THE BRIAR TEAM, LLC 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

1 DESCRIPTION OF PLAN

The following description of The Briar Team, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code and covers substantially all eligible employees of The Briar Team, LLC (the "Company"), who have completed at least six months of service and are age 18 or order. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is administered by a custodian appointed by the Board of Directors of the Company.

Contributions

Each year, participants may contribute a percentage of their pre-tax earnings, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching or discretionary contributions that are determined annually.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is determined under the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may not exceed five years, unless used to acquire the principal residence of the participant. The loans are secured by the balance in the participant's account and bear interest at 9.25%. Principal and interest are payable through bi-weekly payroll deductions. The number of outstanding loans for a participant is limited to five.

Payment of benefits

On termination of service due to death, disability, retirement or other reasons, if the vested account balance, excluding rollover contributions, exceeds $5,000, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments or a combination of the two. For vested accounts, excluding rollover contributions, less than $5,000, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts

As of December 31, 2015 and 2014, forfeited nonvested accounts totaled $8,907 and zero, respectively. These accounts are used to reduce employer contributions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recently adopted accounting pronouncements

In 2015, the Plan adopted FASB Accounting Standards Update 2015-07 *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* Former guidance required that investments for which fair value was measured at net asset value (or its equivalent) to be categorized within the fair value hierarchy. This update eliminates that requirement. The effect of this adoption did not change the 2015 net decrease in net assets available for benefits. The financial statement for 2014 has been retroactively restated for the adoption, which did not change the January 1, 2014 net assets available for benefits.

In 2015, the Plan adopted FASB Accounting Standards Update 2015-12 *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Former guidance required fully benefit-responsive investments contracts to be measured at fair value with an adjustment to contract value on the statement of net assets available for benefits. This update allows fully-benefit-responsive investment contracts to be measured, presented and disclosed at contract value. The effect of this adoption did not change the 2015 net decrease in net assets available for benefits. The financial statement for 2014 has been retroactively restated for the adoption, which did not change the January 1, 2014 net assets available for benefits.

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or decline in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation or decline in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through August 18, 2016, which is the date the financial statements were available to be issued.

3 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2015 and 2014:

	2015	2014
Principal Large Cap S&P 500 Index	$ 613,639	$ 599,782
Principal Mid Cap	475,188	626,785
Principal Mid Cap Value III	320,055	321,789
Principal Lifetime 2020	316,698	322,671
Principal Stable Value Fund+	258,912	326,312
Principal Small Cap S&P 600 Index	231,769	237,313
Principal Diversified International	207,021	199,056
Principal Mid Cap Growth	Not over 5%	297,953

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value as follows:

Mutual funds	$ 32,082
Stable value collective trust	417
	$ 32,499

4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices ("unadjusted") in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets.

b) Quoted prices for identical or similar assets or liabilities in inactive markets.
c) Inputs other than quoted prices that are observable for the asset or liability.
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

1. Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

2. Stable value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,146,799	$ -	$ -	$ 3,146,799
Total assets in the fair value heirarchy	3,146,799	-	-	3,146,799
Investments measured at net asset value (a)	-	-	-	258,912
Investments at fair value	$ 3,146,799	$ -	$ -	$ 3,405,711

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,595,666	$ -	$ -	$ 3,595,666
Total assets in the fair value heirarchy	3,595,666	-	-	3,595,666
Investments measured at net asset value (a)	-	-	-	329,312
Investments at fair value	$ 3,595,666	$ -	$ -	$ 3,924,978

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers between Levels

For years ended December 31, 2015, and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments measured using the net asset value per share practical expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 258,912	N/A	Daily	12 months

December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 322,646	N/A	Daily	12 months

5 FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan has entered into certain traditional guaranteed-interest investment contracts ("GIC") with Principal Financial Group ("Principal"). Principal maintains the contributions in a general account. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional guaranteed-interest investment contracts were $21,362 and $35,574 as of December 31, 2015 and 2014, respectively.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula determined by the contract issuer. Such interest rates are reviewed on a periodic basis for resetting. The average yields earned by the GIC were 1.4% and 0.95% for the years ended December 31, 2015 and 2014, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract.

Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

6 RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal. Principal is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in interest transactions. Fees incurred and paid directly by the Plan for the administrative services were $14,018.

7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8 TAX STATUS

The IRS has determined and informed the Company, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10 RECONCILIATION OF FINANCIAL STATEMENTS TO FEDERAL FORM 5500
