December 31, 2015 financial statements, with

retrospective application to all periods presented. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan assets. Part III allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt Part II effective with the December 31, 2015 financial statements, with retrospective application to all periods presented. Parts I and III are not applicable to the Plan. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

C. INTEREST IN GPI SAVINGS PLANS MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the GPI Savings Plans Master Trust, which was established for the investment of assets of the Plan and certain assets of another Company sponsored retirement plan. The plans participating in the GPI Savings Plans Master Trust collectively own, through the GPI Savings Plans Master Trust, the assets based upon investment percentages. Participant transaction activity is designated to specific plans. Accordingly, each plan's investment percentage in the GPI Savings Plans Master Trust changes regularly. Income earned by the GPI Savings Plans Master Trust is allocated to the various plans based upon the investment percentage on the day the income is earned. At December 31, 2015 and 2014, the Plan's interest in the net assets of the GPI Savings Plans Master Trust was approximately 32%. Investment income and administrative expenses relating to the GPI Savings Plans Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Trust.

The Trustee of the Plan holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

D. FAIR VALUE MEASUREMENTS

ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**GPI Hourly Savings Plan
(For Represented Employees)**

Notes to Financial Statements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Graphic Packaging Stock Fund: The Graphic Packaging Stock Fund consists primarily of shares of the Company's common stock. The underlying common stock is valued at the last reported sales price at the end of the year or, if there were no sales that day, the last reported bid price. Effective January 1, 2004, no additional shares of Company stock may be purchased through the Plan.

Cash and cash equivalents: Valued at cost, which approximates fair value.

Common/collective trusts: Valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2015 and 2014, there are no unfunded commitments or redemption restrictions.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (Continued)

The following tables set forth by level, within the fair value hierarchy, the GPI Savings Plans Master Trust's investments at fair value as of December 31, 2015 and 2014. There were no level 2 or 3 investments as of December 31, 2015 and 2014.

	December 31,	
	2015	2014
Level 1 Investments:		
Mutual Funds	\$405,369,162	\$431,115,906
Cash and Cash Equivalents	91,310,378	90,158,278
Graphic Packaging Stock Fund	<u>17,777,110</u>	<u>21,334,502</u>
Investments in the Fair Value Hierarchy	514,456,650	542,608,686
Common/Collective Trusts, measured at NAV (1)	<u>186,762,726</u>	<u>168,775,817</u>
Total Investments, at fair value	<u>\$701,219,376</u>	<u>\$711,384,503</u>

(1) These investments that are measured at fair value using the NAV per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in their accounts.

F. INCOME TAX STATUS

The Plan obtained a determination letter dated December 9, 2011 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan was amended and restated effective January 1, 2015 and a new determination letter dated May 28, 2015 was received from the IRS. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
