Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
Medieval Times 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Medieval Times 401(k) Plan, which are comprised of the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the administrative services provider as agent for Hartford Life Insurance Company, the investment contract issuer of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the investment contract issuer holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent on behalf of the investment contract issuer as of December 31, 2015 and for the year then ended, that the information provided to the plan administrator by the agent of the investment contract issuer is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules of (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015 and (2) Schedule H, Line 4a – Schedule of Delinquent Contributions for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter – 2014 Financial Statement

The financial statement of the Plan as of December 31, 2014 was audited by a predecessor auditor. As permitted by 20 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the administrative service provider as agent for the investment contract issuer. Their report, dated July 20, 2015, indicated that (a) because of the significance of the information they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the administrative service provider as agent for the investment contract issuer, were present in compliance with the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the administrative service provider as agent for the investment contract issuer, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

The following description of the Medieval Times 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 2003 and qualifies as a defined contribution retirement plan for Medieval Times, Inc. (the "Company") eligible employees. The Plan was established for the purpose of providing retirement benefits to eligible employees. The Plan is intended to qualify as a cash or deferred arrangement under Section 401(a) of the Internal Revenue Code ("IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees, or equivalent, is responsible for the oversight of the Plan. The Investment Committee, or equivalent, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 1, 2016, the Plan was restated.

Participant Eligibility

All non-highly compensated employees are eligible to participate in the Plan after the completion of one year of service and upon reaching age 18. Matching contributions are allocated to all eligible employees who are eligible on the last day of the Plan year. Participants may enter the Plan on the first day of each calendar month.

Contributions

Under the provisions of the Plan, eligible participants can defer up to $18,000 for the year ended December 31, 2015. In addition, all eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v).

The Company may make discretionary matching contributions, to be determined as of the end of the Plan year, to a participants account not to exceed 50% of the first 6% of the participants compensation contributed as an elective deferral for the year ended December 31, 2015. For the year ended December 31, 2015, the Company elected to make matching contributions in the amount of $144,762. No forfeitures were used to reduce the Company matching contributions.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) Plan earnings.

Vesting

Participants are 100% vested in their deferral contributions plus earnings on those contributions. Participants become vested in their Company matching contributions and any earnings on these contributions as follows:

Years of Vested Service	Percentage
Less than two years	0%
At least two years, but less than three	20%
At least three years, but less than four	40%
At least four years, but less than five	60%
At least five years, but less than six	80%
Six years or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contributions and earnings on those contributions may be used to pay Plan level administrative expenses or to reduce Company contributions. During the year ended December 31, 2015, the Plan used approximately $20,900 of forfeitures to reduce 2014 Company matching contributions during 2015. As of December 31, 2015 and 2014, there were $363 and $3,557 of forfeitures available, respectively. No forfeitures were used to reduce the 2015 Company matching contributions which were remitted to the Plan in 2016.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the investment options maintained by Hartford Life Insurance Company.

Benefit Payments

Retired or terminated participants receive the vested portion of their Company contributions and earnings on their Company contributions and one hundred percent (100%) of their pre-tax contributions as soon as administratively possible following retirement, termination or upon becoming disabled.

Contribution Funding

The Company funds its participant contributions on a bi-weekly concurrent with each pay period and funds its Company matching contributions annually.

Note 1. Description of the Plan (continued)

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant's accounts and are included in administration expense. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts. Investment related expenses are included in net appreciation (depreciation) of fair value measurements.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value except for the fully benefit-responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee, or equivalent, determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 5 for discussion of fair value measurements and Note 3 for discussion of the fully benefit-responsive investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan before the Plan's year end, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Note 2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest are paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Concentrations

As of December 31, 2015 and 2014, one investment accounted for approximately 26% of the Plan's net assets.

Recent Accounting Policies

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960, Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient)*. ASU No. 2015-12 has three parts. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts; Part II eliminates the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Additionally, investment strategies are not required for direct filing entities and the self-directed brokerage accounts may be presented as a single line item. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning after December 15, 2015 with early adoption allowed. Management has elected to early adopt ASU 2015-12. Prior period amounts have been reclassified to reflect the revised presentation. There was no material impact to the Plan's financial statements.

In May 2015, the FASB issued Accounting Standards Update ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 removes the requirement to include all investments in the fair value hierarchy for which the fair value is measured at net asset value (NAV) per share using the practical expedient, under Fair Value Measurements and Disclosures (Topic 820). ASU No. 2015-07 is effective for nonpublic business entities for annual reporting periods beginning after December 15, 2016. Management does not expect adopting ASU 2015-07 will have a material impact on the Plan's financial statements.

