ERICO Retirement Savings Plan

Notes To Financial Statements

1. Description of the Plan

The following description of the ERICO Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of ERICO International Corporation ("ERICO") who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants in the Plan can elect to contribute from 1% to 25% of their pretax earnings through payroll deductions. Newly eligible employees who do not make an active election to participate or to not participate in the Plan are automatically enrolled in the Plan with a contribution amount of 3%. During 2015 and 2014, ERICO matched participant contributions at the rate of 50% of the first 3% of an eligible participant's salary reduction contribution. During 2015 and 2014, ERICO made discretionary profit sharing contributions of \$600,000 and \$550,000, respectively. Plan participants have the option to direct their current account balances and future contributions into any combination of investment fund options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, ERICO's matching contribution and profit sharing contribution, if any, and investment income earned on the account balance. The benefit to which a participant is entitled is that which can be provided from the participant's vested account balance. Participants are immediately vested with respect to their employee contribution and their ERICO matching contribution. Participants become vested in the profit sharing portion of their account balance after three years of service from their date of hire. If the Plan were to terminate at some future time, each participant has a non-forfeitable right to their entire account balance.

Notes Receivable - Participant Loans

Loans are permitted to be made to active participants. The notes receivable documenting the loans are secured by the participant's vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant's account balance or \$50,000. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed ten years. Interest is charged at a reasonable rate determined by the administrative committee.

Participants who prove financial hardship may only withdraw the portion of their account balance representing participant contributions and the investment income thereon. The portion contributed by ERICO and investment income thereon remains in their account until termination of employment or retirement and continues to earn investment income until distribution.

ERICO Retirement Savings Plan

Notes To Financial Statements

Payment of Benefits

Upon termination of employment prior to normal retirement age, participants with account balances greater than or equal to \$1,000 may elect to receive either a partial or full distribution of their account balance or maintain the account balance in the Plan until retirement. At retirement, participants with account balances greater than or equal to \$1,000 may elect to receive either a partial or full distribution of their account balance or receive installments over a period not exceeding ten years. Both terminated and retired participants with account balances less than \$1,000 are required to take full distributions of their account balance. Benefit payments upon the death of a participant are paid directly to the beneficiary. The beneficiary may elect to receive a partial or full distribution.

Forfeitures

Forfeitures are reallocated each year to participants who are eligible to receive the profit sharing contribution. Forfeitures were reallocated in July 2015 and 2014, at the same time the profit sharing contribution was made.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited and non-vested accounts totaled \$412 and \$9,619, respectively. Forfeitures are allocated among eligible participants as an additional discretionary contribution.

Plan Expenses

During 2015 and 2014, ERICO paid administrative fees of \$17,106 and \$19,613, respectively, on behalf of the Plan.

Plan Termination and Merger

ERICO has the right under the Plan to terminate the Plan, subject to the provisions of ERISA, as amended. In September 2015, ERICO was acquired by Pentair plc. As a result of the acquisition, it is expected that the Plan and all assets and liabilities of the Plan will be merged into the Pentair, Inc. Retirement Savings and Stock Incentive Plan (Pentair "RSIP") as of the close of business in 2016.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

ERICO Retirement Savings Plan

Notes To Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair market value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable – Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Events Occurring After Reporting Date

The Company has evaluated events and transactions that occurred between December 31, 2015 and August 8, 2016, the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is

permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan is currently evaluating the effect of the ASU No. 2015-07 amendments on its financial statements.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensuses of the Emerging Issues Task Force. The amendments in this update (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defines Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan is currently evaluating the effect of the ASU No. 2015-12 amendments on its financial statements.

3. Investments

All investments and notes receivable - participant loans disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, net depreciation in fair value of investments, and interest and dividend income for the years ended December 31, 2015 and 2014, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. As elected by the plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

<i>December 31,</i>	2015	2014

During 2015 and 2014, the Plan's investments, including shares purchased, sold, and held during the year, depreciated in value by \$3,529,272 and \$1,360,105, respectively.

ERICO Retirement Savings Plan

Notes To Financial Statements

4. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with such investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 26, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation.

As of December 31, 2015 and 2014, the Plan had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

6. Transactions with Parties-in-interest

Certain plan investments in mutual funds are managed by Fidelity Management Trust Company, the trustee. Therefore, transactions therewith qualify as party-in-interest transactions.

7. Fair Value Measurements

Accounting Standard Codification ("ASC") 820, "Fair Value Measurements", provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 - If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

ERICO Retirement Savings Plan

Notes To Financial Statements

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of the collective trust held by the Plan at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The common/collective trust fund seeks to preserve principal investment while earning a level of interest income over time that is consistent with the preservation of capital through typical investment in benefit responsive investment contracts issued by insurance companies, fixed-income securities and money market funds. Withdrawals made in order to accommodate participant-directed exchange to another investment option may be made on any business day, provided that the exchange is not directed into a competing fund. Amounts to be transferred into a competing fund are held for 90 days in a non-competing investment option before transfer is completed. As of December 31, 2015 and 2014, the Plan has no unfunded commitments related to this investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:
