Note 1 - Description of Plan

The following description of OCH International, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution profit sharing plan, covering all employees of OCH International, Inc. (the Company) who are 21 or older and have completed six consecutive months of service or 1 year, if earlier. One year of service requires at least 1,000 hours of service within a 12-month period. To receive employer contributions, a participant must be 21 or older and have completed 1 year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions
Each participant may elect to contribute a portion of their compensation to the Plan up to the maximum allowed under the Internal Revenue Code, (the IRC), which is $18,000 for 2015, each year instead of receiving that amount in cash. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the beginning of the plan year are eligible to make catch up contributions of $6,000 in 2015. Participants may also contribute amounts representing distributions from other qualified plans. The amount deferred will not be subject to income tax until it is actually distributed to the participant. The amount deferred is, however, subject to Social Security tax at the time of deferral. The Company may, at its discretion, match a percentage of the participant contributions. Additional amounts may also be contributed at the option of the Company.

Participant Accounts
Each participant's account is credited with the participant's contribution, the Company's contributions (if elected by the Company), and Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Asset management fees are deducted from the earnings of the various funds.

Investment Elections
The participants may choose from several combinations of investments offered by Standard Insurance Company (Standard). The accounts of employees who do not choose among these options are automatically invested in a default investment as outlined in a notice sent directly to participants. Employees have the opportunity to change their investments daily.

Vesting
Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their account is based on years of service and occurs gradually. A participant becomes partially vested at the end of 1 year of credited service, with the vested amount increasing gradually until the participant is 100% vested after 5 years of credited service. Participants shall become 100% vested upon attainment of normal retirement age (65 years), death, or permanent disablement.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant’s account and bear interest at a rate determined by the Plan Administrator, based on similar types of loans by other lenders. The loans bear interest at 3.25%. Payments on principal and interest are to be made not less frequently than quarterly. In general, loan terms may not exceed five years.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participants vested interest in his or her account, installments over a period of no more than assumed life expectancy, in partial withdrawals of at least $1,000, or rollover to another account.

Note 1 - Description of Plan, continued

Forfeited Accounts
At December 31, 2015, there were no forfeited non-vested accounts ($2,143 at December 31, 2014). Forfeitures may be used first to pay Plan expenses and then to reduce employer contributions (if any). During 2015, $2,143 of Plan forfeitures was used to pay Plan expenses.

Note 2 - Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
Except for investment contracts, the Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (1) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient." This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Management has elected early adoption of Parts I and II, and the accounting change has been retroactively applied at December 31, 2014 as permitted under ASU 2015-12.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants during 2016.

Note 2 - Summary of Accounting Policies, continued

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment accounts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Receivables
Receivables are written off when they are determined to be uncollectible. The allowance for doubtful accounts is estimated based on the Plan's historical losses and review of specific problem balances. The Plan Administrator has determined that no allowance for doubtful accounts is necessary at December 31, 2015 and 2014.

Reclassification
Certain accounts in the 2014 Statement of Net Assets Available for Benefits have been reclassified to conform to the presentation in the 2015 Statement of Net Assets Available for Benefits. Such reclassifications have no effect on net assets available for benefits.

Subsequent Events
The Plan has evaluated subsequent events through August 8, 2016, the date the financial statements were available to be issued.

Note 3 - Information Certified by the Custodian

The Plan's investments are held by Standard Insurance Company, the Custodian of the Plan. Investment decisions are made at the direction of the participants. The investments are credited for earnings thereon and charged for withdrawals and expenses charged by the Custodian.

The Plan Administrator has obtained a certification from the Custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the following information provided to the Plan Administrator by the Custodian is complete and accurate:

- Investments, at fair value
- Investments, at contract value
- Interest and dividends
- Net depreciation in fair value of investments

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Note 4 - Fair Value Measurements, continued

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts (*PSA*): PSA's invest in a variety of domestic stock, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publically quoted prices, the net asset value (NAV) of each separate PSA is not valued using publically quoted prices. PSA's can be redeemed on a daily basis and each PSA has its own investment strategy. Participants should refer to the individual PSA's prospectus for a more complete description of the PSA and its investment strategy.

In May, 2015, the FASB issued Accounting Standards Update No. 2015-07 (ASU 2015-07), "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)." ASU 2015-07 removes the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share as a practical expedient. The Plan elected to adopt ASU 2015-07 as of and for the year ended December 31, 2015. Accordingly, investments for which fair value is measured using net asset value (NAV) per share as a practical expedient have not been categorized within the fair value hierarchy. The accounting change has been retroactively applied to December 31, 2014 as permitted under ASU 2015-07.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts measured at NAV	$ -	$ -	$ -	$ 1,284,361

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts measured at NAV	$ -	$ -	$ -	$ 1,198,064

Note 5 - Group Annuity Contract with Insurance Company

The Plan has an investment in the Guaranteed Interest Fund, which is a traditional investment contract. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the investment was $390,721 at December 31, 2015 ($376,712 in 2014).

The investment contract issuer is contractually obligated to repay the principal and a specified interest that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, and may not be less than 3.00%. Such interest rates are reviewed on a monthly basis for resetting. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average credited rate during 2015 was 3.03%.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the Plan's ability to transact at contract value with Standard. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination), (b) termination of the contract (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Sponsor does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

In addition, the issuer may terminate the contract with 30 days advance written notice for reasonable cause, which includes the contract owner's (a) failure to abide by state or federal law (b) failure to render performance necessary to comply with the terms of the contract (c) failure to maintain assets of at least $25,000, or (d) plan disqualification.

Note 6 - Related Party Transactions

Certain Plan investments are shares of investment funds managed by Standard. Standard is the Custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of Plan investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to Standard of $3,111 for Plan administration.

Note 7 - Tax Status

The Plan adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by Sungard Corbel LLC that is designed to be qualified and exempt from income taxes under applicable sections of the IRC. The prototype plan sponsor obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with the applicable requirement of the IRC. The Plan has not requested its own determination letter. The Plan has been amended since its adoption of the prototype sponsor plan. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 7 - Tax Status, continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are not uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Reconciliation of Financial Statements to Form 5500

Corrective distributions were required for certain participants whose contributions were deemed to be top heavy. The amounts were accrued as corrective distributions in the financial statements. The Plan financial statements also include an accrual for the discretionary employer matching contribution. The contributions payable and the contributions receivable accrued at December 31, 2015 were not recorded on the Form 5500 as the amounts were not remitted prior to year end, and the Form 5500 is prepared on the cash basis.

The following is a reconciliation of total assets and liabilities per the Form 5500 to the financial statements:

	2015	2014
Total assets per the Form 5500	$ 1,696,780	$ 1,614,163

Note 9 - Subsequent Event

Effective May 1, 2016, the Plan was frozen and no longer permits loans or contributions. Participants became 100% vested in their account balances as of April 30, 2016.
