Note 1: Description Of Plan

The following description of the DeCrescente Distributing Co., Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who currently have completed two months of full-time service with no age requirements and elect to make a contribution. The participants can enter the Plan 60 days after their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute 100% of eligible compensation, as defined in the Plan. The total amount of this contribution, however, is subject to (1) the maximum amount allowed by the Internal Revenue Code in any plan year, and (2) the Internal Revenue Code mandated discrimination tests. Employees who have attained age fifty before the close of the Plan year shall be eligible to make catch-up contributions in accordance with Internal Revenue Code provisions. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company may make a matching contribution, determined by the Company annually, equal to a discretionary percentage, of the participant's salary reduction. In determining matching contributions, the Company matched 50% of the employee deferrals on the first 5% of the participant's compensation through December 31, 2014. Effective January 1, 2015, the Company matched 50% of the employee deferrals on the first 6% of the participant's compensation.

Participant accounts - Each participant's account is credited with the participant's contribution, investment earnings, and the Company's contribution. Allocations are based on participant earnings or account balances in accordance with terms of the Plan. Each participant may make changes to their salary deferral amount quarterly. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Investments are chosen by the participant from a limited number of investment vehicles offered through Principal Financial Group.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting of the Company's discretionary contributions is based on the number of years of service as follows:

Years Of Service	Vesting
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1: Description Of Plan (Continued)

Participants' loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the vested interest of the participant's account in the Plan. Loan terms range from one to five years, or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1.5% as of the date of the loan. Principal and interest are paid ratably through weekly payroll deductions.

Payment of benefits - On termination of service or separation of service, due to death, disability, or retirement, a participant or their beneficiary will be entitled to receive a distribution of their total vested account balance. Benefits will be paid in accordance with the terms of the Plan.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, each participant's account will become fully vested and be distributed in accordance with the Plan Agreement.

Forfeited accounts - Forfeitures may be used to reinstate previously forfeited account balances of former participants, if any, or applied to reduce employer contributions or pay plan expenses. Forfeitures, which include earnings, used to reduce employer contributions and plan expenses during the years ended October 31, 2015 and 2014 amounted to $9,686 and $6,370, respectively. Forfeited non-vested accounts at October 31, 2015 and 2014 amounted to $4,567 and $1,841, respectively.

Note 2: Summary Of Significant Accounting Policies

Investment valuation and income recognition - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

Note 2: Summary Of Significant Accounting Policies (Continued)

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are held by an independent trust company. The investments in all of the funds, except the Pooled Separate Accounts and the Principal Fixed Income Guaranteed Option, are based on the quoted market prices reported on the last day of the Plan year. The Pooled Separate Accounts are valued at net asset value as reported on the last day of the Plan year. The Principal Fixed Income Guaranteed Option is valued at contract value based on information provided by Principal Financial Group, the Trustee of the Plan. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis with the gain or loss based upon the average-cost method and actual cost of the securities sold. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under applicable regulations of the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 2: Summary Of Significant Accounting Policies (Continued)

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits or changes in net assets available for benefits.

Changes in accounting principles - In May 2015, the FASB issued Accounting Standards Update (ASU) *2015-07, Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The update is to be applied retrospectively. Management has elected to adopt the update early. There was no material impact on the Plan's net assets available for benefits or changes in net assets available for benefits upon adoption of the new ASU.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early. There was no material impact on the Plan's net assets available for benefits or changes in net assets available for benefits upon adoption of the new ASU.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years October 31, 2015 and 2014, and the accompanying notes to the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by Principal Financial Group in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $17,851,629 and $16,489,608 at October 31, 2015 and 2014, respectively, and related investment income of $761,102 and $1,478,531 for the years ended October 31, 2015 and 2014, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodologies used for assets at fair value at October 31, 2015 and 2014:

Pooled separate accounts: Valued at the net asset value (NAV) based on the net assets of the underlying portfolio held by the Plan at year-end. Shares/units can be redeemed daily.

Mutual funds: Valued at quoted market prices at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Note 4: Fair Value Measurements (Continued)

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
October 31, 2015				
Mutual funds	$ 4,133,332	$ -	$ -	$ 4,133,332
Total Investments In Fair Value Hierarchy	$ 4,133,332	$ -	$ -	4,133,332
Investments measured at net asset value:				
Pooled separate accounts				12,956,827
Total Investments At Fair Value				$ 17,090,159
October 31, 2014				
Mutual funds	$ 4,245,048	$ -	$ -	$ 4,245,048
Total Investments In Fair Value Hierarchy	$ 4,245,048	$ -	$ -	4,245,048
Investments measured at net asset value:				
Pooled separate accounts				11,440,560
Total Investments At Fair Value				$ 15,685,608

Note 4: Fair Value Measurements (Continued)

In accordance with accounting principles generally accepted in the United States of America, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5: Investment Contract With Insurance Company

The Plan has a fully benefit-responsive annuity contract with Principal Financial Group (the Principal) called Principal Fixed Income Guaranteed Option. This investment is a single group annuity contract with a fixed rate of interest. As a result, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the group annuity contract. The Principal maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Principal may not terminate the contract at any amount less than contract value.

Note 6: Related Party Transactions

Certain fees for administrative services may be paid by the Company.

Note 7: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Plan Amendments

Effective January 1, 2015, the Plan amended the employer matching contributions so that the Company will match a discretionary percentage of the employee deferrals on the first 6% of the participant's compensation.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of October 31, 2015, the Plan believes that it has appropriate support for the income tax positions taken and to be taken based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through August 9, 2016, which is the date the financial statements were available to be issued.

Effective November 1, 2015, the Plan amended the employer matching contributions so that the Company will match a discretionary percentage of the employee deferrals on the first 7% of the participant's compensation.
