Report of Independent Auditors

To the Plan Administrator of the
Technip Umbilicals, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Technip Umbilicals, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company ("Fidelity" or the "trustee") the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Fidelity as of December 31, 2015 and 2014 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The Plan has elected to early adopt the provisions of Accounting Standards Update (ASU) 2015-07 and 2015-12 in its 2015 financial statements with retroactive effect to the beginning of 2014, as described in the last paragraph of Note 2 to the financial statements. Adoption of these standards did not change the reported amounts of net assets available for Plan benefits.

We were engaged for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule of Assets Held at Year End as of December 31, 2015, which is the responsibility of Plan management, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule.

1. Description of Plan

General

The following description of the Technip Umbilicals, Inc. 401(k) Plan, formerly known as the DUCO, Inc. 401(k) Plan (the “Plan”), is provided for general information only. The Plan is a defined contribution plan covering substantially all of the employees of Technip Umbilicals, Inc. (the “Company”) over the age of 18, except for leased employees, legal benefits only employees and certain nonresident aliens, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Employees become eligible to participate after completing 3 months of service.

Participants should refer to the *Summary Plan Description* for more complete information regarding the Plan’s provisions, a copy of which is available from the Company.

Administration

Technip Umbilicals, Inc. serves as the Plan administrator and appoints a group of four employees to serve as the Plan Administrative Committee. The Administrative Committee is given all powers necessary to enable it to carry out its duties including, but not limited to, the power to interpret the Plan, decide on all questions of eligibility and the status and rights of participants, and to direct disbursements of benefits in accordance with the provisions of the Plan.

A trust has been established to hold and invest the contributions made by participants and the Company under the Plan. The trust is also used to accumulate the related earnings on those contributions and to pay related Plan benefits. Fidelity Management Trust Company (the “Trustee”) manages the trust and Fidelity Workplace Services, LLC performs record keeping services within the trust for the related accounts of individual participants.

Contributions

Participants in the Plan may contribute up to 60% of pretax annual compensation, subject to Internal Revenue Service (“IRS”) limitations. The Internal Revenue Code limits an employee’s contribution for 2015 to a maximum of \$18,000 if under the age of 50 and up to a maximum of \$24,000 otherwise. Effective April 1, 2008, newly eligible participants in the Plan are automatically enrolled to make contributions into the Plan at 3% of their compensation, to increase at 1% increments annually thereafter, unless the participant elects to contribute at another or zero contribution level. Participants may change their contribution levels quarterly. The Company made a safe harbor matching contribution in an amount equal to 100% of the participant’s pre-tax contributions up to 6% of compensation each pay period in 2015. Contributions are funded into the trust shortly after each pay period.

Participants may elect to have their contributions and the Company matching contributions allocated to one or more funds offered by the Plan. Allocations among the funds may be changed daily at the participant’s discretion.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants receiving safe harbor matching contributions are fully vested in those contributions immediately.

Forfeitures

Forfeitures of an unvested participant's interest in employer contributions arise when a participant incurs a break-in-service as defined in the Plan agreement. Forfeitures may be used to reduce employer contributions. At December 31, 2015 the balance of unapplied forfeitures was approximately \$8,900.

Benefit Payments

The Plan provides benefits for eligible participants upon retirement, death, termination, permanent disability, or in specified hardship circumstances, according to the form of payment elected by the participant within the limitations defined in the Plan. Distributions shall be made in the form of cash or a series of systematic installment payments.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000, up to the lesser of \$50,000 less the participants' highest outstanding loan balance during the 12 months preceding or 50% of their vested account balance. Loan terms range from one to five years, or up to 10 years for the purchase of a principal residence, and only one loan will be approved in any 12-month period. The loans are secured by the balances in the participants' accounts and bear interest at a reasonable rate as determined by the plan administrator. At December 31, 2015 the interest rates for participant loans ranged from 4.25% to 8.25% with maturities through 2020. Principal and interest are paid ratably through payroll deductions. Loans not repaid on a timely basis at termination of employment with the Company may be treated as a deemed distribution to the participant.

Administrative Expenses

Certain administrative expenses are paid by the Company. Plan expenses reflected in these financial statements consist primarily of loan origination and maintenance fees, withdrawal related processing fees, and delivery fees, and are charged directly to the account of the participant initiating the transaction.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, the participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan Administrators have reviewed and evaluated events subsequent to December 31, 2015 through August 28, 2016, the date the financial statements were available to be issued, for their impact on amounts recorded and related disclosures, in these financial statements, and incorporated the related effects as appropriate.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, which represents the expected exit price realized in a transaction between a willing buyer and seller. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation or depreciation in the fair value of the investments, which consists of the realized gains or losses and the net unrealized appreciation or depreciation of the investments held. Investment advisory fees are incurred by plan participants indirectly as such fees serve to reduce the carrying value of investments (and therefore are a component of net appreciation in the fair value of investments).

