Bradford Employee 401(k) Profit Sharing Plan & Trust

Summary of Significant Accounting Policies

Nature of activities

The Bradford Employee 401(k) Profit Sharing Plan & Trust (the "Plan") is a defined contribution plan, established on April 22, 1970, effective May 1, 1969. The Plan was amended to add a 401(K) Plan in 1997 to the profit sharing Plan. The Plan covers substantially all full-time permanent employees of Bradford Supply Company (the "Company") and related companies who have attained a minimum age of twenty-one. Entry dates for these employees is the earlier of the first day of the Plan year of March 1, or the first day of the seventh month of the Plan year of September 1. The Plan allows participants to direct investments into various options offered by the Plan. Companies related to Bradford Supply Company included in the Plan are: Roar Energy Services, LLC, a wholly-owned subsidiary of Bradford Supply Company, and Lion Land and Mineral, LLC, a related entity.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Basis of accounting

The accompanying financial statements have been prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. The presentation is permitted by the Department of Labor. Such accounting method includes recording investments at fair value. Additions and deductions are recognized as received or paid rather than as earned or incurred.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Participant accounts

Each participant's account is credited with the participant's contribution, employer contributions, and any earnings thereon and is charged with administrative expenses based on a standard fee for each active account on the date the fee is processed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment valuation and income recognition

The Plan's investments in mutual funds are stated at their fair market values. Fair market value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices of similar instruments which represent the last reported sales price for these instruments on the last business day of the Plan year end. Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments. Purchases and sales of securities are recorded on a trade-date basis.

Contributions

Each year, participants may contribute eligible pretax annual compensation from 2% up to a maximum of 15%, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. As of February 29, 2016, the Plan offered eighteen investment options.

The Company may elect to provide a matching and profit sharing contribution each plan year. The extent and amount of each year's matching and profit sharing contribution, if any, is at the discretion of the Board of Directors of the Company. The profit sharing contribution is allocated to participants in the Plan who completed at least 1,000 hours of service during the year and are employed by the Company on the last day of the Plan year based on the ratio of each participant's taxable wages to the total company taxable wages for the Plan year.

The Company provided an annual employer matching contribution of 10% of deferrals and a $25,000 profit sharing contribution for the year ended February 28, 2015. Accordingly, the Company's employer match and profit sharing contributions totaled $50,904 for the year ended February 28, 2015 which was received by the plan and included in employer contributions during the year ended February 29, 2016.

Vesting

Participants are immediately vested in their contributions and any earnings thereon. Vesting in the employer match and profit sharing contributions portion, and any earnings thereon, of their accounts is based on years of service. A participant is 100% vested in the employer matching and profit sharing contributions, and any earnings thereon, after three years of credited service.

Benefit payments

Upon termination of service due to death, disability or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in their account or optional installment payments. Also, for termination of service due to reasons other than those above, participants receive the value of the vested interest in their account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Benefits are recorded when paid.

Forfeited accounts

According to provisions of the Plan document, non-vested participant account balances forfeited by participants may be used to reduce future employer match or profit sharing contributions or to pay administrative expenses of the Plan. As of February 29, 2016 and February 28, 2015, forfeited non-vested accounts totaled $12,222 and $13,988, respectively. During the year ended February 29, 2016, $3,181 of non-vested accounts were forfeited by participants, $4,950 of forfeited accounts were used to pay administrative expenses of the Plan and no forfeited non-vested accounts were used to reduce employer contributions.

Administrative expenses

The Plan's trustee duties are performed by Ascensus Trust Company. Trustee fees are paid by the Plan and are based on a standard fee for each active account on the date the fee is processed. Fees are charged to the individual participant's accounts on the date the fee is processed by the record keeper.

