Note 1 - Plan Description

General

The OneSubsea LLC Retirement Savings Plan (the Plan) is a defined contribution plan of OneSubsea LLC (the Company or Plan Sponsor), a joint venture managed by Cameron International Corporation (Cameron). The Plan is intended to qualify under section 401(a) of the Internal Revenue Code (IRC) as a profit sharing plan with a 401(k) feature. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

For the year ended December 31, 2015, movement of employees between Cameron and OneSubsea LLC resulted in $1,323,813 transfers into the Plan from the Cameron plan and $5,375,551 transfers out of the Plan to the Cameron plan.

The following brief description of the Plan is provided for general information purposes only and is as of December 31, 2015, unless otherwise noted. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

Administration of the Plan

T. Rowe Price Trust Company serves as the Trustee and record keeper of the Plan. Among other duties, the Trustee receives contributions, holds and invests the fund assets in accordance with the directions of the participants, and makes disbursements as directed by the Plan's Administrator.

Eligibility

All employees of the Company are eligible to participate in the Plan.

Contributions

Employees may make voluntary contributions of 1% to 50% of eligible compensation on a before-tax basis, subject to IRC limitations. Participants who are or will attain age 50 years old or older before the close of the Plan's year are eligible to make a catch-up contribution in accordance with section 414(v) of the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may direct their contributions into Cameron stock, a stable value fund, and mutual funds with various investment objectives and strategies.

The Company matches 100% of the employee contributions up to a maximum of 6% and provides an additional nondiscretionary retirement contribution equal to 3% of each eligible employee's pay. The matching contributions and nondiscretionary retirement contributions are invested in accordance with the participant's existing investment elections.

Contributions to the Plan are made in cash.

Note 1 - Plan Description (Continued)

Participant Accounts

Separate accounts are maintained for each participant. Participant accounts are credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on each participant's earnings or account balance, as defined in the Plan Agreement. Each participant is entitled to the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their employee, rollover and Company matching contributions, plus actual earnings thereon. Vesting in the nondiscretionary retirement contributions and discretionary profit sharing contributions is attained upon completion of three years of service.

Forfeitures

Forfeited amounts are used to reduce Employer contributions or pay expenses of administering the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $69,918 and $25,951, respectively. During fiscal year 2015, Employer contributions were reduced by $98,396 and administrative expenses of $10,083 were paid from forfeited non-vested accounts.

Benefit Payments

Benefits are payable from participant account balances, subject to certain restrictions, upon termination of employment, retirement, reaching the age of 59½ , or by incurring a death, disability or financial hardship, as defined in the Plan Agreement. Participants elect the method of distribution which may be either in the form of a direct rollover to an eligible retirement plan or lump sum payment as defined in the Plan Agreement. Participants may elect that their portion of account balances invested in Cameron common stock be distributed in-kind.

Unless timely election is made, participants with a vested account balance less than or equal to $1,000 will automatically receive a lump sum cash distribution and participants with a vested account balance less than or equal to $5,000 but larger than $1,000 will automatically receive a direct rollover to an IRA designated by the Sponsor.

Notes Receivable from Participants

A participant may obtain a loan from his or her separate account balance. Each loan is evidenced by a promissory note and may not be less than $1,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with commercial prevailing rates as determined by the Sponsor. Provisions of the Plan require the loan not to exceed the lesser of $50,000 or 50% of the participant's vested account balance. Repayment terms for loans are not to exceed five years and principal and interest is paid ratably through payroll deductions. A participant may only have one loan at a time.

Note 1 - Plan Description (Continued)

Plan Termination

Although no interest has been expressed, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their nondiscretionary retirement contributions and discretionary profit sharing contributions. Participant contributions and Company matching contributions are always 100% vested.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on an accrual basis and present the net assets available for benefits and changes in those net assets in accordance with U.S. generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Sponsor deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefits are recorded when paid.