Note 2. Significant Accounting Policies (continued)

Subsequent Events

Subsequent events have been evaluated through July 26, 2016, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Pooled Separate Accounts

The Plan participants in a contract with Hartford Life Insurance Company ("Hartford") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Hartford holds these assets in trust for the participating plans.

Guaranteed Interest Account

The Plan participates in a group funding agreement with Hartford which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund is considered to be a fully benefit-responsive investment contract (as described in Note 2). Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rates are 1.7% and 1.7% for the years ended December 31, 2015 and 2014, respectively.

Note 4. Information Certified by an Agent on Behalf of an Investment Contract Issuer and an Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the agent on behalf of Hartford Life Insurance Company, the investment contract issuer of the Plan, as complete and accurate, except for comparing such information certified by an investment contract issuer and the trustee to information included in the Plan's financial statements and supplemental schedule:

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by an agent on behalf of Hartford Life Insurance Company, the investment contract issuer, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 5. Fair Value Measurements (continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") as a practical expedient provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2015 and 2014:

	Fair Value Measurements Using Input Type			
December 31, 2015	**Level 1**	**Level 2**	**Level 3**	**Total**

The following presents additional information relative to Plan investments reported on net asset value at December 31, 2015 and 2014:

American Century Mid Cap Value: Seeks long-term capital growth; income is a secondary consideration. Under normal market conditions, the portfolio managers will invest at least 80% of the fund's net assets in medium size companies. The portfolio managers consider medium size companies to include those whose market capitalization at the time of purchase is within the capitalization range of the Russell 3000 Index, excluding the largest 100 such companies. As of December 31, 2015 and 2014, amounts invested in this investment fund were $44,132 and $0, respectively.

Eaton Vance Atlanta Capital Small/Mid Cap: Seeks long-term capital growth. Under normal circumstances, the fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in small- to mid-cap stocks (the "80% Policy"). The portfolio managers generally consider small to mid-cap companies to be those companies having market capitalizations within the range of companies comprising the Russell 2500 TM Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $46,441 and $16,463, respectively.

Franklin High Income: Seeks to earn a high level of current income; its secondary goal is to seek capital appreciation to the extent it is possible and consistent with the fund's principal goal. The fund invests predominantly in high yield, lower-rated debt securities. Lower-rated securities generally pay higher yields than more highly rated securities to compensate investors for the higher risk. These securities include bonds, notes, debentures, convertible securities and senior and subordinated debt securities. It may invest up to 100% of its total assets in debt securities that are rated below investment grade, also known as "junk bonds." As of December 31, 2015 and 2014, amounts invested in this investment fund were $23,373 and $19,981, respectively.

Templeton Global Bond: Seeks current income with capital appreciation and growth of income. Under normal market conditions, the fund invests at least 80% of its net assets in "bonds." Bonds include debt obligations of any maturity, such as bonds, notes, bills and debentures. It invests predominantly in bonds issued by governments, government-related entities and government agencies located around the world. The fund may invest up to 25% of its total assets in bonds that are rated below investment grade or, if unrated determined by the investment manager to be of comparable quality. It is non-diversified. As of December 31, 2015 and 2014, amounts invested in this investment fund were $15,967 and $11,322, respectively.

Note 5. Fair Value Measurements (continued)

Goldman Sachs Small Cap Value: Seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets plus any borrowings for investment purposes (measured at time of purchase) ("net assets") in a diversified portfolio of equity investments in small-cap issuers with public stock market capitalizations within the range of the market capitalization of companies constituting the Russell 2000 Value Index at the time of investment. Although it will invest primarily in publicly traded U.S. securities, including real estate investment trusts ("REITs"), it may also invest in foreign securities. As of December 31, 2015 and 2014, amounts invested in this investment fund were $40,166 and $18,668, respectively.

Hartford International Small Company: Seeks capital appreciation. Under normal circumstances, the fund invests at least 80% of its assets in equity securities, including non-dollar securities, of foreign small-capitalization companies. The fund diversifies its investments among a number of different countries throughout the world, with no limit on the amount of assets that may be invested in each country. The fund's investment approach is to invest in equity securities of foreign issuers that the sub-adviser, Wellington Management Company LLP, believes have significant potential for capital appreciation. As of December 31, 2015 and 2014, amounts invested in this investment fund were $51,986 and $41,813, respectively.