Accounting for uncertainty in income taxes

The Plan is subject to audit by federal, state or local authorities in the areas of income taxes. The Plan's federal income tax returns for 2013 through 2016 are subject to examination by the applicable tax authorities, generally for three years after the later of the original or extended due date. These audits could include questioning the Plan's tax exempt status and compliance with federal, state, and local tax laws. Management is not aware of any tax positions that are more likely than not to change in the next twelve months or that would not sustain an examination by applicable taxing authorities. Therefore, there is no effect recorded in these financial statements for assets or liabilities resulting from unrecognized tax benefits. The Plan's policy is to recognize penalties and interest as paid in the statement of changes in net assets available for benefits, which totaled $0 for the year ended February 29, 2016.

Note 1 – Investments

The February 29, 2016 and February 28, 2015 statements of net assets available for benefits (modified cash basis), the investment activities included on the statement of changes in net assets available for benefits (modified cash basis) for the year ended February 29, 2016, the accompanying notes to the financial statements, and the supplemental schedules were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified complete and accurate by the trustee included in the accompanying financial statements and supplemental schedules as of February 29, 2016 and February 28, 2015, and for the year ended February 29, 2016, includes the following data:

	February 29, 2016	February 28, 2015

	Year Ended February 29, 2016
Net depreciation in value of mutual funds	$ 556,475
Dividends on mutual funds	$ 96,880

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

All investments are participant directed and the following table presents investment balances representing five percent or more of the Plan's net assets as of February 29, 2016 and February 28, 2015:

American Funds New Perspective Fund	1,469,121	1,636,816
American Funds Washington Mutual Inv	945,341	1,119,340

Note 2 – Tax status

The Internal Revenue Service has ruled that the Plan constitutes a qualified trust under Section 401(a) of the Internal Revenue Code and is thus considered exempt from federal income taxes.

The Internal Revenue Service has determined and informed the Plan through its latest determination letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) including amendments to comply with recent legislation. Although the Plan has been amended since receiving its latest determination letter, the Plan administrator believes that the Plan is designed and currently operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Note 3 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of employer contributions per the financial statements to Schedule H of Form 5500 for the year ended February 29, 2016:

Employer contributions per the financial statements	$ 50,904
Plus: Employer contributions receivable per Schedule H of Form 5500, end of year	-

Plus: Employer contributions receivable per Schedule H of Form 5500, end of year	50,904
Net assets available for benefits per Schedule H of Form 5500, end of year	$ 7,723,360

Differences between net assets available for benefits per the financial statements and amounts included in Schedule H of Form 5500 is because employer contributions included on Form 5500 are based on the accrual basis of accounting.

Note 4 – Risks and uncertainties

The Plan invests in certain mutual funds that provide for various investment options in any combination of stocks, bonds, fixed income securities, other mutual funds or other investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 5 – Plan termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all employer contributions.

Note 6 - Excess participant contributions

In accordance with the Tax Reform Act of 1986, the Plan is required to be in compliance with federal regulations regarding discrimination testing. Any excess aggregate contributions and related earnings made by certain plan participants are required to be refunded to those participants. There were no excess contributions made by plan participants during 2016 or 2015 that were required to be refunded to those participants.

Note 7 – Related-party transactions

Fees paid by the Plan to Ascensus Trust Company, the trustee of the Plan, for the investment management services totaled $7,994 for the year ended February 29, 2016.

Note 8 – Subsequent events

The Plan has evaluated subsequent events through August 3, 2016, which is the date these financial statements were available to be issued and have determined that no subsequent events require disclosure in the financial statements.

Note 9 – Fair value measurements

The Plan's financial assets are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan uses a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities. The fair values of the money market fund and the mutual funds are based on quoted market prices reported by the fund which represent the last reported sales price for these instruments on the last business day of the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded.

- Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, similar assets and liabilities in markets that are not active or can be corroborated by observable market data.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 9 – Fair value measurements (continued)

The following tables present information on these assets as well as the fair value hierarchy used to determine their fair value:

Bradford Employee 401(k) Profit Sharing Plan & Trust

Summary of Significant Accounting Policies

Nature of activities

The Bradford Employee 401(k) Profit Sharing Plan & Trust (the "Plan") is a defined contribution plan, established on April 22, 1970, effective May 1, 1969. The Plan was amended to add a 401(K) Plan in 1997 to the profit sharing Plan. The Plan covers substantially all full-time permanent employees of Bradford Supply Company (the "Company") and related companies who have attained a minimum age of twenty-one. Entry dates for these employees is the earlier of the first day of the Plan year of March 1, or the first day of the seventh month of the Plan year of September 1. The Plan allows participants to direct investments into various options offered by the Plan. Companies related to Bradford Supply Company included in the Plan are: Roar Energy Services, LLC, a wholly-owned subsidiary of Bradford Supply Company, and Lion Land and Mineral, LLC, a related entity.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Basis of accounting

The accompanying financial statements have been prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. The presentation is permitted by the Department of Labor. Such accounting method includes recording investments at fair value. Additions and deductions are recognized as received or paid rather than as earned or incurred.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Participant accounts

Each participant's account is credited with the participant's contribution, employer contributions, and any earnings thereon and is charged with administrative expenses based on a standard fee for each active account on the date the fee is processed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment valuation and income recognition

The Plan's investments in mutual funds are stated at their fair market values. Fair market value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices of similar instruments which represent the last reported sales price for these instruments on the last business day of the Plan year end. Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments. Purchases and sales of securities are recorded on a trade-date basis.

Contributions

Each year, participants may contribute eligible pretax annual compensation from 2% up to a maximum of 15%, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. As of February 29, 2016, the Plan offered eighteen investment options.

The Company may elect to provide a matching and profit sharing contribution each plan year. The extent and amount of each year's matching and profit sharing contribution, if any, is at the discretion of the Board of Directors of the Company. The profit sharing contribution is allocated to participants in the Plan who completed at least 1,000 hours of service during the year and are employed by the Company on the last day of the Plan year based on the ratio of each participant's taxable wages to the total company taxable wages for the Plan year.

The Company provided an annual employer matching contribution of 10% of deferrals and a $25,000 profit sharing contribution for the year ended February 28, 2015. Accordingly, the Company's employer match and profit sharing contributions totaled $50,904 for the year ended February 28, 2015 which was received by the plan and included in employer contributions during the year ended February 29, 2016.

Vesting

Participants are immediately vested in their contributions and any earnings thereon. Vesting in the employer match and profit sharing contributions portion, and any earnings thereon, of their accounts is based on years of service. A participant is 100% vested in the employer matching and profit sharing contributions, and any earnings thereon, after three years of credited service.

Benefit payments

Upon termination of service due to death, disability or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in their account or optional installment payments. Also, for termination of service due to reasons other than those above, participants receive the value of the vested interest in their account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Benefits are recorded when paid.

Forfeited accounts

According to provisions of the Plan document, non-vested participant account balances forfeited by participants may be used to reduce future employer match or profit sharing contributions or to pay administrative expenses of the Plan. As of February 29, 2016 and February 28, 2015, forfeited non-vested accounts totaled $12,222 and $13,988, respectively. During the year ended February 29, 2016, $3,181 of non-vested accounts were forfeited by participants, $4,950 of forfeited accounts were used to pay administrative expenses of the Plan and no forfeited non-vested accounts were used to reduce employer contributions.

Administrative expenses

The Plan's trustee duties are performed by Ascensus Trust Company. Trustee fees are paid by the Plan and are based on a standard fee for each active account on the date the fee is processed. Fees are charged to the individual participant's accounts on the date the fee is processed by the record keeper.

Accounting for uncertainty in income taxes

The Plan is subject to audit by federal, state or local authorities in the areas of income taxes. The Plan's federal income tax returns for 2013 through 2016 are subject to examination by the applicable tax authorities, generally for three years after the later of the original or extended due date. These audits could include questioning the Plan's tax exempt status and compliance with federal, state, and local tax laws. Management is not aware of any tax positions that are more likely than not to change in the next twelve months or that would not sustain an examination by applicable taxing authorities. Therefore, there is no effect recorded in these financial statements for assets or liabilities resulting from unrecognized tax benefits. The Plan's policy is to recognize penalties and interest as paid in the statement of changes in net assets available for benefits, which totaled $0 for the year ended February 29, 2016.

