Report on the Financial Statements

We have audited the accompanying financial statements of the Pan-Pacific Holdings Corporation Employee Stock Ownership Plan, which comprise the statement of net assets (deficit) available for benefits as of December 31, 2015, the related statement of changes in net assets (deficit) available for benefits for the period September 1, 2015 (date of inception) to December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to on the previous page, present fairly, in all material respects, the net assets (deficit) available for benefits of the Pan-Pacific Holdings Corporation Employee Stock Ownership Plan as of December 31, 2015, and the changes in net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Such information is the responsibility of the Plan's management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 – Plan Description and Basis of Presentation

The following brief description of the Pan-Pacific Holdings Corporation Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Pan-Pacific Holdings Corporation (Company) established the Plan effective as of September 1, 2015. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of ERISA. The Plan is administered by an ESOP committee whose members are appointed by the Company's Board of Directors. An independent third-party is the Plan's Trustee.

On December 29, 2015, the Plan purchased 1,250,000 shares of Company common stock for $110,000,000 using the proceeds of a borrowing issued by the Company (see Note 5) and holds the common stock in a trust established under the Plan. The stock was purchased at a price of $88 per share. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock of the Company. The Company as the lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2015, and for the period ended December 31, 2015, present separately the assets and liabilities and changes therein pertaining to:

a) The accounts of employees with vested rights in allocated common stock (allocated), and
b) Common stock not yet allocated to employees (unallocated).

As further discussed in Note 5, the Plan had a contribution receivable of $963,449 at December 31, 2015. In the period in which the contribution is paid and the Plan utilizes the funds for debt service, an appropriate number of shares will be released and allocated for financial reporting purposes.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after three months of service providing they have attained the age of 21 years and worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not actively employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional contributions may be made at the Company's discretion. Employee contributions are not permitted.

Note 1 – Plan Description and Basis of Presentation (Continued)

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump-sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in the form of cash.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publically traded or if the shares are subject to trading limitations.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company, for the period ended December 31, 2015, paid the administrative expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required; however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based in the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Vesting begins at 20 percent after two years of service with participants becoming fully vested after six years of service.

Note 1 – Plan Description and Basis of Presentation (Continued)

Put Option

Under federal income tax regulations, the employer common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the participant is able to direct the investment of 50 percent of their account balance. Participants who elect to diversify receive a cash distribution.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were no forfeitures during the period ended December 31, 2015.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (*a*) the accounts of employees with rights in allocated stock ("allocated") and (*b*) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through August 26, 2016, the date the financial statements were available to be issued.

Recently Adopted Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities That Calculate Net Asset Value by Share (or Its Equivalent). This ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are measured at net asset value using the practical expedient. The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. For all other entities, the ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Plan management has adopted this guidance which did not have a material impact on the Plan's financial statements.

In July 2015, FASB issued Accounting Standards Update No. 2015-12, Plan Accounting Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measure Date Practical Expedient. This ASU simplifies several aspects of plan accounting. The ASU is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. Plan management has adopted Parts (I) and (II) which did not have a material impact on the Plan's financial statements. Part (III) is not applicable to this Plan.

Note 3 – Investments

The Plan's investments at December 31, 2015 are presented in the following table:

	Unallocated
Pan-Pacific Holdings Corporation common stock:	
Number of shares	1,250,000
Cost	$ 110,000,000
Fair value	$ 2,562,500

The fair value per share of Company common stock as of December 31, 2015 was $2.05.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 3
Investment in Pan-Pacific Holdings Corporation common stock	$ 2,562,500

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended December 31, 2015:

	Employer Stock
Balance at beginning of year	$ 0
Unrealized losses relating to assets still held at the reporting date	(107,437,500)
Purchases	110,000,000
Balance at end of year	$ 2,562,500
The amount of total losses for the period attributable to the change in unrealized losses relating to assets still held at the reporting date	$ (107,437,500)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in assets (deficit) available for benefits.

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2015.

The Company common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that market participants would also recognize a discount for lack of marketability.

Note 4 – Fair Value Measurements (Continued)

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Pan-Pacific Holdings Corporation common stock	$ 2,562,500	Income	EBITDA Net Income Discount rate Discount for lack of marketability Tax Shield
		Market	Public comparables EBITDA multiple Discount for lack of marketability

The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the historical and projected financial information of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses, and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Note and Principal Payable

On December 29, 2015, the Company's owners sold 1,250,000 shares of stock to the Plan for $110,000,000 ($88.00 per share) under an ESOP Stock Purchase Agreement. Upon this transaction, the Plan entered into a $110,000,000 note with the Company.

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. The Plan had a contribution receivable from the Company at December 31, 2015 of $963,449 and an additional principal payable related to allocated shares of $963,449. The Plan realized a share release related to this payable; however, for financial reporting purposes, the Plan does not release any shares until the debt service is actually paid. Therefore, the accompanying financial statements disclose all shares as unallocated shares. Subsequent to year-end, the Plan received the contribution of $963,449 and paid the principal payable to the Company. The 2016 financial statements will disclose the shares related to this payment as allocated.

Note 5 – Note and Principal Payable (Continued)

The note agreement provides for the loan to be repaid over 50 years, with payments being due on December 31 of each year. The Company made a prepayment on the note of $963,449 at December 31, 2015, which is recorded as a contribution receivable on the accompanying financial statements. The fair value of the note payable as of December 31, 2015 was approximately $109,000,000, as determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The scheduled amortization of the loan for the next five years is as follows; 2016 $874,328; 2017 $904,930; 2018 $936,602; 2019 $969,383; 2020 $1,003,312; and thereafter $104,347,996.

Note 6 – Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invest cash received, interest, and dividend income (if any) and make distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 7 – Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness with the Company. These are related party and party-in-interest transactions. The Company also pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 8 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets (deficit) available for benefits.

Note 9 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Trustee will pay all liabilities and expenses of the trust fund and sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Note 10 – Tax Status

The Plan has not yet received a determination letter from the Internal Revenue Service (IRS), stating that the Plan is qualified, under the IRC, or that the related trust is exempt from taxation. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