HIMCO VIT Index: Seeks to provide investment results which approximate the price and yield performance of publicly traded common stocks in the aggregate. The fund uses the Standard & Poor's 500 Index as its standard performance comparison because it represents a significant proportion of the total market value of all common stocks, is well known to investors and, in the opinion of the fund's investment manager, is representative of the performance of publicly-traded common stocks. The index is comprised of 500 selected companies, most of which are listed on the New York Stock Exchange. As of December 31, 2015 and 2014, amounts invested in this investment fund were $54,406 and $48,855, respectively.

Invesco Comstock: Seeks total return through growth of capital and current income. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in common stocks, and in derivatives and other instruments that have economic characteristics similar to such securities. It may invest in securities of issuers of any market capitalization; however, a substantial number of the issuers in which the fund invests are large-capitalization issuers. The fund may invest up to 10% of its net assets in REITs. As of December 31, 2015 and 2014, amounts invested in this investment fund were $41,428 and $36,071, respectively.

Invesco Small Cap Growth: Seeks long-term growth of capital. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small-capitalization issuers. It invests primarily in equity securities. The principal type of equity security in which the fund invests is common stock. The fund's managers consider an issuer to be a small capitalization issuer if it has a market capitalization, at the time of purchase, no larger than the largest capitalized issuer included in the Russell 2000 Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $27,825 and $0, respectively.

Note 5. Fair Value Measurements (continued)

JPM Small Cap Value: Seeks long-term capital growth primarily by investing in equity securities of small-capitalization companies. The fund normally invests at least 80% of its assets in equity securities of small cap companies. Small cap companies are companies with market capitalizations equal to those within the universe of the Russell 2000 Value Index stocks at the time of purchase. In reviewing investment opportunities for the fund, its adviser uses a value-oriented approach. In implementing its main strategies, the fund's equity investments are primarily in common stocks and REITs. As of December 31, 2015 and 2014, amounts invested in this investment fund were $42,605 and $40,874, respectively.

JPMorgan Smart Retirement 2015-2055: Seeks high total return with a shift to current income and some capital appreciation over time as the fund approaches and passes the target retirement date. The fund is a "fund of funds" that invests in other J.P. Morgan Funds (underlying funds), and is generally intended for investors expecting to retire around the year their target retirement date (dates from 2015-2055). It is designed to provide exposure to a variety of asset classes through investments in underlying funds, and over time the fund's asset allocation strategy will change. As of December 31, 2015 and 2014, amounts invested in these funds were $3,893,925 and $3,932,811, respectively.

JPMorgan Smart Retirement Income: Seeks current income and some capital appreciation. The fund is a "fund of funds" that invests in other J.P. Morgan Funds (underlying funds), and is generally intended for investors who are retired or about to retire soon. It is designed to provide exposure to a variety of asset classes through investments in underlying funds, with an emphasis on fixed income funds over equity funds and other funds. As of December 31, 2015 and 2014, amounts invested in this investment fund were $244,312 and $243,585, respectively.

Lord Abbett Total Return: Seeks income and capital appreciation to produce a high total return. Under normal conditions, the fund pursues its investment objective by investing primarily in investment grade debt (or fixed income) securities including Securities issued or guaranteed by the U.S. government, its agencies or government-sponsored enterprises; Corporate debt securities; Mortgage-backed and other asset-backed securities; Inflation-linked investments; and Senior loans. The fund may invest up to 20% of its net assets in high-yield debt securities. It may invest up to 20% of its net assets in debt securities that are denominated in foreign currencies. As of December 31, 2015 and 2014, amounts invested in this investment fund were $36,087 and $0, respectively.

Massachusetts Investors Trust: Seeks capital appreciation. The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. While it may invest the fund's assets in companies of any size, the fund primarily invests in companies with large capitalizations. It may invest the fund's assets in foreign securities. As of December 31, 2015 and 2014, amounts invested in this investment fund were $58,160 and $22,878, respectively.

Note 5. Fair Value Measurements (continued)

MFS International Value: Seeks capital appreciation. The fund normally invests its assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The advisor focuses on investing the fund's assets in the stocks of companies it believes are undervalued compared to their intrinsic value (value companies). As of December 31, 2015 and 2014, amounts invested in this investment fund were $16,768 and $0, respectively.

Nuveen Mid Cap Index: Seeks to provide investment results that correspond to the performance of the Standard & Poor's MidCap 400 Index. Under normal market conditions, the fund invests at least 90% of the sum of its net assets and the amount of any borrowings for investment purposes in common stocks included in the S&P MidCap 400 Index. This index is an unmanaged market-value weighted index consisting of 400 stocks chosen for market size, liquidity, sector representation and other factors that represents the mid range sector of the U.S. stock market. As of December 31, 2015 and 2014, amounts invested in this investment fund were $8,293 and $3,255, respectively.

