Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. The Company's contributions and earnings thereon will vest as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Investment Options – Upon enrollment in the Plan, a participant may direct participant contributions in 1% increments in any of the Plan's twenty-three fund options. Participants may change their investment options at any time.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Participants may not take out more than two (2) loans at one time. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest charged for similar types of loans by other lenders. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – The payment of benefits under this Plan to the participant shall begin as soon as administratively feasible. Distributions are allowed in the event of termination of employment, disability, death, and retirement. Also, in-service distributions are allowed in the event of financial hardship or upon attainment of age 59 1/2, and only from fully vested accounts.

A mandatory single lump-sum distribution is paid to an individual retirement account if the participant's vested account balance is greater than \$1,000 but less than \$5,000 and the participant does not consent to a rollover or direct distribution otherwise. If the participant's vested account balance exceeds \$5,000, payment of benefits may be in the form of lump sums, substantially equal installments, or in partial withdrawals provided the minimum withdrawal is \$1,000. A mandatory single lump-sum direct distribution is paid to the participant if the vested account balance is \$1,000 or less.

In the event a participant receives a hardship withdrawal from the Plan, that participant will not be able to make salary deferrals for a period of six months after the distribution is received.

Forfeited Accounts – Forfeited non-vested accounts may be used to pay administrative expenses or to reduce any employer contribution. Forfeitures of \$119 and \$187 for 2015 and 2014, respectively, were used to reduce the Company's matching contribution. The Plan's forfeited non-vested accounts totaled \$-0- as of December 31, 2015 and 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment adviser, custodian and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. A provision for doubtful accounts has not been recorded as of December 31, 2015 or 2014. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Change in Accounting Principles – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value practical expedient in Accounting Standards Codification ("ASC") 820. ASU 2015-07 requires retrospective application and is effective for fiscal years beginning after December 15, 2015 (non-public entities for fiscal years beginning after December 15, 2016) with early adoption permitted. Management has elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) – I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires investments that are measured using fair value (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate.

Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III is not applicable to the Plan. ASU 2015-12 requires retrospective application and is effective for fiscal years beginning after December 15, 2015, with early application permitted. Management has elected to early adopt the provisions of Parts I and II of this new standard. Accordingly, these provisions were retrospectively applied.

The adoption of ASU 2015-07 and ASU 2015-12 simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures. Plan management does not believe that the adoption of the provisions of these ASU's had a material impact on the financial statements.

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Reclassifications – Certain reclassifications have been made to the prior period's financial statements in order to conform to the current year's presentation.

Subsequent Events – The Plan has evaluated subsequent events through August 22, 2016, the date the financial statements were available to be issued.

3. Information Prepared and Certified by the Custodian (Unaudited)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Mass Mutual Life Insurance Company, the custodian of the plan.

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,119 and \$104,554, respectively. Interest and dividend income on the Plan's investments was \$21,972 and \$21,472 for the years ended December 31, 2015 and 2014, respectively.

4. Investment Contract

The Plan has a group annuity contract with Mass Mutual. Mass Mutual maintains the investment portfolio and all contributions in pooled separate investment accounts.

Contributions allocated to pooled separate investment accounts are invested solely in shares of underlying mutual funds, which are segregated from the other assets of Mass Mutual. These accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals and administrative maintenance expenses charged by Mass Mutual. The investments in pooled separate investment accounts are not considered fully benefit-responsive and are included in the financial statements at fair value.

The Plan also invests in a fully benefit-responsive guaranteed investment contract with Mass Mutual totaling \$745,383 for 2015 and \$679,576 for 2014. The crediting interest rates on the contract were 2.87% and 2.79% for 2015 and 2014, respectively. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measurement for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, the investment contract is subject to certain restrictions which may impact the Plan's ability to fully realize the investment contract's value under certain conditions.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Certain events might limit the ability of the Plan to transact at contract value with the issuer of its investment contract. Specifically, any event outside the normal operation of the investment contract which causes a withdrawal from an investment may result in a negative market value adjustment with respect to such withdrawals. Such events include, but are not limited to, the following: (1) partial or complete legal termination of the investment contract, (2) tax disqualification of the investment contract or participant, or (3) certain investment contract amendments if issuers' consent is not obtained. As of December 31, 2015, the occurrence of an event outside the normal operation of the investment contract which would cause a withdrawal from an investment contract is not considered probable.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

The following fair value hierarchy classifies the inputs to valuation techniques used to measure fair value into one of three levels:

Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets.

