NOTE A – Description of Plan

The following description of the Industrial Info Resources, Inc. Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was adopted effective September 1, 1993 to establish a savings and investment plan for the exclusive benefit of the employees of Industrial Info Resources, Inc. (the "Company"). The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – All full-time and part-time employees, excluding those classified as interns, are eligible to become participants in the Plan after having attained the age of 21. Entry dates into the Plan are the first day of the quarter following date of hire or attaining age 21.

Contributions – Eligible employees are automatically enrolled to defer 2% of their eligible compensation into the plan when they fail to provide the Company with a salary reduction agreement. Participants may elect to make contributions to the Plan in an annual amount up to 90% of their compensation. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $18,000 (participants under 50 years of age) and $24,000 (participants 50 years of age or older) in 2015. This limitation is periodically adjusted to reflect cost-of-living increases.

The Company elected to contribute a 401(k) matching contribution equal to 50% of each participant's deferrals up to 6% of eligible compensation. Maximum annual additions (which include employer contributions) shall not exceed the lesser of $50,000 or 100% of the participant's compensation, or cause the Plan to exceed the maximum amount allowable as a deduction to the employer under provisions of the Internal Revenue Code. The Company may also make additional contributions, in an amount determined solely at the discretion of the managing body of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There was no discretionary match made for 2015.

Payment of Benefits – The normal form of benefit payable under this Plan is a lump sum. If the amount payable is greater than $1,000 but less than $5,000, the participant's vested account balance will be directly rolled over into an individual retirement account maintained by an entity selected by the Company. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Participant's Investment Options – Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

NOTE A – Description of Plan – continued

Vesting – Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company contributions and related earnings vest as follows:

Years of Vesting Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

The amount of unused forfeitures at December 31, 2015 amounted to $18,241, which will be used to fund employer discretionary contributions for the year ended December 31, 2016.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or up to a reasonable period of time exceeding five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. The interest rate on loans outstanding at December 31, 2015 ranged from 5.25% to 7.75%. Principal and interest is paid ratably through payroll deductions.

Administration – The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses other than each participant's loan fees and distribution fees were paid by the Company for the year ended December 31, 2015.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recognized when earned.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties – The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

NOTE B – Summary of Significant Accounting Policies – continued

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

Notes Receivable from Participants – Loans to participants are reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Subsequent Events – The Plan has evaluated subsequent events through May 31, 2016, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2015.

Recently Issued Accounting Standards – Recent accounting pronouncements issued by the FASB did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE C – Fair Value Measurements

FASB ASC Codification 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Codification 820 are described as follows:

- Level 1
  Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2
  Inputs to valuation methodology include
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3
  Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Pooled Separate Account: Valued at fair value by the asset custodian based upon the net asset value of underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C – Fair Value Measurements - continued

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014:

Massachusetts Mutual Life Insurance Company on behalf of Hartford Life Insurance Company has also certified the information contained in the supplemental schedule of assets (held at end of year) as well as the participant loans receivable at December 31, 2015 and 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE E – Tax Status

In 2011, the Company adopted a Volume Submitter Profit Sharing Plan with a deferral arrangement. The Volume Submitter Profit Sharing Plan received a favorable opinion letter from the internal Revenue Service (IRS) on July 1, 2009, which stated that the Volume Submitter Profit Sharing Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan has been amended since the favorable opinion letter was received. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2015, the years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2012 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net asset available for plan benefits.

NOTE F – Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE G – Party-In-Interest Transactions

The Plan invests in various funds offered by Hartford Life Insurance Company. These investments are considered party-in-interest transactions because Hartford Life Insurance Company serves as asset custodian to the Plan. The Plan Administrator has approved of these investment options.
