CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Cargill Investment Plan (the Plan) of Cargill, Incorporated and Associated Companies (the Company) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a qualified defined-contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The purpose of the Plan is to stimulate employee savings for future financial security.

(b) Trust Agreement and Plan Administration

The investment assets of the Plan are held in the Cargill Investment Plan Trust, with Vanguard Fiduciary Trust Company (the Trustee).

The Participant Loan Account is administered and maintained by the Trustee.

Recordkeeping for the Plan is outsourced to The Vanguard Group (Vanguard). Participants' accounts are revalued each day the New York Stock Exchange is open for trading.

(c) Employee Contributions

Participants are eligible to participate immediately following their date of hire. Participants may contribute from 1% to 50% of gross pay each year up to the Internal Revenue Service (IRS) maximum contribution amount. Participants may elect to change their contribution levels at any time.

The Plan offers catch-up contributions up to the IRS maximum. Employees must be at least 50 years of age during the contribution year and reach 402(g) limits or contribute at the maximum percentage allowed in order to participate. Catch-up contributions are not eligible for employer matching contributions.

Effective January 1, 2014, Roth contributions were added to the Plan. Contributions are made on an after-tax basis.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Participants choose how to invest contributions by selecting from either the Vanguard Target Retirement Trusts or the Core Funds offered by the Trustee for the Plan. During the year ended December 31, 2014, the share classes of the investments offered by the Trustee for the Plan were modified. As of July 1, 2014, the investments in the existing share classes of the funds offered by the Trustee as of December 31, 2013 were automatically transferred to the equivalent share classes offered during the Plan year ended December 31, 2014. Participants' contributions subsequent to July 1, 2014, may be invested in the share classes of the funds listed below.

Investment share classes

Vanguard Target Retirement Trust Plus Funds
Vanguard Target Retirement Income Trust Plus
Vanguard Institutional Index Fund Plus Shares
Vanguard Prime Money Market Fund Institutional Shares
Vanguard PRIMECAP Fund Admiral Shares
Vanguard Windsor II Fund Admiral Shares
Vanguard Total International Stock Index Fund Institutional Shares
T. Rowe Price Institutional Small Cap Stock Fund
JPMorgan Stable Value Fund
PIMCO Total Return Bond Institutional Fund

The Target Retirement Trust Plus Funds are "one decision" funds that simplify investing for retirement. The participant can choose the one fund nearest to his/her expected year of retirement (2060, 2055, 2050, 2045, 2040, 2035, 2030, 2025, 2020, 2015, or 2010). As that date approaches, the fund gradually and automatically reduces risk by shifting from stocks to bonds. The Vanguard Target Retirement Income Trust Plus maintains a fixed allocation intended to provide retirees with income while preserving their original investment. Participants may invest in one or more funds in multiples of 1% to 100% of the amount being invested.

All participant contributions are transferred to the Trustee weekly for investment in the funds selected by the participants. All participant withdrawals are transferred from the investment funds to the Trustee's Settlement Account and paid to the participants out of the Trustee's Settlement Account. Participants' contributions are fully vested immediately.

(d) Employer Contributions

The Plan provides for matching employer contributions to be made to the Plan in the form of matching contributions and annual allocations. Listed below are the components of the Plan, employer match rate, and frequency of matching employer contributions. All union represented participants of Cargill Meat Solutions Corporation enrolled in the Cargill Meat Solutions Corporation Employees' Retirement Plan and certain other union represented participants are not eligible for an employer match based on their negotiated union agreements.

Component	Population	Match	Frequency
CIP03	Meat Solutions union employees not in the Cargill Meat Solutions Corporation Employees' Retirement Plan – hired after the effective close date	Match is 100% (limited to first 3% of employee earnings)	Annual
CIP05*	Union (non-Meat) employees not in the Cargill, Incorporated and Associated Companies Pension Plan for Union Represented Hourly Wage Employees – hired after the effective close date	Match is 50% on the first 5% of eligible employee contributions	Weekly
CIP06	Waycrosse (Joint Venture)	Match is 100% of eligible employee contributions (limited to first 6% of employee earnings)	Per paycheck
CIP25	Cargill, Incorporated and Associated Companies Pension Plan for Production Employees – multiple locations	Match is 25% of eligible employee contributions (limited to first 4% of employee earnings)	Per paycheck

