1. DESCRIPTION OF PLAN:

The following description of the Zoological Society of Cincinnati 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 2007 covering full-time employees of the Zoological Society of Cincinnati ("the Society" or "Employer"), who are age twenty-one or older, have one year of service and are not members of a collective bargaining unit. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions on a before-tax basis each plan year subject to limitations determined by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Society makes a 3% safe harbor non-elective contribution for all eligible employees. The Society may also make discretionary matching contributions of a percent, if any, to be determined annually based on a percentage of the participant's deferral contributions. The Society limits the matching contributions to 4% (including the 3% safe harbor non-elective amount mentioned above) of the eligible compensation contributed to the Plan.

Additionally, participants of the Plan who were employed by the Society on the last day of the Plan year may also be allocated an additional discretionary non-elective contribution as determined and approved by the Society's Board of Directors. Additional discretionary non-elective contributions totaled $63,926 for the year ended December 31, 2015.

Participant accounts

Each participant's account is credited with the participant's elective contributions and the Society's related 3% safe harbor non-elective contribution, an allocation of the Society's discretionary matching contribution (if any), an allocation of the Society's discretionary non-elective contribution (if any), and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, qualified non-elective contributions, and safe harbor non-elective employer contributions plus actual earnings thereon. A participant's vested interest in discretionary matching contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited accounts
At December 31, 2015 and 2014, forfeited nonvested accounts totaled $198 and $9,821, respectively. These accounts will be used to reduce future employer contributions. During 2015, employer contributions were reduced by $17,047 from forfeited nonvested accounts.

Payment of benefits
Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Society or termination of the Plan, the participant's account is distributed in one lump sum.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the IRC.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis on a specific item basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Society and are excluded from these financial statements. Investment related expenses are included in net depreciation in fair value of investments. Other administrative and transaction fees that are paid by the Plan are included in administrative and investment fees on the statement of changes in net assets available for benefits.

Accounting change
Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events
The Plan has evaluated subsequent events through August 4, 2016, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Money market and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014.

	Investments at fair value measurements as of December 31, 2015			
	Fair Value	Level 1	Level 2	Level 3

Total investments at fair value	$ 7,347,531	7,347,531	-	-

	Investments at fair value measurements as of December 31, 2014			
	Fair Value	Level 1	Level 2	Level 3
Money market & mutual funds	$ 6,976,430	6,976,430	-	-
Total investments at fair value	$ 6,976,430	6,976,430	-	-

4. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

5. TAX STATUS:

The Plan adopted a volume submitter plan designed by Fidelity Management Trust Company. The volume submitter plan has received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014 stating that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC and, therefore, the Plan is exempt from taxation. The Plan was amended and restated effective July 16, 2015 to bring the Plan into compliance with legislative and regulatory changes. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and was tax exempt as of the financial statement date.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are investments in mutual funds and a money market fund managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. In 2015, $1,312 was directly charged to the Plan by Fidelity for administrative expenses.

Several employees of the Society provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Society for the services of these employees to the Plan.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Society has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100 percent vested in his or her account.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation between amounts reflected in the financial statements and those shown on the Form 5500.
