Report On The Financial Statements

We were engaged to audit the accompanying financial statements of Detroit Tool & Engineering 401(k) Retirement Plan, which comprise the statement of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis For Disclaimer Of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis For Disclaimer Of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Trust Company, the Trustee, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer Of Opinion

Because of the significance of the matter described in the Basis For Disclaimer Of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis Of Matter

As discussed in Note 2 to the financial statements, in 2015, Detroit Tool & Engineering 401(k) Retirement Plan adopted new accounting guidance within the Accounting Standards Codification caused by Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)* and ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Our opinion is not modified with respect to these matters.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2015 and delinquent participant contributions for the year ended December 31, 2015, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis For Disclaimer Of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report On Form And Content In Compliance With DOL Rules And Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2015 and 2014

1. Description Of The Plan

The following brief description of the Detroit Tool & Engineering 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by DTE, Inc. d/b/a Detroit Tool and Engineering (the Company or Plan Administrator). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan covers all employees of the Company who have completed 45 days of service and have attained age 21 to participate. Employees enter the Plan the day eligibility requirements are satisfied.

Contributions

Participants can contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations. Effective November 1, 2015, the Plan was amended to allow for an automatic enrollment feature. Eligible employees will be automatically enrolled in the Plan and compensation will be adjusted for a 3% automatic deferral, unless the employee affirmatively elects otherwise.

Effective January 1, 2015, the Plan was amended to allow for discretionary matching contributions for employees who were active participants at any time during the Plan year. For the Plan year ended December 31, 2015, the Company matched 75% of the first 2% of eligible compensation.

The Company may also make a discretionary contribution to active participants on the last day of the Plan year that worked at least 1,000 hours of service during the Plan year. There were no such discretionary contributions made by the Company for the years ended December 31, 2015 or 2014.

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Plan Administration

Principal Trust Company (Principal) is the Plan's trustee.

Vesting

Participants are 100% vested in their deferral contributions plus actual earnings thereon. Vesting in Company contributions is based on years of service. Participants vested 25% after two years of service, becoming fully vested after five years of service. Participants also become 100% vested upon reaching normal retirement age (age 65), becoming disabled or death.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are reallocated to participants as a discretionary Company contribution. There were no reallocated forfeitures for the years ended December 31, 2015 or 2014. There were no unallocated forfeitures available for future use at December 31, 2015 or 2014.

Participant Accounts

Each participant's account is credited with the participant's deferral contributions, Company contributions and an allocation of Plan earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment Of Benefits

Participants are entitled to receive the balance of their accounts upon death, total disability, retirement, or termination of employment in the form of a lump-sum or annuity. The Plan Administrator may elect to automatically distribute to terminated participants, in a lump-sum payment, balances of \$1,000 or less.

In-Service Withdrawals

Participants who attain the age of 59-1/2 may withdrawal any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Notes Receivable From Participants

A participant may borrow a minimum of \$1,000 from his or her account with a maximum of one loan outstanding at any given time. In no event can the participant borrow more than \$50,000 or 50% of his or her vested account balance, whichever is less. Loans are for a period not to exceed five years, unless used to acquire a personal residence, and bear interest at a reasonable fixed rate of interest based on prevailing market rates. All loans are secured by the participant's vested account balance and are payable in installments of principal and interest through payroll deductions.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. A portion of the administrative expenses of the Plan are paid by the Company as provided in the Plan Document. The Plan pays expenses related to transaction and recordkeeping fees.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of a variety of investment options available.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are maintained on an accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

DETROIT TOOL & ENGINEERING
401(k) RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Investment Valuation And Income Recognition

Investments other than fully benefit-responsive investment contracts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan that are fully benefit-responsive are reported at contract value, rather than fair value, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Principal fixed income guaranteed option is a fully benefit-responsive investment contract and is reported at contract value in the statement of net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) - Disclosures For Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include within the fair value hierarchy leveling table those investments that measure fair value using the practical expedient available for investments that calculate a net asset value (NAV) per share. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. Even though these investments are removed from the fair value hierarchy, plans should provide or disclose the total amount of investments measured using the NAV per share (or its equivalent) practical expedient in order to permit reconciliation of the fair value of investments included in the fair value hierarchy to the line items presented in the statement of net assets available for benefits. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. ASU 2015-07 is to be applied retrospectively. Management has elected to early adopt ASU 2015-07.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part III is not applicable to the Plan. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of Plan asset. Additionally, Part II permits plans to eliminate the disclosure of significant investment strategies for any investment measured using the net asset value per share (or its equivalent) practical expedient, provided that the investment fund files an annual report on Form 5500 as a direct filing entity. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Payment Of Benefits

Benefit payments are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 28, 2016, the date through which the financial statements were available for issue.

3. Certified Investments

Information related to investments, notes receivable from participants and investment income disclosed in the accompanying financial statements and supplemental schedule, as of and for the years then ended December 31, 2015 and 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal.

Guaranteed Investment Contract

The Plan invests in a benefit-responsive annuity contract (the Contract) with Principal Life Insurance Company, which maintains the contributions in a guaranteed interest account.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Interest income on the Contract is calculated and credited daily based on fixed interest rates. Interest rates are reset on a semiannual basis. The Contract had an average crediting interest rate of 1.90% and 2.03% for the years ended December 31, 2015 and 2014, respectively.

The Contract permits the Company or Principal to terminate the Contract within 12 months of receiving notification. Principal may make the termination payment immediately in lieu of a 5% surrender charge.

Notes To Financial Statements (*Continued*)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) the decision by the Plan Sponsor to withdraw all assets from the fund and reinvest in another investment vehicle, (3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (4) the delivery of any communication to Plan participants designed to influence the participant not to invest in the fund, (5) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement applicable to the Plan. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Fair Value Measurements

The Plan follows accounting rules which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts

Valued at the NAV of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal Life Insurance Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

Collective Investment Trusts

Valued at NAV based on the market value of the underlying investment assets divided by the number of units outstanding at the end of the Plan year. The NAV, as provided by Principal Trust Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

Notes To Financial Statements (*Continued*)

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,293,381	\$ —	\$ —	\$ 4,293,381
Investments measured at net asset value (a)				8,425,066
Total assets at fair value	\$ 4,293,381	\$ —	\$ —	\$ 12,718,447

	December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,489,221	\$ —	\$ —	\$ 4,489,221
Investments measured at net asset value (a)				8,306,039
Total assets at fair value	\$ 4,489,221	\$ —	\$ —	\$ 12,795,260

- (a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

There have been no changes in the methodologies used at December 31, 2015 or 2014.

5. Income Tax Status

The Company has adopted the Principal prototype standardized plan, for which a favorable opinion letter was issued to Principal by the IRS on March 31, 2014. The Plan itself has not received a determination letter. The Plan has been amended since the date of the opinion letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2012 and later remain subject to examination by taxing authorities.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Party-In-Interest Transactions

The Plan invests in a guaranteed investment contract, pooled separate accounts and collective investment trusts managed by the Trustee. These transactions with the Trustee are considered party-in-interest transactions allowable under ERISA.