* Employees in CIP05 include: employees hired on or after January 1, 2013 at the Beardstown, IL; East St. Louis, IL; Savage, MN; and Spiritwood, ND locations; employees hired on or after June 1, 2013 at the Avery Island, LA location; employees hired on or after January 1, 2014 at the East Cedar Rapids, IA; Hammond, IN; Des Moines, IA; Lafayette, IN; Dayton, OH; and Litiz, PA locations; employees hired on or after June 1, 2014 at the West Cedar Rapids, IA; Sioux City, IA; Akron, OH; Iowa Falls, IA; Albany, NY; Cleveland, OH; Hutchinson, KS; and Bloomington, IL locations.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

In CIP03, CIP05, CIP06, and CIP50 participants are 100% vested in Cargill matching contributions. Participants' vesting on the employer match in CIP25 and CIP51 is based upon years of service as follows:

Number of completed whole years of service	Percentage vested
Less than 2 years	—%
2 years but less than 3 years	25
3 years but less than 4 years	50
4 years but less than 5 years	75
5 years or more	100

A participant will automatically become 100% vested in the employer match upon death, total disability, or upon retirement as defined in the plan document. Forfeitures of nonvested accounts are used to reduce future employer contributions. For the years ended December 31, 2014 and 2013, forfeitures of nonvested accounts were \$20,782 and \$24,969, respectively.

Effective 2001, the Plan provides for an annual allocation to TEMCO and Waycrosse (Cargill and MacMillan family management company, respectively) nonunion employees with more than one year of service if the participating employers elect to do so. This contribution is calculated based on compensation and distributed after the end of each calendar year. The allocation percentage is discretionary.

Effective 2013, the Plan provides a 2% annual allocation to participants in CIP05 (union nonmeat employees hired on or after ratification dates). This contribution is calculated based on compensation and distributed after the end of each calendar year. Employees are eligible upon hire, but must be employed on the last day of the calendar year to receive the contribution for that year unless termination is due to death, disability, or retirement.

Participants' vesting in the annual allocation is based upon years of service as follows:

Number of completed whole years of service	Percentage vested
Less than 3 years	—%
3 years or more	100

A participant will automatically become 100% vested in the annual allocation amounts upon death, total disability, or upon retirement as defined in the plan document.

(e) Loans, Benefit Payments, and Withdrawals

Benefit payments and withdrawals may be made upon the members reaching early or normal retirement date or due to termination, disability, death, retirement, or hardship. Early retirement date is the first of the month in a participant attains age 55 with five or more years of service. Normal retirement date is the date on which a participant attains age 65. On termination of service due to death,

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, installment payments – monthly (12 payments per year), quarterly (four payments per year), semi-annually (two payments per year) or annually (one payment per year), or partial payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or installment payments – monthly (12 payments per year), quarterly (four payments per year), semi-annually (two payments per year), or annually (one payment per year).

Participants may request a loan on their contributions up to \$50,000, but not exceeding 50% of their contributions account balance. The minimum allowable loan is \$1,000 and the repayment period may not exceed 58 months. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan Account.

Loan repayments are deducted from participants' paychecks and applied to the Participant Loan Account according to their pay frequency. The interest rate on the loan will be the prime rate of interest plus 1% on the day the loan is processed, and remains in effect for the duration of the loan.

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Investments and Income Recognition

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract-value basis.

The Plan's investments are stated at fair value with changes recorded in net appreciation in fair value of investments in the statement of changes in net assets available for benefits. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for the discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation, which include realized and unrealized gains and losses, are determined and applied daily according to market changes.

(c) Expenses

Trustee and certain other administrative expenses are paid by the participants out of plan assets. Other administrative expenses are paid by the Company.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual amounts could differ from those estimates.

(f) Risks and Uncertainties

The Plan provides for investment in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant accounts and the amounts reported in the statements of net assets available for benefits.