Level 3: unobservable inputs that reflect the reporting entity's own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate investment accounts: Valued at net asset value ("NAV") at year-end, based on the fair value of the underlying mutual fund investments.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Pooled separate investment accounts measured at NAV (a)				1,833,233
Total Investments at fair value				<u>\$ 1,833,233</u>

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Pooled separate investment accounts measured at NAV (a)				1,693,159
Total Investments at fair value				<u>\$ 1,693,159</u>

- (a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient to estimate fair value, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015 and 2014, respectively.

December 31, 2015	NAV	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate investment accounts	\$ 1,833,233	N/A	Daily	None

December 31, 2014	NAV	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate investment accounts	\$ 1,693,159	N/A	Daily	None

**Notes to the Financial Statements
For the Years Ended December 31, 2015 and 2014**

6. Related-Party Transactions and Party in Interest Transactions

Certain plan investments are investment contracts with Mass Mutual, the custodian of the Plan; therefore, these transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA. Additionally, loans to participants are also considered party in interest transactions.

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax Status

The Plan received a prototype standardized profit sharing plan determination letter dated March 31, 2014 from the Internal Revenue Service which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"), and will not be receiving a separate determination letter. The Plan has been amended since receiving the determination letter. However, the plan administrator and Plan's management believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements
For the Years Ended December 31, 2015 and 2014

1. Description of Plan

The following description of Easton Coach Company 401(k) Retirement Savings Plan (the "Plan"), provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all full-time employees of Easton Coach Company (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees shall be eligible to become participants as of the first day of the Plan year quarter coinciding with or following the date on which they have completed twelve months of service with 1,000 hours worked, and have also obtained age 21. Under the terms of the Plan document, service with certain previous employers will be counted toward eligibility in the Plan.

Contributions – Each active participant shall elect to enter into a written salary deferral agreement with the Company in an amount up to the maximum percentage allowable which does not exceed Internal Revenue Service limits. The Company may make a matching contribution equal to a discretionary percentage of eligible compensation. For the years ended December 31, 2015 and 2014, the Company elected to contribute 25% of the first 6% of eligible compensation that a participant contributed to the Plan.

In addition, the plan administrator may receive on behalf of a participant the entire amount of any distribution from a prior employer qualified tax deferred plan and from certain Individual Retirement Accounts.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions, and (b) Plan earnings, and is charged with (c) certain administrative expenses and (d) allocation of Plan losses. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. The Company's contributions and earnings thereon will vest as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Investment Options – Upon enrollment in the Plan, a participant may direct participant contributions in 1% increments in any of the Plan's twenty-three fund options. Participants may change their investment options at any time.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Participants may not take out more than two (2) loans at one time. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest charged for similar types of loans by other lenders. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – The payment of benefits under this Plan to the participant shall begin as soon as administratively feasible. Distributions are allowed in the event of termination of employment, disability, death, and retirement. Also, in-service distributions are allowed in the event of financial hardship or upon attainment of age 59 1/2, and only from fully vested accounts.

A mandatory single lump-sum distribution is paid to an individual retirement account if the participant's vested account balance is greater than \$1,000 but less than \$5,000 and the participant does not consent to a rollover or direct distribution otherwise. If the participant's vested account balance exceeds \$5,000, payment of benefits may be in the form of lump sums, substantially equal installments, or in partial withdrawals provided the minimum withdrawal is \$1,000. A mandatory single lump-sum direct distribution is paid to the participant if the vested account balance is \$1,000 or less.

In the event a participant receives a hardship withdrawal from the Plan, that participant will not be able to make salary deferrals for a period of six months after the distribution is received.

Forfeited Accounts – Forfeited non-vested accounts may be used to pay administrative expenses or to reduce any employer contribution. Forfeitures of \$119 and \$187 for 2015 and 2014, respectively, were used to reduce the Company's matching contribution. The Plan's forfeited non-vested accounts totaled \$-0- as of December 31, 2015 and 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment adviser, custodian and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. A provision for doubtful accounts has not been recorded as of December 31, 2015 or 2014. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Change in Accounting Principles – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value practical expedient in Accounting Standards Codification ("ASC") 820. ASU 2015-07 requires retrospective application and is effective for fiscal years beginning after December 15, 2015 (non-public entities for fiscal years beginning after December 15, 2016) with early adoption permitted. Management has elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) – I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires investments that are measured using fair value (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate.

Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III is not applicable to the Plan. ASU 2015-12 requires retrospective application and is effective for fiscal years beginning after December 15, 2015, with early application permitted. Management has elected to early adopt the provisions of Parts I and II of this new standard. Accordingly, these provisions were retrospectively applied.

The adoption of ASU 2015-07 and ASU 2015-12 simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures. Plan management does not believe that the adoption of the provisions of these ASU's had a material impact on the financial statements.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Reclassifications – Certain reclassifications have been made to the prior period's financial statements in order to conform to the current year's presentation.

Subsequent Events – The Plan has evaluated subsequent events through August 22, 2016, the date the financial statements were available to be issued.

3. Information Prepared and Certified by the Custodian (Unaudited)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Mass Mutual Life Insurance Company, the custodian of the plan.

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,119 and \$104,554, respectively. Interest and dividend income on the Plan's investments was \$21,972 and \$21,472 for the years ended December 31, 2015 and 2014, respectively.

4. Investment Contract

The Plan has a group annuity contract with Mass Mutual. Mass Mutual maintains the investment portfolio and all contributions in pooled separate investment accounts.

Contributions allocated to pooled separate investment accounts are invested solely in shares of underlying mutual funds, which are segregated from the other assets of Mass Mutual. These accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals and administrative maintenance expenses charged by Mass Mutual. The investments in pooled separate investment accounts are not considered fully benefit-responsive and are included in the financial statements at fair value.

The Plan also invests in a fully benefit-responsive guaranteed investment contract with Mass Mutual totaling \$745,383 for 2015 and \$679,576 for 2014. The crediting interest rates on the contract were 2.87% and 2.79% for 2015 and 2014, respectively. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measurement for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, the investment contract is subject to certain restrictions which may impact the Plan's ability to fully realize the investment contract's value under certain conditions.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

Certain events might limit the ability of the Plan to transact at contract value with the issuer of its investment contract. Specifically, any event outside the normal operation of the investment contract which causes a withdrawal from an investment may result in a negative market value adjustment with respect to such withdrawals. Such events include, but are not limited to, the following: (1) partial or complete legal termination of the investment contract, (2) tax disqualification of the investment contract or participant, or (3) certain investment contract amendments if issuers' consent is not obtained. As of December 31, 2015, the occurrence of an event outside the normal operation of the investment contract which would cause a withdrawal from an investment contract is not considered probable.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

The following fair value hierarchy classifies the inputs to valuation techniques used to measure fair value into one of three levels:

Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets.

Level 3: unobservable inputs that reflect the reporting entity's own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate investment accounts: Valued at net asset value ("NAV") at year-end, based on the fair value of the underlying mutual fund investments.

Easton Coach Company 401(k) Retirement Savings Plan

Notes to the Financial Statements For the Years Ended December 31, 2015 and 2014

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Pooled separate investment accounts measured at NAV (a)				1,833,233
Total Investments at fair value				<u>\$ 1,833,233</u>

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Pooled separate investment accounts measured at NAV (a)				1,693,159
Total Investments at fair value				<u>\$ 1,693,159</u>

- (a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient to estimate fair value, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015 and 2014, respectively.

December 31, 2015	NAV	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate investment accounts	\$ 1,833,233	N/A	Daily	None

December 31, 2014	NAV	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate investment accounts	\$ 1,693,159	N/A	Daily	None

**Notes to the Financial Statements
For the Years Ended December 31, 2015 and 2014**

6. Related-Party Transactions and Party in Interest Transactions

Certain plan investments are investment contracts with Mass Mutual, the custodian of the Plan; therefore, these transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA. Additionally, loans to participants are also considered party in interest transactions.

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax Status

The Plan received a prototype standardized profit sharing plan determination letter dated March 31, 2014 from the Internal Revenue Service which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"), and will not be receiving a separate determination letter. The Plan has been amended since receiving the determination letter. However, the plan administrator and Plan's management believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**Effective for the 2015 Direct Filing Entity ("DFE") year, Mass Mutual Retirement Services, a division of Mass Mutual Life Insurance Company, will not file as a DFE on behalf of its Pooled Separate Investment Accounts which invest directly in mutual funds. Instead of reporting the plan monies invested in Pooled Separate Investment Accounts on Part 1 line 1c(10)-Value of interest in pooled separate accounts, these assets need to be reported on Part 1 line 1c(13)-Value of interest in registered investment companies (e.g. mutual funds). In accordance with the IRS/DOL Form 5500 instructions for Schedule H, the combined net investment gain or loss should continue to be reported on line 2b(7).
