PACIFIC COAST SALES & SERVICE PROFIT SHARING 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Pacific Coast Sales & Service Profit Sharing 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator

General - The Plan is a defined contribution plan covering all nonunion full-time employees of Pacific Coast Sales & Service, Inc. (the "Company" or "plan sponsor") who have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA")

Contributions - Each year, participants may contribute up to the maximum as permitted by law of pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

The Company contributed an amount equal to 50% of the participants' contributions up to 4% of the participants' eligible wages for the year ended September 30, 2015, and an amount equal to 25% of the participants' contributions up to 4% of the participants' eligible wages for the year ended September 30, 2014. Profit sharing amounts may be contributed at the option of the Company's board of directors and are invested directly into the participants' accounts.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers thirty-two pooled separate accounts, one common/collective trust fund, and one money market fund as investment options for participants

Participant accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account

Vesting - Participants' contributions plus actual earnings thereon are 100% vested immediately Employer contributions are subject to the following vesting schedule:

Matching and Profit Sharing Contributions	
Years of Service	**Vested %**
1	0
2	20
3	40
4	60
5	80
6	100

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25% to 9.93%. Principal and interest are paid ratably through payroll deductions.

(1) Description of plan (continued)

Payment of benefits - On termination of service due to death, disability or retirement, a participant or his or her beneficiary(ies) may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - As of September 30, 2015 and 2014, forfeited nonvested accounts totaled $2,841 and $6,853, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by $4,226 and $6,930 from forfeited nonvested accounts for the years ended September 30, 2015 and 2014, respectively.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncements - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "*Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*." The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the Net Asset Value ("NAV") per share as a practical expedient provided by FASB Accounting Standards Codification ("ASC") Topic 820, "*Fair Value Measurements and Disclosures*." Disclosures about investments in certain entities that calculate NAV per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the NAV practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. The adoption has been reflected in Note 4 to the financial statements.

In July 2015, the FASB issued ASU 2015-12, "*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*." Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by investments by nature, characteristics, and risk. Further, the disclosure of information about fair value measurements shall be provided by general type of plan. Part III of this ASU allows a plan with a fiscal year-end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month-end closest to its fiscal year-end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted

(2) Summary of significant accounting policies (continued)

New accounting pronouncements (continued) - The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan management has elected to early adopt ASU 2015-12 (Parts I and II). The statement of changes in net assets available for benefits of the Plan was not affected by the adoption of the new guidance. Part III is not applicable to this Plan.

Investment valuation and income recognition - Investments are reported at fair value (except for the fully benefit-responsive investment contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the Plan's investment advisors and custodian. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Unit values - Individual participant accounts for the common/collective trust fund and pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the plan sponsor and are not included in the statements of changes in net assets available for benefits. Certain other fees are paid by the Plan.

(3) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great West Life & Annuity Insurance Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to the following:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

(3) **Information prepared and certified by the custodian (continued)**

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) **Fair value measurements**

FASB ASC Topic 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of September 30, 2015 and 2014.

Pooled separate accounts: Valued at estimated fair value determined by the issuer of the pooled separate account based on the fair market value of the underlying investments

Common/collective trust fund: Valued at estimated fair value as determined by the issuer of the common/collective trust fund based on the fair market value of the underlying investments.

Money market fund: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

(4) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2015.

	Investments at Fair Value as of September 30, 2015			
	Level 1	Level 2	Level 3	Total
Money market account	$ -	$ 2,841	$ -	$ 2,841
Pooled separate accounts	-	10,546,289	-	10,546,289
Total assets in the fair value hierarchy	$ -	$ 10,549,130	$ -	10,549,130
Investments measured at NAV [(a)]				1,577,431
Total investments				$ 12,126,561

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2014

	Investments at Fair Value as of September 30, 2014			
	Level 1	Level 2	Level 3	Total
Money market account	$ -	$ 6,853	$ -	$ 6,853
Pooled separate accounts	-	10,360,019	-	10,360,019
Total assets in the fair value hierarchy	$ -	$ 10,366,872	$ -	10,366,872
Investments measured at NAV [(a)]				1,748,666
Total investments				$ 12,115,538

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits

(5) **Stable value fund**

The Plan invests in a stable value fund, which, in turn, has investments in fully benefit-responsive investment contracts.

The stable value fund is included on the face of the statements of net assets available for benefits at contract value (which approximated fair value) as reported to the Plan by Great West Life & Annuity Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contracts do not permit the termination of agreements prior to the scheduled maturity dates.

Crediting interest rates are not guaranteed. The average yields for the fund as of September 30, 2015 and 2014, are as follows:

	September 30,	
	2015	2014
Guaranteed Portfolio Fund		
Average yield based on actual earnings	1.20%	1.28%
Average yield based on interest rate credited to participants	1.20%	1.28%

(6) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) **Tax status**

The Internal Revenue Service has determined and informed the Company by a letter dated July 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to September 30, 2012.

(8) **Risk and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits

(9) **Related-party transactions and party-in-interest transactions**

Certain Plan investments are shares of funds managed by Great West Life & Annuity Insurance Company. Great West Life & Annuity Insurance Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid from the Plan to the custodian of the Plan for the years ended September 30, 2015 and 2014, were $14,456 and $11,147, respectively.

(10) **Excess contributions payable**