Oppenheimer Global: Seeks capital appreciation. The fund invests mainly in common stock of U.S. and foreign companies. It can invest without limit in foreign securities and can invest in any country, including countries with developing or emerging markets. However, the fund currently emphasizes its investments in developed markets such as the United States, Western European countries and Japan. It does not limit its investments to companies in a particular capitalization range, but primarily invests in mid- and large-cap companies. The fund normally will invest in at least three countries (one of which may be the United States). As of December 31, 2015 and 2014, amounts invested in this investment fund were $45,977 and $17,980, respectively.

PIMCO Real Return: Seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It invests primarily in investment grade securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher. As of December 31, 2015 and 2014, amounts invested in this investment fund were $12,640 and $13,909, respectively.

PIMCO Total Return: Seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $11,838, respectively.

Note 5. Fair Value Measurements (continued)

AllianceBernstein Discovery Value: Seeks long-term growth of capital. The fund invests primarily in a diversified portfolio of equity securities of small- to mid-capitalization U.S. companies. Under normal circumstances, it invests at least 80% of its net assets in securities of small- to mid-capitalization companies. For purposes of this policy, small- to mid-capitalization companies are those that, at the time of investment, fall within the capitalization range between the smallest company in the Russell 2500 Value Index and the greater of $5 billion or the market capitalization of the largest company in the Russell 2500 Value Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $42,606, respectively.

MFS Research International: Seeks capital appreciation. The fund normally invests its assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. It may invest a large percentage of the fund's assets in issuers in a single country, a small number of countries, or a particular geographic region. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $12,536, respectively.

MFS New Discovery: Seeks capital appreciation. The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies). As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $23,117, respectively.

The pooled separate account investment funds are subject to the redemption frequency of daily and do not have any redemption restrictions. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2015 and 2014.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each participant shall be fully vested and non-forfeitable at the time of termination.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2009 that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended and restated since receiving the determination letter, the plan administrator and the Plan's legal counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 9. Party-In-Interest Transactions

Certain Plan investments are units in pooled separate accounts which are managed by Hartford Life Insurance Company. Hartford Life Insurance Company is the investment contract issuer as defined by the Plan. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Harford Life Insurance Company, other investment custodians and investment advisors.

Additionally, as noted in Note 1, certain administrative expenses are paid directly to Mass Mutual Life Insurance Company, agent for Hartford Life Insurance Company and are included in administrative expenses. Additionally, fees may be paid to certain service providers that are considered parties-in-interest under ERISA, and these fees are included in administrative expenses.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Prohibited Transactions

During the Plan year ended December 31, 2014, the plan sponsor inadvertently failed to deposit approximately $15,300 of participant deferrals within the required timeframe as stated by ERISA. These deferrals and loan payments were deposited beyond the earliest expected date on which assets could be segregated from the Employer's assets. The U.S. Department of Labor considers late deposits to be prohibited transactions. The plan sponsor calculated lost earnings and deposited the lost earnings, participant deferrals and loan payments into the Plan. The participant deferrals were deposited into the Plan during the Plan year ended December 31, 2014, and the lost earnings were deposited in 2016.

The plan sponsor has self-corrected these prohibited transactions and does not believe that these issues will have a material impact on the Plan's net assets available for benefits or the Plan's tax status.

Note 11. Form 5500 Reconciliation

Due to timing differences, the financial statements for the years ending December 31, 2015 and 2014 reflect a difference in net assets available for benefits and a difference in net increase in net assets available for benefits as compared to the Form 5500.

The following is a reconciliation of net assets available for benefits from the financial statements to the Form 5500:

	December 31,	
	2015	**2014**
Net assets available for benefits per the financial statements	$ 5,100,616	$ 4,886,396

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2015 - 12/31/2015 and indirect compensation is presented on a calendar year basis ending 12/31/2015.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because, among other potential considerations, plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Total Direct Compensation Paid **$1,590.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: Massachusetts Mutual Life Insurance Company EIN: 04-1590850

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$1,590.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2015 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Massachusetts Mutual Life Insurance Company ("MMLIC") are the net result of aggregating direct compensation after the effects of adjustments processed in 2015, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$89.71**

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (0.573% for 2015) earned on the bank accounts and investments associated with the short-term investment pool for the 2015 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are

invested in Massachusetts Mutual Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2015 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

In addition, please note that some of the funds available through your service contract or arrangement are funds from the Oppenheimer family of mutual funds, which are affiliated with MassMutual (The Oppenheimer Funds). These affiliated mutual funds have contracts for services with companies that are affiliated with MassMutual. The MassMutual-affiliated companies that provide these services, and are compensated in connection with those services, are listed below. For more information about these affiliated mutual funds, see the applicable fund prospectus.

Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
Medieval Times 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Medieval Times 401(k) Plan, which are comprised of the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the administrative services provider as agent for Hartford Life Insurance Company, the investment contract issuer of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the investment contract issuer holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent on behalf of the investment contract issuer as of December 31, 2015 and for the year then ended, that the information provided to the plan administrator by the agent of the investment contract issuer is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules of (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015 and (2) Schedule H, Line 4a – Schedule of Delinquent Contributions for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter – 2014 Financial Statement

The financial statement of the Plan as of December 31, 2014 was audited by a predecessor auditor. As permitted by 20 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the administrative service provider as agent for the investment contract issuer. Their report, dated July 20, 2015, indicated that (a) because of the significance of the information they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the administrative service provider as agent for the investment contract issuer, were present in compliance with the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the administrative service provider as agent for the investment contract issuer, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

The following description of the Medieval Times 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 2003 and qualifies as a defined contribution retirement plan for Medieval Times, Inc. (the "Company") eligible employees. The Plan was established for the purpose of providing retirement benefits to eligible employees. The Plan is intended to qualify as a cash or deferred arrangement under Section 401(a) of the Internal Revenue Code ("IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees, or equivalent, is responsible for the oversight of the Plan. The Investment Committee, or equivalent, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 1, 2016, the Plan was restated.

Participant Eligibility

All non-highly compensated employees are eligible to participate in the Plan after the completion of one year of service and upon reaching age 18. Matching contributions are allocated to all eligible employees who are eligible on the last day of the Plan year. Participants may enter the Plan on the first day of each calendar month.

Contributions

Under the provisions of the Plan, eligible participants can defer up to $18,000 for the year ended December 31, 2015. In addition, all eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v).

The Company may make discretionary matching contributions, to be determined as of the end of the Plan year, to a participants account not to exceed 50% of the first 6% of the participants compensation contributed as an elective deferral for the year ended December 31, 2015. For the year ended December 31, 2015, the Company elected to make matching contributions in the amount of $144,762. No forfeitures were used to reduce the Company matching contributions.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) Plan earnings.

Vesting

Participants are 100% vested in their deferral contributions plus earnings on those contributions. Participants become vested in their Company matching contributions and any earnings on these contributions as follows:

Years of Vested Service	Percentage
Less than two years	0%
At least two years, but less than three	20%
At least three years, but less than four	40%
At least four years, but less than five	60%
At least five years, but less than six	80%
Six years or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contributions and earnings on those contributions may be used to pay Plan level administrative expenses or to reduce Company contributions. During the year ended December 31, 2015, the Plan used approximately $20,900 of forfeitures to reduce 2014 Company matching contributions during 2015. As of December 31, 2015 and 2014, there were $363 and $3,557 of forfeitures available, respectively. No forfeitures were used to reduce the 2015 Company matching contributions which were remitted to the Plan in 2016.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the investment options maintained by Hartford Life Insurance Company.

Benefit Payments

Retired or terminated participants receive the vested portion of their Company contributions and earnings on their Company contributions and one hundred percent (100%) of their pre-tax contributions as soon as administratively possible following retirement, termination or upon becoming disabled.

Contribution Funding

The Company funds its participant contributions on a bi-weekly concurrent with each pay period and funds its Company matching contributions annually.

Note 1. Description of the Plan (continued)

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant's accounts and are included in administration expense. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts. Investment related expenses are included in net appreciation (depreciation) of fair value measurements.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value except for the fully benefit-responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee, or equivalent, determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 5 for discussion of fair value measurements and Note 3 for discussion of the fully benefit-responsive investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan before the Plan's year end, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Note 2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest are paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Concentrations

As of December 31, 2015 and 2014, one investment accounted for approximately 26% of the Plan's net assets.

Recent Accounting Policies

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960, Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient)*. ASU No. 2015-12 has three parts. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts; Part II eliminates the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Additionally, investment strategies are not required for direct filing entities and the self-directed brokerage accounts may be presented as a single line item. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning after December 15, 2015 with early adoption allowed. Management has elected to early adopt ASU 2015-12. Prior period amounts have been reclassified to reflect the revised presentation. There was no material impact to the Plan's financial statements.

