G & J PEPSI-COLA BOTTLERS, INC. EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED OCTOBER 31, 2015 AND 2014

1. DESCRIPTION OF THE PLAN

The following description of the G&J Pepsi-Cola Bottlers, Inc. Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's information.

General—The Plan is a noncontributory defined-benefit plan covering substantially all employees of G & J Pepsi-Cola Bottlers, Inc. (the "Company"). The Plan Sponsor has appointed the Pension Committee to control and manage the operation and administration of the Plan. The Executive Committee serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits—Participants may accrue benefits based upon years of service and covered compensation. Participants become fully vested after 5 years of service, as defined by the plan document. There is no partial vesting of benefits. Normal retirement benefits commence upon reaching the later of age 65 or the fifth anniversary of the first day of the Plan year in which the participant commenced participation in the Plan. The Plan also provides for benefits upon meeting certain other preconditions. Upon retirement, the amount of pension benefits is determined based upon computation of the unit pension benefit (covering the employee group in which the participant is employed) multiplied by years of credited service, which varies among the employee groups. Retirement benefits are paid to pensioners or beneficiaries in the forms of joint and survivor annuities, including a lump-sum payment option.

Death and Disability Benefits—When a married employee dies with five years of service, the participant's spouse shall receive 50% of the accrued benefit reduced as if the participant had retired the day before the participant's death and had elected the benefit to commence the later of immediately or the date the participant would first be eligible for early retirement in a joint and 50% survivor annuity form.

A participant who has completed at least five years of credited service and is determined to have total and permanent disability is entitled to a monthly pension. The monthly pension is equal to the normal retirement benefit reduced by an amount based on the number of months the starting date of such pension precedes his normal retirement date.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provides various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for description of valuation methods.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Administrative Expenses—Most administrative expenses of the Plan are paid by the Plan, except for Pension Benefit Guaranty Corporation (PBGC) premiums, as provided in the Plan document. The Plan sponsor provides accounting and other administrative services to the Plan at no charge.

Accounting Standards Updates—In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07 which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for fiscal periods beginning after December 15, 2016 for non-public entities and early adoption is permitted. The ASU is to be applied retrospectively in all periods presented in an entity's financial statements. The ASU has no impact on the Plan financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Investment Disclosures. This is an update to Topic 960, Defined Benefit Pension Plans. The update has three parts: Part I, Fully Benefit-Responsive Investment Contracts; Part II, Plan Investment Disclosures; and Part III, Measurement Date Practical Expedient. Part I of the update has no effect on the Plan. Part II of the update eliminates certain disclosure requirements for investments. Specifically, the disclosures for assets that represent 5 percent or more of net assets and the net appreciation or depreciation for investments by general type. Part II also eliminates the categorization of investments by nature, characteristics and risks of assets and only requires the grouping of investments by general type, eliminating the need to disaggregate the investments in multiple ways. Additionally, Part II eliminates disclosure of investment strategy for investments that are measured using the net asset value per share (or its equivalent) if that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Part III of the update has no effect on the Plan. This new guidance is effective for non-public entities with reporting periods beginning after December 15, 2015, and early adoption is permitted. The ASU is to be applied retrospectively for all periods presented in the financial

statements. The plan is early adopting the standard as of October 31, 2015. The adoption of Part II is reflected in the notes to the financial statements. Certain historical disclosures that are no longer required were removed.

Subsequent Events—Subsequent events were evaluated through August 12, 2016, the date the financial statements were available to be issued. Based on this evaluation, no adjustment to, or disclosure in, the financial statements were required.

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following is a summary of the unaudited information regarding the Plan as of and for the years ended October 31, 2015 and 2014, included in the Plan's financial statements that was prepared by or derived from information prepared by U.S. Bank, N.A., the custodian of the Plan (the "Custodian"), and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

Note 6: All investment balances and investment information excluding classification and level of investments

Note 7 and supplemental schedules: All investment balances and investment information

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended October 31, 2015 and 2014. In addition the Plan has a receivable from the Company in the amount of \$2,514,527 as of October 31, 2015 which was paid subsequent to the plan year end.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the

expected date of payment. The more significant actuarial assumptions used in the valuations as of October 31, 2015 and 2014 were: (1) expected mortality rates of participants based on mortality tables adjusted for the demographic characteristics of the participants; (2) average assumed retirement age of approximately age 65; and (3) interest discount assumption of 8%.

The actuarial present value of accumulated plan benefits as of November 1, 2014, is as follows:

Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	\$ 7,246,309
Other participants	<u>29,792,329</u>
Total vested benefits	37,038,638
Nonvested benefits	<u>731,754</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 37,770,392</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended November 1, 2014, are as follows:

Actuarial present value of accumulated plan benefits—November 1, 2013	\$ 35,359,582
Increase (decrease) during the year attributable to:	
Decrease in discount period	2,713,844
Benefits paid	(2,929,429)
Plan experience and benefit accrual	2,135,455
Changes in actuarial assumptions	184,108
Plan amendment	<u>306,832</u>
Actuarial present value of accumulated plan benefits—November 1, 2014	<u>\$ 37,770,392</u>

The significant actuarial assumptions used by the Plan's actuary are as follows:

Discount rate	8% in 2014 and 2013
Mortality basis	Mortality applied on a dynamic basis using the SOA RP-2014 Total Dataset Mortality Table with Scale MP-2014 with separate tables for annuitants and non-annuitants.
Retirement	At normal retirement date or attained age, if greater

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. The amendment in the current year is due to a scheduled increase in benefits.

The foregoing actuarial assumptions are based on the presumption that the Plan continues indefinitely. If the Plan were to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

6. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2015 and 2014.

Mutual Funds—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Cash Equivalents—Held primarily in short-term money market commingled funds, which are valued at cost plus accrued interest with original maturities of three months or less. These deposits may be redeemed upon demand.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2015 and 2014:

	Fair Value Measurement at October 31, 2015, Using			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents	\$ 292,733	\$ -	\$ -	\$ 292,733
Mutual funds	51,153,803	-	-	51,153,803
Total	<u>\$ 51,446,536</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 51,446,536</u>

	Fair Value Measurement at October 31, 2014, Using			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents	\$ 229,938	\$ -	\$ -	\$ 229,938
Mutual funds	50,916,513	-	-	50,916,513
Total	<u>\$ 51,146,451</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 51,146,451</u>

Transfers Between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, transfers are reported at the beginning of the reporting period. There were no transfers between levels for the years ended October 31, 2015 and 2014.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds and money market funds managed by U.S. Bank N.A. U.S. Bank N.A. is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custodian services were \$77,267 and \$75,638 for the years ended October 31, 2015 and 2014. Total administrative expenses paid by the Plan were \$157,290 and \$158,738 for the years ended October 31, 2015 and 2014.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 18, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.