(3) Information Certified by Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the trust fund, and collects the related investment income.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets, liabilities, and income of the Plan as of and for the years ended December 31, 2014 and 2013. The JPMorgan Stable Value Fund is included in participant-directed investments at contract value as outlined in the following table:

	<u>2014</u>	<u>2013</u>
Participant-directed investments	\$ 237,709,047	229,005,144
Notes receivable from participants	7,269,658	6,855,898
Net investment income	18,951,550	35,674,743

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certification from the Plan Trustee.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

(4) Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013.

	<u>2014</u>	<u>2013</u>
Mutual funds:		
Vanguard PRIMECAP Fund Admiral Shares	\$ 53,249,813	50,315,914
Vanguard Institutional Index Fund Plus Shares	41,507,486	38,265,015
PIMCO Total Return Bond Institutional Fund	20,550,435	18,642,655
Vanguard Total Int'l Stock Index Fund Institutional Plus Shares	14,519,026	14,059,242
Vanguard Windsor II Fund Admiral Shares	12,503,791	12,123,007
Vanguard Prime Money Market Fund Institutional Shares	*	11,376,604
JPMorgan Stable Value Fund	44,561,799	49,199,988

* Investments are less than 5% of net assets available for benefits as of December 31, 2014

The Plan's mutual funds investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$10,918,667 and \$29,736,467 in 2014 and 2013, respectively.

(5) Fair Value Measurements

The Company establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis of Fair Value Measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement and unobservable.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of valuation methodologies used for investment assets held and carried at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- Mutual funds – Valued daily based on quoted prices from national exchanges and commonly used third-party pricing services. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Stable value funds – The unit value is calculated at the end of each business day. The unit value is based on the fair value of the investment contract fund's underlying holdings divided by the total number of outstanding units to obtain a daily unit value (NAV). The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables present the level within the fair value hierarchy at which the investments are measured on a recurring basis as of December 31, 2014 and 2013:

2014				
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Domestic equity	\$ 116,589,250	—	—	116,589,250

Mutual funds:

Total	<u>\$ 179,810,566</u>	<u>49,199,988</u>	<u>—</u>	<u>229,010,554</u>

The Plan did not have significant transfers between Levels 1 and 2 during the years ended December 31, 2014 and 2013. It is the Plan's policy to recognize transfers between levels of the fair value hierarchy on the date of event or change in circumstances that caused the transfer.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(6) Synthetic Guaranteed Investment Contracts

The Plan contains direct investments in synthetic guaranteed investment contracts (SGICs) (the JPMorgan Stable Value Fund) managed by JPMorgan, which are presented at fair value at December 31, 2014 and 2013, as shown in notes 4 and 5. In determining the net assets available for benefits at December 31, 2014 and 2013, the JPMorgan Stable Value Fund is recorded at its contract value of \$44,383,644 and \$49,194,578, respectively, which is equal to principal balance plus accrued interest. Investment contracts such as those comprising the JPMorgan Stable Value Fund are generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Contract value, as reported to the Plan by Vanguard, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed and reset on a quarterly basis. The crediting interest rate at December 31, 2014 and 2013 was 1.71% and 1.94%, respectively. The average yield at December 31, 2014 and 2013 was 1.55% and 1.53%, respectively.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Stable Value Fund does not permit the wrap providers to terminate the agreement except under certain circumstances per the terms of the agreement. The wrap providers and the Plan may terminate the agreement upon 30 days' notice. The SGICs within the JPMorgan Stable Value Fund are placed with financial institutions whose Standard & Poor's credit rating is A or higher.

(7) Income Taxes

The Plan received a tax determination letter from the Internal Revenue Service on December 5, 2013 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and the trust created thereunder is exempt from federal income taxes under Section 501(a). The plan administrator believes the Plan, as amended, continues to qualify under Section 401(a), and the underlying trust is exempt from federal income taxes under Section 501(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

CARGILL INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(9) Party-in-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. Vanguard Fiduciary Trust Company, Trustee of the Plan, is a party in interest as defined by ERISA as a result of investing plan assets in certain of their funds. However, such transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA.

(10) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Net assets available for benefits per the financial statements	\$ 246,457,486	236,868,519
