NOTE A – PLAN DESCRIPTION

The following description of the Napleton Auto Werks 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted effective May 1, 1990. The Plan is a defined contribution plan covering all non-union employees of Napleton Auto Werks (the Company), who meet the minimum eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was restated in 2014 with an effective date of January 1, 2015. There were no significant changes to the Plan with this restatement. The Plan was restated again in 2015 with an effective date October 1, 2015. This restatement added the Roth deferral option and increased the deferral limit from 15% of eligible compensation to 100% of eligible compensation.

2. Eligibility

Employees qualify for participation in the Plan after completing 1,000 hours of service within one year of service and attainment of age 21. Employees whose employment is governed by a collective bargaining agreement are not eligible.

3. Contributions

Participants may elect to contribute from 1% to 15%, increased to 100% with the restatement effective October 1, 2015, of their annual eligible compensation for the year, up to $18,000 or $24,000 if age 50 or older in 2015 and $17,500 or $23,000 if age 50 or older in 2014. In addition, the Company may make matching 401(k) contributions equal to a discretionary percentage determined annually by the Company. No matching contributions were made in 2015 or 2014.

The Company may make discretionary profit sharing contribution to the Plan at the discretion of the Company's Board of Directors. The Company did not elect to make a profit sharing contribution for the years ended December 31, 2015 and 2014.

4. Participant Accounts

Separate accounts are maintained for all participants to reflect their interest in each investment fund. Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations, as defined, of (a) the Company's profit sharing contribution, if any, and (b) investment earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A – PLAN DESCRIPTION – Continued

5. Vesting

Participants are immediately 100% vested in their elective deferred contributions and the actual earnings thereon. The participants are vested in the Company's matching 401(k) contributions and the discretionary contributions according to the following:

Years of Service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

6. Participant Loans

A participant may borrow up to the lesser of $50,000 or 50% of his or her vested account balance, with a minimum loan amount of $1,000. In general, the maximum loan term is five years. The loans are secured by the balance in the participant's account and bear interest at prime. The interest rate on outstanding loans at December 31, 2015 is 3.25%.

7. Benefits

Benefit payments are made to participants or their beneficiaries upon death, disability, retirement, or severance of service in the form of a lump-sum distribution. Hardship withdrawals are also available to participants for immediate and severe financial need. Certain penalties may be assigned by the Internal Revenue Service for early withdrawal. In-service distributions are available to participants who have not incurred a severance from service if the participant has reached age 59 ½. The benefits owed to terminated participants who had requested distributions and not been paid amounted to zero at December 31, 2015 and 2014.

8. Forfeitures

Forfeitures will be allocated to qualified plan participants for the plan year based on the ratio of each participant's qualifying compensation to the total qualifying compensation for all eligible participants. Nonvested forfeitures totaled $35 and $26 at December 31, 2015 and 2014, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

This summary of significant accounting policies is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

1. Basis of Accounting

The financial statements have been prepared using the accrual method of accounting.

2. Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments in the accompanying statements of net assets available for benefits are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices based on the number of shares held by the Plan at period-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net earnings on investments are allocated to participants on a daily basis.

4. Notes Receivable from Participants

In accordance with FASB ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* the Company has classified participant loans as notes receivable from participants. These notes are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest income from notes receivable from participants is recognized when accrued based on individual agreements.

5. Payment of Benefits

Benefits are recorded when paid or segregated for payment.

6. Administrative Costs

Certain custodial, loan fees, distribution fees, and Plan expenses are paid by those participants who are in those types of investments as a direct charge against their account. Expenses relating to the management of Plan assets, recordkeeping, and administrative agents are paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

7. Plan Termination

Although management has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, employee accounts will become 100% vested and nonforfeitable. The investments will be held under the Plan, continue to accrue investment earnings, and be used to provide a benefit upon retirement, termination or death. The Plan is not insured by the Pension Benefit Guaranty Corporation (PBGC).

8. Adoption of new FASB accounting standard in 2015

In, July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Part II early.

9. Subsequent Events

Management has evaluated subsequent events through August 11, 2016. This date represents the date the financial statements are available to be issued.

NOTE C – INVESTMENTS

The Plan provides for various investment options including professionally managed funds that purchase stocks and bonds of publicly traded companies, United States and foreign government obligations, as well as money market funds. Such investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE E – TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE F – REPORTABLE TRANSACTIONS

The value of the plan assets at the beginning of the plan period was $6,531,838. All individual transactions or series of similar transactions greater than $326,592 (5% of beginning plan assets) are considered to be reportable transactions. There were no reportable transactions in the year ending December 31, 2015.