In May 2015, the FASB issued Accounting Standards Update ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 removes the requirement to include all investments in the fair value hierarchy for which the fair value is measured at net asset value (NAV) per share using the practical expedient, under Fair Value Measurements and Disclosures (Topic 820). ASU No. 2015-07 is effective for nonpublic business entities for annual reporting periods beginning after December 15, 2016. Management does not expect adopting ASU 2015-07 will have a material impact on the Plan's financial statements.

Note 2. Significant Accounting Policies (continued)

Subsequent Events

Subsequent events have been evaluated through July 26, 2016, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Pooled Separate Accounts

The Plan participants in a contract with Hartford Life Insurance Company ("Hartford") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Hartford holds these assets in trust for the participating plans.

Guaranteed Interest Account

The Plan participates in a group funding agreement with Hartford which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund is considered to be a fully benefit-responsive investment contract (as described in Note 2). Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rates are 1.7% and 1.7% for the years ended December 31, 2015 and 2014, respectively.

Note 4. Information Certified by an Agent on Behalf of an Investment Contract Issuer and an Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the agent on behalf of Hartford Life Insurance Company, the investment contract issuer of the Plan, as complete and accurate, except for comparing such information certified by an investment contract issuer and the trustee to information included in the Plan's financial statements and supplemental schedule:

d) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held At End of Year)

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by an agent on behalf of Hartford Life Insurance Company, the investment contract issuer, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 5. Fair Value Measurements (continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") as a practical expedient provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2015 and 2014:

	Fair Value Measurements Using Input Type			
December 31, 2015	**Level 1**	**Level 2**	**Level 3**	**Total**

Note 5. Fair Value Measurements (continued)

The following presents additional information relative to Plan investments reported on net asset value at December 31, 2015 and 2014:

American Century Mid Cap Value: Seeks long-term capital growth; income is a secondary consideration. Under normal market conditions, the portfolio managers will invest at least 80% of the fund's net assets in medium size companies. The portfolio managers consider medium size companies to include those whose market capitalization at the time of purchase is within the capitalization range of the Russell 3000 Index, excluding the largest 100 such companies. As of December 31, 2015 and 2014, amounts invested in this investment fund were $44,132 and $0, respectively.

Eaton Vance Atlanta Capital Small/Mid Cap: Seeks long-term capital growth. Under normal circumstances, the fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in small- to mid-cap stocks (the "80% Policy"). The portfolio managers generally consider small to mid-cap companies to be those companies having market capitalizations within the range of companies comprising the Russell 2500 TM Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $46,441 and $16,463, respectively.

Franklin High Income: Seeks to earn a high level of current income; its secondary goal is to seek capital appreciation to the extent it is possible and consistent with the fund's principal goal. The fund invests predominantly in high yield, lower-rated debt securities. Lower-rated securities generally pay higher yields than more highly rated securities to compensate investors for the higher risk. These securities include bonds, notes, debentures, convertible securities and senior and subordinated debt securities. It may invest up to 100% of its total assets in debt securities that are rated below investment grade, also known as "junk bonds." As of December 31, 2015 and 2014, amounts invested in this investment fund were $23,373 and $19,981, respectively.

Templeton Global Bond: Seeks current income with capital appreciation and growth of income. Under normal market conditions, the fund invests at least 80% of its net assets in "bonds." Bonds include debt obligations of any maturity, such as bonds, notes, bills and debentures. It invests predominantly in bonds issued by governments, government-related entities and government agencies located around the world. The fund may invest up to 25% of its total assets in bonds that are rated below investment grade or, if unrated determined by the investment manager to be of comparable quality. It is non-diversified. As of December 31, 2015 and 2014, amounts invested in this investment fund were $15,967 and $11,322, respectively.

Note 5. Fair Value Measurements (continued)

Goldman Sachs Small Cap Value: Seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets plus any borrowings for investment purposes (measured at time of purchase) ("net assets") in a diversified portfolio of equity investments in small-cap issuers with public stock market capitalizations within the range of the market capitalization of companies constituting the Russell 2000 Value Index at the time of investment. Although it will invest primarily in publicly traded U.S. securities, including real estate investment trusts ("REITs"), it may also invest in foreign securities. As of December 31, 2015 and 2014, amounts invested in this investment fund were $40,166 and $18,668, respectively.