Technip Umbilicals, Inc. 401 (k) Plan
Notes to Financial Statements
December 31, 2015

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest and are excluded from investments as proscribed by Accounting Standards Update 2010-25. Delinquent loans are treated as distributions based on the terms of the plan document. Interest income is recognized as earned under the accrual method.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Recent Accounting Pronouncements

In 2015 the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) 2015-07 “Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)” and 2015-12 “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965)” to simplify reporting for the financial statements of employee benefit plans. These ASUs eliminate or reduce the scope of several financial statement disclosures required in financial statements and becomes effective for plan years beginning after December 15, 2015, with earlier application permitted. Among the simplifications included in the ASUs are the elimination of fair value presentation of fully benefit-responsive investment contracts (using only contract value in the financial statements), elimination of separate disclosure of investments exceeding 5% of the net assets available for benefits, elimination of the disaggregation of investments by nature, characteristics and risk, with presentation of fair value to be made only by investment type (such as mutual funds) and exclusion of assets whose fair value has been determined using net asset value as a practical expedient from classification in the fair value hierarchy presentation (Note 4). In order to simplify financial reporting, the Plan has elected to early adopt these ASUs in its 2015 financial statements, with retroactive effect to 2014. Adoption of these pronouncements did not affect the reported total of net assets available for plan benefits.

3. Data Certified by the Trustee (unaudited)

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2015 and 2014 (excluding participant loans), and net appreciation in fair value of investments, and interest and dividend income for the year ended December 31, 2015 (excluding participant loan interest income of \$19,947), was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such amounts to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include:
---------	--

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

Technip Umbilicals, Inc. 401 (k) Plan
Notes to Financial Statements
December 31, 2015

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan as evidenced by quoted prices on national exchanges.

Common collective trusts: Valued using NAV (determined by the trust manager as the contract value of \$1.00 per share, the price at which shares are purchased and sold) as the practical expedient for fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014: (amounts presented for 2014 have been conformed to the presentation used for 2015 information):

Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Total
Mutual funds	\$9,063,752	\$ -	\$9,063,752
Total assets in fair value hierarchy	\$9,063,752	\$ -	9,063,752
Investments measured at NAV – common collective trust funds (a)			679,296
Total assets at fair value			\$9,743,048

Technip Umbilicals, Inc. 401 (k) Plan
Notes to Financial Statements

Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Total
Mutual funds	\$8,104,774	\$ -	\$8,104,774
Total assets in fair value hierarchy	\$8,104,774	\$ -	\$8,104,774
Investments measured at NAV – common collective trust funds (a)			748,553
Total assets at fair value			\$8,863,327

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

There were no Level 3 assets held by the Plan during 2015 and 2014. There were no changes in classifications between levels in 2015 and 2014.

The Plan's investment in the Fidelity Managed Income Portfolio II (a common collective trust fund) is a fully benefit responsive investment contract. The fund's investment objective is to seek preservation of capital, and to provide a competitive level of income over time consistent with the preservation of capital objective. This fund invests in a variety of fixed income securities including conventional and synthetic investment contracts issued by insurance companies and other financial institutions, debt obligations issued or guaranteed by the US government and its affiliates, obligations issued by other local and international governmental units, asset-backed or collateralized securities, bonds or notes payable, derivatives, cash or short-term obligations or fixed income investment vehicles. Contract rates for the fund are generally set monthly by the fund manager, generally at the discount rate that would equate the estimated future market value of the fund's portfolio to the contract value. The crediting interest rate paid by the fund and the fair value for the fund will be impacted by many factors, including market interest rates, creditworthiness of contract issuers and fund purchases and redemptions by unit holders in the Portfolio. Certain actions taken by the Plan Sponsor, such as offering directly competing similar investments, failing to continue the operation of the Plan under existing regulations, or other actions including, but not limited to, the sale of a division, corporate layoffs, or early retirement programs that would have a material adverse effect on the portfolio's cash flow could limit the ability of participants to make withdrawals at contract value for up to twelve months. The Plan has no current intentions to take actions that would limit the ability of participants to transact at contract value. The ability to transact at contract value is in part attributable to the fund manager having purchased a wrap contract for the portfolio, which provides a level of insurance that would cover the difference between fair market value and contract value. The issuer of wrap contracts may cancel the contracts with some limitations. There are a limited number of entities that provide wrap contracts and their viability could have an impact on this investment and similar investments in the future. The Plan and its participants have no unfunded commitments to further contribute to this fund.

All plan net appreciation in fair value reported in the financial statements relate to mutual fund investments.

5. Income Tax Status

Effective January 2, 2015, the Plan adopted Fidelity Basic Plan Document No. 17, a Volume Submitter Defined Contribution Plan agreement, as the Plan agreement governing the operation of the Plan. This basic plan document received a determination letter from the IRS dated March 31, 2014 stating that the form of the Plan is qualified under Section 401(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status. The Plan Administrator believes that the Plan and related trust has been designed and operated in accordance with applicable regulatory requirements to maintain the qualified status of the trust and the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Parties-in-Interest

The trustee (and its affiliates), participants in the Plan and the Company are parties-in interest as defined in Section 406 of ERISA. Certain Plan investments are in shares of mutual funds and collective trust funds managed by affiliates of the trustee. During the period of time that the trustee has served the Plan, transactions with them qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Loans to participants are party-in-interest transactions exempt from the ERISA prohibition of party-in-interest transactions.

The Company provides certain administrative services for and to the Plan with no reimbursement.
