BEARCOM WIRELESS WORLDWIDE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the BearCom Wireless Worldwide 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by BearCom Operating L.L.C. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company.

The Plan was established on January 1, 1992. All employees of the Company are eligible to participate provided they are at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Pensions Committee which is appointed by the board of directors of the Company. The Plan's trustee, Fidelity Management Trust Company, is responsible for the custody and management of the Plan's assets.

Contributions

Each year, participants may contribute up to 50% of pretax annual compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching and non-elective contributions to the Plan each year to be determined annually at the discretion of the Board of Directors. For the time period of January 1, 2014 through June 30, 2015, the matching contribution did not exceed 10% of the first 5% of the participant compensation contributed as pre-tax contributions. Effective July 1, 2015, the matching contribution, if any, will not exceed 25% of the first 5% of the participant compensation contributed as pre-tax contributions.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and non-elective contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of vesting service, subject to the following vesting schedule:

Years of Credited Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of one thousand dollars ($1,000) up to a maximum equal to the lesser of fifty thousand dollars ($50,000) or fifty percent (50%) of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of four and one quarter percent (4.25%). Principal and interest are paid ratably through payroll deductions.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the Plan committee and in such multiples as the participant prescribes. A participant may change their investment direction with respect to future contributions or redirect the investment of their account balances.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. Benefits are recorded when paid.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Forfeited Accounts

These accounts are used to reduce plan expenses, employer contributions or reallocated to participants in the same manner as employer contributions. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $9,986 and $6,850, respectively. There were no forfeitures used to offset employer contributions and/or administrative expenses as of December 31, 2015 and 2014.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to use estimates and assumption that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and Plan management deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Income Taxes

The Plan is exempt from federal income tax under the Internal Revenue Code. The Plan adopted guidance related to accounting for uncertainty in income taxes in 2009. The Plan recognizes in its financial statements the financial effects of a tax position, if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation processes, based upon the technical merits of the position. Management is of the opinion that material positions taken by the Plan would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits in either 2015 or 2014. The Plan files annual informational tax returns. In addition, the entity's tax years 2012 and thereafter remain subject to examination.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for these expenses.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The new guidance is effective for public entities with reporting periods beginning after December 15, 2015 and for all other entities with reporting periods beginning after December 15, 2016.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

New Accounting Pronouncements – Continued

The ASU is to be applied retrospectively in all periods presented in an entity's financial statements, and early adoption is permitted. The Company is evaluating the impact of the adoption of this ASU on the Plan financial statements.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investment by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Management has elected to adopt Parts I and II early. The Plan's early adoption of this guidance in 2015 was applied retrospectively and did not have a material impact on its financial statements.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through August 10, 2016, the date the financial statements were available to be issued. During this period, there were no material recognizable subsequent events to note.

NOTE 3. CERTIFIED INVESTMENTS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CPR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 3. CERTIFIED INVESTMENTS – CONTINUED

The following investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants, at December 31, 2015 and 2014, and net appreciation (depreciation) in fair value of investments, investment income, and interest income on notes receivable from participants for the years ended December 31, 2015 and 2014, was obtained or derived from information provided to Plan management and certified as complete and accurate by the trustee of the Plan.

Net appreciation (depreciation) in value of investments	(995,078)	(116,184)
Total	$ (89,195)	$ 839,931

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	2015	2014
Level 1:		
Mutual funds	$ 15,630,959	$ 15,240,133
Investments at fair value	$ 15,630,959	$ 15,240,133

Change in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

Change in Fair Value Levels – Continued

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits.

On December 1, 2015, the money market fund was approved by the fund's Board of Trustees and fund shareholders to operate as a government fund which will be able to continue to transact at a stable $1 NAV without redemption restrictions; therefore, this fund has been transferred from Level 2 to Level 1 in the fair value hierarchy.

NOTE 5. ROLLOVER CONTRIBUTIONS

The Company occasionally acquires businesses across the country as part of their efforts to expand their brand across the nation. Effective as of the dates of those acquisitions, acquired BearCom employees, who meet the age requirements set forth in the Plan documents, are given the option to have any previously established retirement account balances rolled into the Plan. Additionally, any new employees of the Company, not hired through acquisition of a third party business, but who met the age requirements of the Plan, are also given the option to have any previously established retirement account balances rolled into the Plan.

Related to these circumstances, an aggregate of $48,746 and $268,476 were rolled into the Plan during the years ended December 31, 2015 and 2014, respectively.

NOTE 6. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds provided through Fidelity Management Trust Company. Fidelity Management Trust Company is the record keeper and trustee for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become one hundred percent (100%) vested in their Company contributions.

NOTE 8. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, is in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the Statements of Net Assets Available for Benefits.