Hartford International Small Company: Seeks capital appreciation. Under normal circumstances, the fund invests at least 80% of its assets in equity securities, including non-dollar securities, of foreign small-capitalization companies. The fund diversifies its investments among a number of different countries throughout the world, with no limit on the amount of assets that may be invested in each country. The fund's investment approach is to invest in equity securities of foreign issuers that the sub-adviser, Wellington Management Company LLP, believes have significant potential for capital appreciation. As of December 31, 2015 and 2014, amounts invested in this investment fund were $51,986 and $41,813, respectively.

HIMCO VIT Index: Seeks to provide investment results which approximate the price and yield performance of publicly traded common stocks in the aggregate. The fund uses the Standard & Poor's 500 Index as its standard performance comparison because it represents a significant proportion of the total market value of all common stocks, is well known to investors and, in the opinion of the fund's investment manager, is representative of the performance of publicly-traded common stocks. The index is comprised of 500 selected companies, most of which are listed on the New York Stock Exchange. As of December 31, 2015 and 2014, amounts invested in this investment fund were $54,406 and $48,855, respectively.

Invesco Comstock: Seeks total return through growth of capital and current income. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in common stocks, and in derivatives and other instruments that have economic characteristics similar to such securities. It may invest in securities of issuers of any market capitalization; however, a substantial number of the issuers in which the fund invests are large-capitalization issuers. The fund may invest up to 10% of its net assets in REITs. As of December 31, 2015 and 2014, amounts invested in this investment fund were $41,428 and $36,071, respectively.

Invesco Small Cap Growth: Seeks long-term growth of capital. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small-capitalization issuers. It invests primarily in equity securities. The principal type of equity security in which the fund invests is common stock. The fund's managers consider an issuer to be a small capitalization issuer if it has a market capitalization, at the time of purchase, no larger than the largest capitalized issuer included in the Russell 2000 Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $27,825 and $0, respectively.

Note 5. Fair Value Measurements (continued)

JPM Small Cap Value: Seeks long-term capital growth primarily by investing in equity securities of small-capitalization companies. The fund normally invests at least 80% of its assets in equity securities of small cap companies. Small cap companies are companies with market capitalizations equal to those within the universe of the Russell 2000 Value Index stocks at the time of purchase. In reviewing investment opportunities for the fund, its adviser uses a value-oriented approach. In implementing its main strategies, the fund's equity investments are primarily in common stocks and REITs. As of December 31, 2015 and 2014, amounts invested in this investment fund were $42,605 and $40,874, respectively.

JPMorgan Smart Retirement 2015-2055: Seeks high total return with a shift to current income and some capital appreciation over time as the fund approaches and passes the target retirement date. The fund is a "fund of funds" that invests in other J.P. Morgan Funds (underlying funds), and is generally intended for investors expecting to retire around the year their target retirement date (dates from 2015-2055). It is designed to provide exposure to a variety of asset classes through investments in underlying funds, and over time the fund's asset allocation strategy will change. As of December 31, 2015 and 2014, amounts invested in these funds were $3,893,925 and $3,932,811, respectively.

JPMorgan Smart Retirement Income: Seeks current income and some capital appreciation. The fund is a "fund of funds" that invests in other J.P. Morgan Funds (underlying funds), and is generally intended for investors who are retired or about to retire soon. It is designed to provide exposure to a variety of asset classes through investments in underlying funds, with an emphasis on fixed income funds over equity funds and other funds. As of December 31, 2015 and 2014, amounts invested in this investment fund were $244,312 and $243,585, respectively.

Lord Abbett Total Return: Seeks income and capital appreciation to produce a high total return. Under normal conditions, the fund pursues its investment objective by investing primarily in investment grade debt (or fixed income) securities including Securities issued or guaranteed by the U.S. government, its agencies or government-sponsored enterprises; Corporate debt securities; Mortgage-backed and other asset-backed securities; Inflation-linked investments; and Senior loans. The fund may invest up to 20% of its net assets in high-yield debt securities. It may invest up to 20% of its net assets in debt securities that are denominated in foreign currencies. As of December 31, 2015 and 2014, amounts invested in this investment fund were $36,087 and $0, respectively.

Massachusetts Investors Trust: Seeks capital appreciation. The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. While it may invest the fund's assets in companies of any size, the fund primarily invests in companies with large capitalizations. It may invest the fund's assets in foreign securities. As of December 31, 2015 and 2014, amounts invested in this investment fund were $58,160 and $22,878, respectively.

Note 5. Fair Value Measurements (continued)

MFS International Value: Seeks capital appreciation. The fund normally invests its assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The advisor focuses on investing the fund's assets in the stocks of companies it believes are undervalued compared to their intrinsic value (value companies). As of December 31, 2015 and 2014, amounts invested in this investment fund were $16,768 and $0, respectively.