Note 1 – Investments

The February 29, 2016 and February 28, 2015 statements of net assets available for benefits (modified cash basis), the investment activities included on the statement of changes in net assets available for benefits (modified cash basis) for the year ended February 29, 2016, the accompanying notes to the financial statements, and the supplemental schedules were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified complete and accurate by the trustee included in the accompanying financial statements and supplemental schedules as of February 29, 2016 and February 28, 2015, and for the year ended February 29, 2016, includes the following data:

	February 29, 2016	February 28, 2015
Cash investments	$ 43,778	$ 48,420
Investments at fair value, mutual funds	$ 6,800,992	$ 7,624,036

	Year Ended February 29, 2016
Net depreciation in value of mutual funds	$ 556,475
Dividends on mutual funds	$ 96,880

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

All investments are participant directed and the following table presents investment balances representing five percent or more of the Plan's net assets as of February 29, 2016 and February 28, 2015:

	2016	2015
Mutual funds:		
American Funds American Balanced Fund	$ 1,143,659	$ 1,289,798
American Funds Growth Fund of America	1,297,959	1,493,257

American Funds New Perspective Fund	1,469,121	1,636,816
American Funds Washington Mutual Inv	945,341	1,119,340

Note 2 – Tax status

The Internal Revenue Service has ruled that the Plan constitutes a qualified trust under Section 401(a) of the Internal Revenue Code and is thus considered exempt from federal income taxes.

The Internal Revenue Service has determined and informed the Plan through its latest determination letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) including amendments to comply with recent legislation. Although the Plan has been amended since receiving its latest determination letter, the Plan administrator believes that the Plan is designed and currently operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Note 3 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of employer contributions per the financial statements to Schedule H of Form 5500 for the year ended February 29, 2016:

	2016
Employer contributions per the financial statements	$ 50,904
Plus: Employer contributions receivable per Schedule H of Form 5500, end of year	-
Less: Employer contributions receivable per Schedule H of Form 5500, beginning of year	(50,904)
Employer contributions per Schedule H of Form 5500	$ -

Differences between employer contributions per the financial statements and amounts included in Schedule H of Form 5500 is because employer contributions included on Form 5500 are based on the accrual basis of accounting.

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of February 28, 2015:

	2015
Net assets available for benefits per the financial statements	$ 7,672,456
Plus: Employer contributions receivable per Schedule H of Form 5500, end of year	50,904
Net assets available for benefits per Schedule H of Form 5500, end of year	$ 7,723,360

Differences between net assets available for benefits per the financial statements and amounts included in Schedule H of Form 5500 is because employer contributions included on Form 5500 are based on the accrual basis of accounting.

Note 4 – Risks and uncertainties

The Plan invests in certain mutual funds that provide for various investment options in any combination of stocks, bonds, fixed income securities, other mutual funds or other investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 5 – Plan termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all employer contributions.

Note 6 - Excess participant contributions

In accordance with the Tax Reform Act of 1986, the Plan is required to be in compliance with federal regulations regarding discrimination testing. Any excess aggregate contributions and related earnings made by certain plan participants are required to be refunded to those participants. There were no excess contributions made by plan participants during 2016 or 2015 that were required to be refunded to those participants.

Note 7 – Related-party transactions

Fees paid by the Plan to Ascensus Trust Company, the trustee of the Plan, for the investment management services totaled $7,994 for the year ended February 29, 2016.

Note 8 – Subsequent events

The Plan has evaluated subsequent events through August 3, 2016, which is the date these financial statements were available to be issued and have determined that no subsequent events require disclosure in the financial statements.

Note 9 – Fair value measurements

The Plan's financial assets are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan uses a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities. The fair values of the money market fund and the mutual funds are based on quoted market prices reported by the fund which represent the last reported sales price for these instruments on the last business day of the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded.

- Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, similar assets and liabilities in markets that are not active or can be corroborated by observable market data.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 9 – Fair value measurements (continued)

The following tables present information on these assets as well as the fair value hierarchy used to determine their fair value:
