Notes to Financial Statements

Note 1. Description of Plan

The following description of JSI Store Fixtures Employees Savings Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of JSI Store Fixtures (the "Company" or "Plan Sponsor"). The Plan was established on January 1, 2006, to provide a systematic savings plan for eligible employees. Employees become eligible for participation in the Plan upon the completion of one year of service, which is defined as 1,000 hours in a consecutive twelve month period commencing with the employee's date of hire. Eligible employees may enter the Plan on the next entry date, the first day of each quarter. Under the terms of the Plan, the following employees are considered excluded and may not participate in the Plan: non-resident aliens and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended ("IRC").

Contributions: Each year, participants may contribute to the Plan an amount up to 85% of their pretax annual compensation as defined by the Plan, subject to certain IRC limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions) provided such contribution does not impact the tax status of the Plan. The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year are permitted to make additional catch-up contributions subject to IRC limitations.

In addition, the Plan Sponsor may also make a discretionary matching, profit sharing, or qualified nonelective contribution. Company contributions are subject to certain limitations. For the year ended December 31, 2015, the Company made no such contributions.

Participant accounts: Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions and any Company discretionary matching contributions, allocations of any discretionary profit sharing contributions and discretionary qualified nonelective contributions and Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments in participant accounts are participant-directed.

Participants' investment options: Participants may direct all contributions to selected investments as made available and determined by the plan administrator. The Plan currently offers mutual funds and a money market fund as investment options for participants. Participants may change their investment options daily.

Vesting: Participants are vested immediately in their contributions, Company qualified nonelective contributions plus actual earnings thereon. Participants are vested in the Company's discretionary matching and discretionary profit sharing contributions plus actual earnings thereon based on years of continuous service as follows:

Years of Service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

A participant becomes fully vested in the event of normal retirement, total and permanent disability, or death while still employed.

JSI Store Fixtures Employees Savings Trust

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or a portion of their vested account. If no election is made and the participant's vested account balance is less than \$5,000, it will be distributed in the form of lump-sum payment. Participants whose account balances exceed \$5,000 may elect to receive a lump sum distribution or leave their vested balance in the Plan. Participants may elect to receive an in-service withdrawal of all or a portion of their vested account balance upon attainment of the early retirement age of 59 ½. Participants may also withdraw, upon substantial financial hardship as defined in the plan documents, a portion of the vested balance of his or her account. Employee participants whose accounts balance exceeds \$5,000 may elect to defer required minimum distributions upon the attainment of age 70 ½ until they terminate employment. All distributions are subject to the applicable provisions of the plan agreement.

Forfeitures: Forfeitures represent the non-vested portion of terminated Participants' account balances. These amounts will be used to reduce future Company contributions. There were no forfeited non-vested accounts at December 31, 2015 and 2014.

Expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses, including fees and expenses connected with the providing of administrative services by external service providers, are paid by the Company. Certain fees are paid directly by the participants based on the terms of the plan document, including but not limited to, distribution processing. Investment related expenses are included in net appreciation of fair value of investments.

Notes receivable from participants: Plan provisions do not allow for participant loans.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), and are presented on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid to the participants.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Plan management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2012.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)." The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the amendments retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Early adoption is permitted. The impact of adopting ASU 2015-07 is not expected to be significant to the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

The amendments in Part I of this update designate contract value as the only required measurement for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted the amendments in Part II of this update for the 2015 plan year, and the amendments in Part II were retroactively applied to the plan year ended December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of the adopting the amendments is reflected in the financial statements.

Notes to Financial Statements

Note 3. Information Certified or Provided by MG Trust Company d/b/a. Matrix Trust Company

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by MG Trust Company d/b/a Matrix Trust Company, the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained a certification from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2015	2014
Investments:		
Mutual funds	\$ 831,124	\$ 847,297
Money market fund	209,397	193,652
Total investments	<u>\$ 1,040,521</u>	<u>\$ 1,040,949</u>
Cash - noninterest bearing	<u>\$ 1,885</u>	<u>\$ 1,845</u>

The custodian also certified to the completeness and accuracy of \$ 52,454 of net depreciation in fair value of investments and \$55,888 of dividend income related to the aforementioned plan assets for the year ended December 31, 2015.

Note 4. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds and money market fund: Mutual funds and the money market fund are valued at the quoted market prices. These securities are categorized in Level 1 as they are actively traded and no valuation adjustments have been applied.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 831,124	\$ -	\$ -	\$ 831,124
Money market fund	209,397	-	-	209,397
	<u>\$ 1,040,521</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,040,521</u>

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 847,297	\$ -	\$ -	\$ 847,297
Money market fund	193,652	-	-	193,652
	<u>\$ 1,040,949</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,040,949</u>

Note 5. Party-in-Interest Transactions

The Plan Sponsor paid certain administrative expenses of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Income Tax Status

The Plan obtained its latest prototype opinion letter on March 31, 2008, in which the Internal Revenue Service stated the Plan, as then designed is qualified under Section 401(a) of the Code and that any employer adopting this plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan has been amended since receiving the opinion letter; however, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and is tax exempt.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2015	2014
Net assets available for benefits per the financial statements	\$ 1,042,406	\$ 1,044,571
Participant contribution receivable	-	(1,777)
Net assets available for benefits per the Form 5500	\$ 1,042,406	\$ 1,042,794

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2015:

Net decrease in net assets available for benefits per the financial statements	\$ (2,165)
Change in participant contributions receivable	1,777
Net decrease per the Form 5500	\$ (388)

Note 10. Subsequent Events

The Plan has evaluated subsequent events through July 28, 2016, the date the financial statements were available to be issued.