Nuveen Mid Cap Index: Seeks to provide investment results that correspond to the performance of the Standard & Poor's MidCap 400 Index. Under normal market conditions, the fund invests at least 90% of the sum of its net assets and the amount of any borrowings for investment purposes in common stocks included in the S&P MidCap 400 Index. This index is an unmanaged market-value weighted index consisting of 400 stocks chosen for market size, liquidity, sector representation and other factors that represents the mid range sector of the U.S. stock market. As of December 31, 2015 and 2014, amounts invested in this investment fund were $8,293 and $3,255, respectively.

Oppenheimer Global: Seeks capital appreciation. The fund invests mainly in common stock of U.S. and foreign companies. It can invest without limit in foreign securities and can invest in any country, including countries with developing or emerging markets. However, the fund currently emphasizes its investments in developed markets such as the United States, Western European countries and Japan. It does not limit its investments to companies in a particular capitalization range, but primarily invests in mid- and large-cap companies. The fund normally will invest in at least three countries (one of which may be the United States). As of December 31, 2015 and 2014, amounts invested in this investment fund were $45,977 and $17,980, respectively.

PIMCO Real Return: Seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It invests primarily in investment grade securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher. As of December 31, 2015 and 2014, amounts invested in this investment fund were $12,640 and $13,909, respectively.

PIMCO Total Return: Seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $11,838, respectively.

Note 5. Fair Value Measurements (continued)

AllianceBernstein Discovery Value: Seeks long-term growth of capital. The fund invests primarily in a diversified portfolio of equity securities of small- to mid-capitalization U.S. companies. Under normal circumstances, it invests at least 80% of its net assets in securities of small- to mid-capitalization companies. For purposes of this policy, small- to mid-capitalization companies are those that, at the time of investment, fall within the capitalization range between the smallest company in the Russell 2500 Value Index and the greater of $5 billion or the market capitalization of the largest company in the Russell 2500 Value Index. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $42,606, respectively.

MFS Research International: Seeks capital appreciation. The fund normally invests its assets primarily in foreign equity securities, including emerging market equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. It may invest a large percentage of the fund's assets in issuers in a single country, a small number of countries, or a particular geographic region. As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $12,536, respectively.

MFS New Discovery: Seeks capital appreciation. The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies). As of December 31, 2015 and 2014, amounts invested in this investment fund were $0 and $23,117, respectively.

The pooled separate account investment funds are subject to the redemption frequency of daily and do not have any redemption restrictions. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2015 and 2014.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each participant shall be fully vested and non-forfeitable at the time of termination.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2009 that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended and restated since receiving the determination letter, the plan administrator and the Plan's legal counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 9. Party-In-Interest Transactions

Certain Plan investments are units in pooled separate accounts which are managed by Hartford Life Insurance Company. Hartford Life Insurance Company is the investment contract issuer as defined by the Plan. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Harford Life Insurance Company, other investment custodians and investment advisors.

Additionally, as noted in Note 1, certain administrative expenses are paid directly to Mass Mutual Life Insurance Company, agent for Hartford Life Insurance Company and are included in administrative expenses. Additionally, fees may be paid to certain service providers that are considered parties-in-interest under ERISA, and these fees are included in administrative expenses.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Prohibited Transactions

During the Plan year ended December 31, 2014, the plan sponsor inadvertently failed to deposit approximately $15,300 of participant deferrals within the required timeframe as stated by ERISA. These deferrals and loan payments were deposited beyond the earliest expected date on which assets could be segregated from the Employer's assets. The U.S. Department of Labor considers late deposits to be prohibited transactions. The plan sponsor calculated lost earnings and deposited the lost earnings, participant deferrals and loan payments into the Plan. The participant deferrals were deposited into the Plan during the Plan year ended December 31, 2014, and the lost earnings were deposited in 2016.

The plan sponsor has self-corrected these prohibited transactions and does not believe that these issues will have a material impact on the Plan's net assets available for benefits or the Plan's tax status.

Note 11. Form 5500 Reconciliation

Due to timing differences, the financial statements for the years ending December 31, 2015 and 2014 reflect a difference in net assets available for benefits and a difference in net increase in net assets available for benefits as compared to the Form 5500.

The following is a reconciliation of net assets available for benefits from the financial statements to the Form 5500:

	December 31,	
	2015	**2014**
Net assets available for benefits per the financial statements	$ 5,100,616	$ 4,886,396