Note 2 - Significant Accounting Policies (Continued)

Administrative Expenses

Expenses incurred in connection with the purchase or sale of securities are charged against the investment funds whose assets are involved in such transactions. Loan fees are paid by the borrowing participant. Legal, accounting and certain administrative costs of the Plan are paid by the Employer.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminated the requirements that employee benefit plan measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. Part II eliminated the requirements to disclose the net appreciation/depreciation in fair value of investments by general type and the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits. Part II also simplified the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Part III is not applicable to the Plan.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted and retrospective application required. Plan management reviewed both ASU 2015-12 and decided to early adopt the standard as they believe it will simplify Plan accounting and its presentation in the financial statements. As such, the accounting and disclosures in these financial statements and notes follow ASU 2015-12.

Note 3 - Unaudited Information Certified by Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, T. Rowe Price Trust Company has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statement of net assets available for benefits as of December 31, 2015 and notes to financial statements.
- Net appreciation in fair value of investments, dividends and interest, and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015 and notes to financial statements.
- The supplemental schedule of assets (held at end of year) as of December 31, 2015.

Note 4 - Fair Value Measurements

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. These funds are open-ended and are registered with the SEC, whereby they are required to publish their daily net asset value (NAV) and transact at that price. The funds held by the Plan are deemed to be actively traded.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trust funds: Valued at the fair value of the underlying securities. The investment in the T. Rowe Price Stable Value Trust (stable value fund) is valued based on the cost of the underlying investments plus accrued interest income less amounts withdrawn to pay benefits.

Note 4 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to disclose transfers between levels based on valuations at the end of the reporting period. There were no transfers between Levels 1 and 2 as of December 31, 2015 and 2014.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 90,130,861	$ -	$ -	$ 90,130,861
Common collective trust fund	-	18,401,278	-	18,401,278
Cameron stock	20,920,290	-	-	20,920,290
Total assets at fair value	$ 111,051,151	$ 18,401,278	$ -	$ 129,452,429

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 92,184,695	$ -	$ -	$ 92,184,695
Common collective trust fund	-	12,162,630	-	12,162,630
Cameron stock	17,855,731	-	-	17,855,731
Total assets at fair value	$ 110,040,426	$ 12,162,630	$ -	$ 122,203,056

Note 5 - Federal Income Tax Status

The Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. A determination letter was filed on January 30, 2015 seeking exemption from taxation and was received on March 24, 2016. The Internal Revenue Service stated in the determination letter that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Sponsor believes the Plan has been operated in compliance with the applicable requirements of the IRC.

Note 5 - Federal Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 6 - Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2014:

Net assets available for benefits per the financial statements	$ 124,504,607
Fully benefit-responsive investment contract adjustment	178,905
Net assets available for benefits per the Form 5500	$ 124,683,512

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2015:

Net increase in net assets available for benefits per the financial statements	$ 7,617,449
Less: Adjustment to contract value, December 31, 2014	(178,905)
Net increase in net assets available for benefits per the Form 5500	$ 7,438,544

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are in Cameron common stock. The Plan's transactions involving Cameron common stock qualify as party-in-interest transactions. However, these transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

During the year ended December 31, 2015, the Plan paid direct compensation to the Trustee of $106,474 related to recordkeeping and administration services. Indirect compensation (that is netted against investment income on the statement of changes in net assets available for benefits) was paid to the Trustee of 0.57% of the balance of certain investment funds. The Plan has entered into a revenue sharing agreement with the Trustee, with such amounts used to pay certain administrative expenses of the Plan.

Note 9 - Subsequent Events

Effective April 1, 2016, Schlumberger Limited (Schlumberger) closed its merger with Cameron in an exchange of cash and stock. Each Cameron stockholder received 0.716 shares of Schlumberger common stock and $14.44 in cash, in exchange for each Cameron share.

Management performed an evaluation of subsequent events through June 22, 2016, the date the financial statements were issued, noting no other subsequent events requiring recognition or disclosure in the financial statements.
