PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

General

Unverferth Manufacturing Co., Inc. (the Company) Profit Sharing Plan (the Plan) covers substantially all employees of the Company and provides for retirement, death and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In order for an employee to be eligible to receive a contribution from the Company, they must first complete one year of service (1,000 hours) for the Company and be 18 years of age or older. Enrollment dates for the Company contribution are the first day of the Plan year and six months later. Contributions to the Plan made by the Company (if any) are discretionary in nature. Contributions are allocated to employees based upon compensation as defined by the Plan.

The Company allows participants to make pretax or Roth contributions in an amount up to 90% of their compensation not to exceed annual limitations after completion of one month of service and reaching 18 years of age. The Company also allows participants to rollover amounts representing distributions from other qualified defined benefit or contribution plans immediately upon hire. The Plan includes an auto-enrollment provision whereby all eligible nonparticipating employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5 percent of eligible compensation and their contributions are invested in a designated default fund until changed by the participant. The Plan also participates in an auto-increase program, whereby annual increases in 1 percent increments occur until a cap of a 10 percent deferral rate is reached.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) the allocations of the Company's discretionary contribution, (c) the Plan's earnings, and (d) is charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Vesting

Salary deferrals and rollover contributions are fully vested. Participants who receive employer contributions are not fully vested in those contributions until 5 years of service are completed. The schedule is as follows:

Years of Service	Vesting Percentage
less than 2	0%
2	25%
3	50%
4	75%
5	100%

Payment of Benefits

Benefits are payable to plan participants in the event of death, retirement or disability. If an employee is terminated prior to one of these events, the unpaid vested benefit is segregated into a specific account.

Participants may elect to receive plan benefits in the form of a single lump-sum cash payment or may elect installment distributions.

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

Forfeitures of terminated participants' nonvested accounts are either used to pay Plan expenses or allocated to remaining participant accounts based on participant compensation as defined by the Plan. As of December 31, 2015 and 2014, the unallocated forfeiture balance in the Plan was \$171,983 and \$111,813, respectively. The amount of forfeitures used to pay Plan expenses in 2015 and 2014 were \$52,206 and \$0, respectively. The amount of forfeitures allocated to employees in 2015 and 2014 were \$72,000 and \$120,640, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits is prepared on a contract value basis for fully benefit responsive investment contracts.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

During 2014, certain plan administrative costs (including audit fees) were paid by the Company and were excluded from these financial statements. Beginning in 2015, all plan administrative costs were paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

Subsequent events have been evaluated through August 30, 2016, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position.

**UNVERFERTH MANUFACTURING CO., INC.
PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosure, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, with Part III to be applied prospectively. Part III is not applicable to the Plan. There is no anticipated effect on the value of the net assets available for benefits, as the main changes resulting from implementation of the ASU centers around certain disclosures in the notes to the financial statements. The adoption of ASU 2015-12 is expected to be adopted for the plan year beginning January 1, 2016 (and will be applied retrospectively as required).

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Interest and dividend income
- Net appreciation (depreciation) of investments
- The schedule of assets held for investment purposes

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing the information provided by the custodian to the related information included in the financial statements and supplemental schedule.

NOTE 4: INVESTMENTS

The Plan's investments that represent five percent or more of Plan net assets available for benefits as of December 31, 2015 and 2014 are as follows:

	<u>2015</u>	<u>2014</u>
Investments at fair value:		
Fidelity Advisor New Insights Fund	\$ 14,937,879	\$ 15,064,743
JPMorgan Small Cap Equity Fund	9,861,896	10,151,630
Principal Midcap Fund	9,171,694	9,097,977
JPMorgan Core Bond Fund	7,851,332	7,160,970
MFS Value Fund	7,417,777	0*

BlackRock Equity Dividend Institutional	0*	7,880,075
JPMorgan Mid Cap Value Fund Institutional	5,397,797*	5,727,988

* Included for comparative purposes. Value does not represent five percent or more of the Plan net assets available for benefits for the applicable year.

During 2015 and 2014, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by (\$4,692,078) and \$2,591,057 as follows:

Common collective trust	\$ 68,195	\$ 60,610
Mutual Funds	(4,760,273)	2,530,447
	<u>(\$ 4,692,078)</u>	<u>\$ 2,591,057</u>

NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Common collective trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting dated.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

- (a) Common Collective Trust includes a stable value collective fund. The fund seeks stable returns comparable to those of short-term fixed income securities by investing in a combination of synthetic contracts, traditional insurance, and bank contracts. The average maturity range of the trust is 2-4 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generated income without the price volatility associated with traditional short-term credit instruments. The trust maintains a strict credit policy, investing with issuers rated AA- and higher, and investing in funds that are rated investment grade or higher.

NOTES TO FINANCIAL STATEMENTS

NOTE 6: RELATED PARTY OF PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. At December 31, 2015 and 2014, the Plan invested in mutual funds managed by Fidelity Management Trust Company, the custodian of the Plan, and as such, these investments qualify as party-in-interest investments. During 2015 and 2014, the Plan also paid administrative fees to Fidelity.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 8: TAX STATUS

Effective January 4, 2010, the Plan adopted a volume submitter plan sponsored by Fidelity Management Trust Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9: RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and all the amounts reported in the statement of net assets available for plan benefits.

PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

General

Unverferth Manufacturing Co., Inc. (the Company) Profit Sharing Plan (the Plan) covers substantially all employees of the Company and provides for retirement, death and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In order for an employee to be eligible to receive a contribution from the Company, they must first complete one year of service (1,000 hours) for the Company and be 18 years of age or older. Enrollment dates for the Company contribution are the first day of the Plan year and six months later. Contributions to the Plan made by the Company (if any) are discretionary in nature. Contributions are allocated to employees based upon compensation as defined by the Plan.

The Company allows participants to make pretax or Roth contributions in an amount up to 90% of their compensation not to exceed annual limitations after completion of one month of service and reaching 18 years of age. The Company also allows participants to rollover amounts representing distributions from other qualified defined benefit or contribution plans immediately upon hire. The Plan includes an auto-enrollment provision whereby all eligible nonparticipating employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5 percent of eligible compensation and their contributions are invested in a designated default fund until changed by the participant. The Plan also participates in an auto-increase program, whereby annual increases in 1 percent increments occur until a cap of a 10 percent deferral rate is reached.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) the allocations of the Company's discretionary contribution, (c) the Plan's earnings, and (d) is charged with an allocation of administrative expenses. Allocations are based on compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Vesting

Salary deferrals and rollover contributions are fully vested. Participants who receive employer contributions are not fully vested in those contributions until 5 years of service are completed. The schedule is as follows:

Years of Service	Vesting Percentage
less than 2	0%
2	25%
3	50%
4	75%
5	100%

Payment of Benefits

Benefits are payable to plan participants in the event of death, retirement or disability. If an employee is terminated prior to one of these events, the unpaid vested benefit is segregated into a specific account.

Participants may elect to receive plan benefits in the form of a single lump-sum cash payment or may elect installment distributions.

PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

Forfeitures of terminated participants' nonvested accounts are either used to pay Plan expenses or allocated to remaining participant accounts based on participant compensation as defined by the Plan. As of December 31, 2015 and 2014, the unallocated forfeiture balance in the Plan was \$171,983 and \$111,813, respectively. The amount of forfeitures used to pay Plan expenses in 2015 and 2014 were \$52,206 and \$0, respectively. The amount of forfeitures allocated to employees in 2015 and 2014 were \$72,000 and \$120,640, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits is prepared on a contract value basis for fully benefit responsive investment contracts.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

During 2014, certain plan administrative costs (including audit fees) were paid by the Company and were excluded from these financial statements. Beginning in 2015, all plan administrative costs were paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

Subsequent events have been evaluated through August 30, 2016, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position.

**UNVERFERTH MANUFACTURING CO., INC.
PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosure, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, with Part III to be applied prospectively. Part III is not applicable to the Plan. There is no anticipated effect on the value of the net assets available for benefits, as the main changes resulting from implementation of the ASU centers around certain disclosures in the notes to the financial statements. The adoption of ASU 2015-12 is expected to be adopted for the plan year beginning January 1, 2016 (and will be applied retrospectively as required).

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments
- Interest and dividend income
- Net appreciation (depreciation) of investments
- The schedule of assets held for investment purposes

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing the information provided by the custodian to the related information included in the financial statements and supplemental schedule.

NOTE 4: INVESTMENTS

The Plan's investments that represent five percent or more of Plan net assets available for benefits as of December 31, 2015 and 2014 are as follows:

	<u>2015</u>	<u>2014</u>
Investments at fair value:		
Fidelity Advisor New Insights Fund	\$ 14,937,879	\$ 15,064,743
JPMorgan Small Cap Equity Fund	9,861,896	10,151,630

BlackRock Equity Dividend Institutional	0*	7,880,075
JPMorgan Mid Cap Value Fund Institutional	5,397,797*	5,727,988

* Included for comparative purposes. Value does not represent five percent or more of the Plan net assets available for benefits for the applicable year.

During 2015 and 2014, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by (\$4,692,078) and \$2,591,057 as follows:

Common collective trust	\$ 68,195	\$ 60,610
Mutual Funds	(4,760,273)	2,530,447
	<u>(\$ 4,692,078)</u>	<u>\$ 2,591,057</u>

NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**UNVERFERTH MANUFACTURING CO., INC.
PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Common collective trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting dated.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

- (a) Common Collective Trust includes a stable value collective fund. The fund seeks stable returns comparable to those of short-term fixed income securities by investing in a combination of synthetic contracts, traditional insurance, and bank contracts. The average maturity range of the trust is 2-4 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generated income without the price volatility associated with traditional short-term credit instruments. The trust maintains a strict credit policy, investing with issuers rated AA- and higher, and investing in funds that are rated investment grade or higher.

NOTES TO FINANCIAL STATEMENTS

NOTE 6: RELATED PARTY OF PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. At December 31, 2015 and 2014, the Plan invested in mutual funds managed by Fidelity Management Trust Company, the custodian of the Plan, and as such, these investments qualify as party-in-interest investments. During 2015 and 2014, the Plan also paid administrative fees to Fidelity.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 8: TAX STATUS

Effective January 4, 2010, the Plan adopted a volume submitter plan sponsored by Fidelity Management Trust Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9: RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and all the amounts reported in the statement of net assets available for plan benefits.
