401(k) Profit Sharing Plan**

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Waikem Management Services, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all qualifying employees of Waikem Management Services, Inc. (the Company), which includes George Waikem Ford, Inc., Waikem Nissan, Inc., Waikem Motors, Inc. and National Car Leasing, Inc. All full-time employees are eligible to be participants in the Plan on the first day of the calendar quarter after completing six months of service and reaching age 21. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

Contributions: Participant contributions are voluntary. Contributions of earned compensation are either tax deferred or after-tax deferred up to a maximum as established by the Internal Revenue Service (IRS). The contributions of highly compensated employees as defined by the IRS may be further limited. Participants may be eligible to contribute rollover amounts received as a lump-sum distribution from a qualified retirement plan of another employer if transferred to this plan directly, or by the participant within 60 days of receipt of the distribution from the previous plan. Such amount shall have no effect on the limits for maximum benefits and contributions as defined by the Plan. The Company may make a discretionary match contribution to all participants who are employed at the end of the Plan year. The Company also has the option to make discretionary nonelective contributions to the Plan each year. These contributions are allocated to the individual accounts of participants who are eligible for an allocation for the Plan year, based upon the participants' elective deferrals. No Company matching contributions were made for the year ended December 31, 2015.

Participants' accounts: An account is maintained in the name of each participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are allocated to the participants in the same manner as the employer's contribution. For the year ended December 31, 2015, no forfeitures were allocated to the participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account for which the participant is vested.

Vesting: Each participant is fully vested with respect to their voluntary contributions and related income allocated to their account. Employer contributions vest at a rate of 20% per year after two years of service and reaching 100% after six years of service, or upon reaching the normal retirement age. Participants may not withdraw their tax-deferred contributions prior to reaching age 59½ except for reasons of financial hardship, disability, death or termination of employment.

Investment options: Upon enrollment in the Plan, a participant may direct employer and employee contributions in any percentage increments into any of the available investment options. Participants may change their investment options in accordance with the rules established by the plan administrator.

Notes receivable from participants: Participants may borrow from their fund accounts once each calendar year with a maximum of two outstanding notes receivable at any one time. The minimum note receivable is \$1,000 with the maximum note receivable not to exceed the lesser of \$50,000, or 50% of the vested account value. The note receivable amount will process as a reduction of the elected investment funds on a pro-rated basis. Note receivable terms may extend to a maximum of five years or up to thirty years for the purchase of a primary residence. The notes receivable have a fixed interest rate determined by the plan administrator. Principal and interest is paid ratably through payroll deduction.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: On termination of service, a participant may receive a lump-sum amount equal to the vested amount of his or her account or upon death, disability or retirement. Participants may also elect to have distributions paid in the form of an annuity. Employees may withdraw their vested interest in the Plan under certain hardship conditions, as defined in the Plan agreement.

Administrative expenses: A portion of the Plan's administrative costs are paid by the Plan. Other administrative costs are paid by the Company at the Company's discretion.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become fully vested in their accounts.

Subsequent events: The plan administrator has evaluated subsequent events through August 5, 2016 the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan's investments are stated at fair value (except for fully-benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Contributions: Participant contributions and Company matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Additional discretionary contributions approved by the Company's board of directors are recognized in the year of service.

Payment of benefits: Distributions are recognized when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Significant of Accounting Policies (Continued)

Recently adopted accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the plan year ending December 31, 2015, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

**Waikem Management Services, Inc.
401(k) Profit Sharing Plan**

Notes to Financial Statements

Note 2. Significant of Accounting Policies (Continued)

The Update may be adopted in whole or by part (I, II, and III) as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Parts I and II of this Update for the plan year ending December 31, 2015, and the amendments in Parts I and II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Note 3. Information Certified or Provided by PNC Bank

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2015	2014
Registered investment companies	\$ 3,238,958	\$ 3,101,107
Common/collective trust	\$ 22,522	\$ 17,218

The trustee also certified the completeness and accuracy of the following for the year ended December 31, 2015:

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Shares of registered investment companies: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Shares of common collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require up to 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers between Levels

For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Level 1, 2, or 3.

Note 5. Tax Status

Effective January 1, 2013, the Plan adopted a standardized form of a prototype plan sponsored by PNC Bank.