NOTE A – PLAN DESCRIPTION

The following description of the Napleton Auto Werks 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted effective May 1, 1990. The Plan is a defined contribution plan covering all non-union employees of Napleton Auto Werks (the Company), who meet the minimum eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was restated in 2014 with an effective date of January 1, 2015. There were no significant changes to the Plan with this restatement. The Plan was restated again in 2015 with an effective date October 1, 2015. This restatement added the Roth deferral option and increased the deferral limit from 15% of eligible compensation to 100% of eligible compensation.

2. Eligibility

Employees qualify for participation in the Plan after completing 1,000 hours of service within one year of service and attainment of age 21. Employees whose employment is governed by a collective bargaining agreement are not eligible.

3. Contributions

Participants may elect to contribute from 1% to 15%, increased to 100% with the restatement effective October 1, 2015, of their annual eligible compensation for the year, up to $18,000 or $24,000 if age 50 or older in 2015 and $17,500 or $23,000 if age 50 or older in 2014. In addition, the Company may make matching 401(k) contributions equal to a discretionary percentage determined annually by the Company. No matching contributions were made in 2015 or 2014.

The Company may make discretionary profit sharing contribution to the Plan at the discretion of the Company's Board of Directors. The Company did not elect to make a profit sharing contribution for the years ended December 31, 2015 and 2014.

4. Participant Accounts

Separate accounts are maintained for all participants to reflect their interest in each investment fund. Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations, as defined, of (a) the Company's profit sharing contribution, if any, and (b) investment earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A – PLAN DESCRIPTION – Continued

5. Vesting

Participants are immediately 100% vested in their elective deferred contributions and the actual earnings thereon. The participants are vested in the Company's matching 401(k) contributions and the discretionary contributions according to the following:

Years of Service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

6. Participant Loans

A participant may borrow up to the lesser of $50,000 or 50% of his or her vested account balance, with a minimum loan amount of $1,000. In general, the maximum loan term is five years. The loans are secured by the balance in the participant's account and bear interest at prime. The interest rate on outstanding loans at December 31, 2015 is 3.25%.

7. Benefits

Benefit payments are made to participants or their beneficiaries upon death, disability, retirement, or severance of service in the form of a lump-sum distribution. Hardship withdrawals are also available to participants for immediate and severe financial need. Certain penalties may be assigned by the Internal Revenue Service for early withdrawal. In-service distributions are available to participants who have not incurred a severance from service if the participant has reached age 59 ½. The benefits owed to terminated participants who had requested distributions and not been paid amounted to zero at December 31, 2015 and 2014.

8. Forfeitures

Forfeitures will be allocated to qualified plan participants for the plan year based on the ratio of each participant's qualifying compensation to the total qualifying compensation for all eligible participants. Nonvested forfeitures totaled $35 and $26 at December 31, 2015 and 2014, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

This summary of significant accounting policies is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

1. Basis of Accounting

The financial statements have been prepared using the accrual method of accounting.

2. Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments in the accompanying statements of net assets available for benefits are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices based on the number of shares held by the Plan at period-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net earnings on investments are allocated to participants on a daily basis.

4. Notes Receivable from Participants

In accordance with FASB ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* the Company has classified participant loans as notes receivable from participants. These notes are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest income from notes receivable from participants is recognized when accrued based on individual agreements.

5. Payment of Benefits

Benefits are recorded when paid or segregated for payment.

6. Administrative Costs

Certain custodial, loan fees, distribution fees, and Plan expenses are paid by those participants who are in those types of investments as a direct charge against their account. Expenses relating to the management of Plan assets, recordkeeping, and administrative agents are paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

7. Plan Termination

Although management has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, employee accounts will become 100% vested and nonforfeitable. The investments will be held under the Plan, continue to accrue investment earnings, and be used to provide a benefit upon retirement, termination or death. The Plan is not insured by the Pension Benefit Guaranty Corporation (PBGC).

8. Adoption of new FASB accounting standard in 2015

In, July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Part II early.

9. Subsequent Events

Management has evaluated subsequent events through August 11, 2016. This date represents the date the financial statements are available to be issued.

NOTE C – INVESTMENTS

The Plan provides for various investment options including professionally managed funds that purchase stocks and bonds of publicly traded companies, United States and foreign government obligations, as well as money market funds. Such investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE E – TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE F – REPORTABLE TRANSACTIONS

The value of the plan assets at the beginning of the plan period was $6,531,838. All individual transactions or series of similar transactions greater than $326,592 (5% of beginning plan assets) are considered to be reportable transactions. There were no reportable transactions in the year ending December 31, 2015.
