SPRING CREEK COMPANIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Spring Creek Companies 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from Plan management.

The Plan was established effective September 1, 1993. Spring Creek Management Co. Ltd. (the Company) is the Plan's sponsor.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service of no less than 1,000 hours and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Plan is administered by the owner and the Chief Financial Officer of Spring Creek Restaurants Ltd. JP Morgan Chase Bank, N.A. is the Plan's custodian. Reliance Trust Company is the Plan's trustee. Fascore is the Plan's record-keeper.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation, as defined in the Plan. During the 2015 plan year, in accordance with the provisions of the Internal Revenue Code (IRC), no participant could elect more than $24,000 in pretax contributions, which includes a $6,000 limit for catch-up contributions. This limitation does not include the Company's matching contributions. The Company matches 100% of the first 3% and 50% of the next 2% of each participant's elected contribution to the Plan. The Company may make an additional discretionary matching contribution equal to a percentage declared by the Company by a letter of intent. No such contribution was elected during 2015 or 2014. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans.

Participants' Accounts

Each participant's account is credited with the participant's elective contribution and allocations of (a) the Company's matching contribution and (b) plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Vesting

Participants are vested immediately in both their contributions and the Company's contributions portion of their accounts plus actual earnings thereon.

Investment Options

Upon enrollment, participants have the option of transferring their funds between investment options daily. Participants can direct contributions to any investment option available under the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. Loans must be repaid within five years, although loans taken for the purpose of purchasing the participant’s principal residence may be repaid over a longer term. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined at the application date of the loan. Interest rates for loans ranged from 4.25% to 10% at December 31, 2015. Principal and interest is paid ratably through weekly payroll deductions.

Benefits Paid to Participants

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or monthly installments until the total amount paid equals the vested amount. If a participant's vested account has never been more than $5,000, it will be paid in a lump sum distribution.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting, in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as measured by quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents the net change in fair value of registered investment companies which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distribution from such investments in the accompanying statements of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

The trustee is responsible for both the management and recordkeeping of the Plan's assets. Trustee administrative expenses are generally paid directly to the trustee by the Company and thus are not a component of the changes in net assets available for benefits. Management fees and operating expenses are charged to the Plan for certain investment options and are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Administrative expenses of $1,907 and $1,297 are reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014, respectively, related to processing participants' loans and were paid by the individual participants.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

New Accounting Pronouncements/Accounting Changes

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The new guidance is effective for public entities with reporting periods beginning after December 15, 2015 and for all other entities with reporting periods beginning after December 14, 2016. This ASU is not applicable to the Plan.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investment by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to adopt Part II early. The Plan's early adoption of this guidance in 2015 was applied retrospectively and did not have a material impact on its financial statements.

Subsequent Events

The Plan evaluated all events and transactions that occurred after December 31, 2015 through July 29, 2016, the date these financial statements were available to be issued.

NOTE 3. CERTIFIED INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2015 and 2014, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained or derived from information provided to Plan management and certified as complete and accurate by Reliance Trust Company (2015) and J.P. Morgan Chase Bank, N.A. (2014), the respective trustees of the Plan.

NOTE 4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The methods previously described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

	2015	2014
Level 1:		
Mutual funds	$ 3,875,478	$ 3,800,536
Self-directed brokerage account	513,738	483,366
Total investments, at fair value	$ 4,389,216	$ 4,283,902

NOTE 5. RELATED PARTIES

Certain plan investments are shares of mutual funds managed by affiliates of JP Morgan, Chase Bank, N.A. the custodian of the Plan assets, and therefore, these investment transactions qualify as party-in-interest. Additionally, the Company pays certain administrative expenses on behalf of the Plan.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

NOTE 7. INCOME TAX STATUS

The Company has adopted a prototype plan document. The prototype plan adopted by the Company has received a favorable opinion letter from the IRS dated December 5, 2001, stating that the prototype is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator and management believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2015 to Form 5500:

Net assets available for benefits per the financial statements	$	4,515,075
Notes receivable from participants deemed to be distributions		(9,827)
Net assets available for benefits per Form 5500	$	4,505,248

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 – CONTINUED

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to form 5500 for the year ended December 31, 2015:

Change in net assets available for benefits per the financial statements	$	113,775
Notes receivable from participants deemed to be distributions		(9,827)
Net income per Form 5500	$	103,948
