The Plan is a defined contribution plan covering substantially all employees of E.T. Horn Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to participate in the Plan on November 1, February 1, May 1 or August 1 following completion of three months of service.

Administration

The Plan is administered by the Company.

Contributions

Each year, participants may elect to contribute up to 90% of eligible pre-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make matching and discretionary profit sharing contributions to the Plan as determined each year by the Company. For the year ended October 31, 2015, the Company made matching contributions of 100% of the first 3% of compensation deferred by a participant and an additional 50% of a participant's deferrals in excess of 3% of compensation but not more than 5% of compensation deferred. The Company has not made any discretionary profit sharing contributions to the Plan since the Plan's inception.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions and allocations of the Company's discretionary profit sharing contributions and Plan earnings. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's eligible compensation, participant contributions, investment elections, specific participant transactions and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTES TO THE FINANCIAL STATEMENTS

OCTOBER 31, 2015 AND 2014

1. DESCRIPTION OF PLAN – (Continued)

Vesting

Participants are immediately vested in their contributions and Company matching contributions, plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding \$1,000 may be immediately distributed in a lump-sum payment.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000, up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and New Accounting Pronouncements

The financial statements of the Plan are prepared under the accrual method of accounting.

In May 2015 and July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates ASU 2015-07 and ASU 2015-12, respectively, which include guidance related to plan investment disclosures and fully benefit-responsive investment contracts. This guidance revises the presentation for fully benefit-responsive investment contracts and disclosures related to these contracts as well as other disclosures related to plan investments. This guidance is effective for plan years beginning after December 15, 2016 (ASU 2015-07) and December 15, 2015 (ASU 2015-12), with early application permitted. The Plan has elected to early adopt the provisions of these ASUs, including the retroactive application of their provisions.

Corrective Distributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in investment earnings.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at October 31, 2015 and 2014.

Pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end. The pooled separate accounts unit prices are quoted on a private market that is not active; however, the unit prices are based on underlying investments which are traded on active markets. The NAV is used as a practical expedient to estimate fair value.

NOTES TO THE FINANCIAL STATEMENTS

OCTOBER 31, 2015 AND 2014

3. FAIR VALUE MEASUREMENTS – (Continued)

Guaranteed investment contracts: These investments are valued at fair value which is determined by multiplying the contract value by a market value adjustment factor which takes into account the remaining number of months until maturity, the crediting interest rate, and Treasury bond rates. The asset is classified within level 3 of the valuation hierarchy because the asset value is not based on a quoted active market and is valued based on unobservable inputs. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the guaranteed investment contracts, a market value adjustment would be applied and under certain conditions payment from the investment may be deferred for a period of up to 6 months, or as provided by federal law.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2015 and 2014:

Description	Total	Level 1	Level 2	Level 3
<u>December 31, 2015</u>				
Guaranteed investment contracts	\$ 2,138,935	\$ -	\$ -	\$ 2,138,935
Total assets in the fair value hierarchy	2,138,935	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,138,935</u>
Investments measured at net asset value ^(a)	16,416,786			
Total investments at fair value	<u>\$ 18,555,721</u>			
<u>December 31, 2014</u>				
Guaranteed investment contracts	\$ 1,901,270	\$ -	\$ -	\$ 1,901,270
Total assets in the fair value hierarchy	1,901,270	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,901,270</u>
Investments measured at net asset value ^(a)	15,071,036			
Total investments at fair value	<u>\$ 16,972,306</u>			

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

3. FAIR VALUE MEASUREMENTS – (Continued)

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended October 31, 2015.

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended October 31, 2015:

	<u>Guaranteed Investment Contracts</u>
Balance, beginning of year	\$ 1,901,270
Purchases	219,964
Sales	(54,365)
Unrealized gain	16,140
Interest	56,607
Fees	<u>(681)</u>
Balance, end of year	<u>\$ 2,138,935</u>

The following table represents the Plan's level 3 investment, the valuation techniques used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

<i>Instrument</i>	<i>Fair Value 10/31/2015</i>	<i>Fair Value 10/31/2014</i>	<i>Principal Valuation Method</i>	<i>Unobservable Inputs</i>	<i>Range of Significant Unobservable Inputs</i>	<i>Weighted Average</i>
Guaranteed Investment Contracts	\$2,138,935	\$1,901,270	Discounted Cash Flow	Various Assumptions	(A)	(A)

(A) Fair value is determined primarily using an income approach. The parameters used for discounting in the calculation were estimated using the perspective of the principal market which consists of similar contracts. Additional assumptions were made regarding participant behavior and product management actions.

4. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO THE FINANCIAL STATEMENTS

OCTOBER 31, 2015 AND 2014

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company (Voya), the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule as of October 31, 2015 and 2014 and for the year ended October 31, 2015.

	<u>2015</u>	<u>2014</u>
Pooled separate accounts	\$ 16,416,786	\$15,071,036
Guaranteed investment contracts	2,138,935	1,901,270
Notes receivable from participants	522,073	409,832
Net appreciation in fair value of investments	194,759	n/a
Interest	56,607	n/a
Interest income on notes receivable from participants	17,832	n/a

6. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan has entered into an investment contract with Voya. The investment account is credited with earnings on the underlying investments and charged for Plan withdrawals. The contract is considered non fully benefit-responsive and included in the financial statements at fair value, as reported to the Plan by Voya. In 2015 and 2014, the crediting interest rate was 3%. The crediting interest rates are reset upon the maturity of the contracts.

7. TAX STATUS

The Plan obtained its latest determination letter from the IRS on July 26, 2010, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA.

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Voya, the custodian and record-keeper of the Plan. The Plan paid \$6,152 in contract administration expenses to Voya during the year ended October 31, 2015. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

In connection with a fee recapture arrangement with Voya, the Plan earned \$51,597 in fee recapture credits for the year ended October 31, 2015. During 2015, \$51,597 was used to pay Plan investment advisory and broker fees. As of October 31, 2015 and 2014, there were no credits available to offset future plan expenses or allocate to participants.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of total additions per the financial statements to the Form 5500 for the year ended October 31, 2015:
