Accutech Films, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 1 – Description of the Plan

The following description of the Accutech Films, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a 401(k) defined contribution plan covering substantially all employees of Accutech Films, Inc. (the “Company”), who are at least nineteen years of age and have completed one year of eligible service which is defined as 1,000 hours of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended January 1, 2010 to include an option for Roth deferrals. Additionally, the Plan was amended July 1, 2010, to include the years of service for employees from other Clondalkin companies to be used in determining eligibility and vesting in the Plan. The Plan was again amended on May 1, 2012, to change the trustee to State Street Bank and Trust Company as directed by the record keeper. Effective January 1, 2014 the Plan was merged into the HLX PLY Holdings, Inc. 401(k) Plan and will be subject to the specifications of that Plan.

Contributions – Each year, participants may contribute a portion of their gross pay to the Plan. The amount contributed is tax deferred in accordance with Section 401(k) of the Internal Revenue Code (IRC) with the maximum amount a participant can contribution and defer being limited to certain limits as established by tax laws. The Plan allows individuals who will be at least age 50 by the end of the Plan year to make an additional catch-up contribution, which is limited to \$5,500 annually for the years ended December 31, 2013 and 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or compensation plans (rollovers).

The Company matches 100% of the first 2% of participant's elective deferral. The Plan also provides for Company profit sharing contributions. Profit sharing contributions are made solely at the discretion of the Company. Allocations of discretionary contributions are based on the ratio of a participant's compensation to the total compensation of all participants. The Company did not make profit sharing contributions for the years ended December 31, 2013 and 2012.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's discretionary profit sharing contribution, if any, and Plan earnings and investment gains or losses. Participants are charged with certain transaction fees as they related to their specific accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus all actual earnings thereon. Vesting in the Company's contributions and any actual earnings thereon is determined using a progressive schedule based on years of service. The schedule of vesting begins with 2 years of service resulting in 20% vesting, and progress as follows: three years 40%, 4 years 60% 5 years 80% and culminates with six years of vesting to 100%.

As of and for the Years Ended December 31, 2013 and 2012

Note 1 - Description of the Plan (continued)

Notwithstanding the foregoing, if a participant dies or becomes permanently disabled while still employed with the Company, he or she immediately becomes 100% vested even if he or she otherwise would have a vested interest of less than 100%.

Investment options – Participants may direct contributions, in 1% increments, to selected investments as made available and determined by the Plan Administrator. Participants may change their selected investment options at any time throughout the year via direct phone or Internet access.

Forfeitures – Nonvested portions of terminated participant's balances are used to reduce the Company's matching contribution. During 2013 and 2012, \$8,686 and \$2,996 of forfeitures were used to reduce the Company's matching contribution, respectively.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Payment terms generally range from one to five years. The Plan Administrator may permit a longer term for the purchase of a primary residence. The loans are secured by the vest balance of the participant's account and bear interest at prime plus 1% at the time of the loan. Interest rates for all loans outstanding as of December 31, 2013 were 4.25% - 8.50%. Principal and interest are paid through payroll deductions. As of December 31, 2013, there were \$17,183 of notes receivable from participants that were in default that had an account balance in the Plan. All of the balance in the balance in default is included in the allowance for doubtful accounts, which is net against the notes from participants.

Payment of Benefits – Upon termination, retirement, death, disability, or dissolution of the Plan, the participant may received a lump-sum distribution equal to the value of his or her account, installment payments, or partial withdrawals. The Plan permits certain in-service withdrawals upon a participant reaching age 59-1/2. For participants who are terminated and their account balance is \$5,000 or less, a lump-sum payment will be made to them as soon as administratively feasible following the employment termination date.

Participants still employed may withdraw all or part of their vested account, excluding employer matching and profit sharing contributions and earnings thereon, upon furnishing proof of specific financial hardship or attainment of 59-1/2 years of age.

Expenses of the Plan – Substantially all expenses are incurred in the administration of the Plan are paid by the Company. Some administrative expenses are paid by the Plan. Loan origination fees are charged to the borrower/participant.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on an accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP) investment in fully benefit-responsive investment contracts are required to be presented at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan.

The Plan invests in investment contracts through a common collective trust. As required by the FSP, the accompanying Statement of Net Assets Available for Benefits present the fair value of the investments in the common/collective trust as well as the adjustment to contract value relating to the investment contracts. The accompanying Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect reported amounts of net assets available for benefits and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value based on quoted market prices, if available. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Other investments in common collective trust are stated at redemption value as determined by the Trustee, which reflects the fair value of the investments comprising the common collective trust. Participant loans receivable are valued at outstanding cost plus accrued interest, which approximate fair value.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As of and for the Years Ended December 31, 2013 and 2012

Note 2 – Summary of Significant Accounting Policies (continued)

Payments of Benefits – Benefits are recorded when paid.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan be terminated at some future time, participants will become 100% vested in their accounts and the net assets available for Plan benefits at the termination date would be distributed to participants based on amounts that have been allocated to their respective accounts. Effective January 1, 2014 the Plan was merged into the HLX PLY Holdings, Inc. 401 (k) Plan.

Note 4 – Investments

The Plan's investments are held and managed by the Plan's custodian and trustee. Investments that represent 5% or more of the Plan's net assets are separately identified.

Note 5 – Fair Value Measurements

FASB ASC- 820, *Fair Value Measurements & Disclosures*, establishes a framework for measuring fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs consist of unobservable inputs and have the lowest priority.

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy was established to distinguish between those inputs that are observable and unobservable. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset is defined as a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the asset as of the reporting date. These inputs are derived principally from, or corroborated by, observable market data.

Level 3 – Unobservable inputs that are supported by little, if any, market activity and are significant to the fair value of the asset as of the measurement date.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012:

Common collective trusts – Valued at the net asset value (NAV) of the units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Registered investment companies – Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
	2013	2012	2013	2012	2013	2012
Common collective trusts	\$ -	\$ -	\$ -	\$ 33,310	\$ -	\$ -
Registered investment companies:						
Large cap	-	650,970	-	-	-	-
Mid cap	1,944	593,931	-	-	-	-

Total	<u>\$ 1,944</u>	<u>\$ 1,345,455</u>	<u>\$ -</u>	<u>\$ 33,310</u>	<u>\$ -</u>	<u>\$ -</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 and 2012 are reported in net appreciation in fair value of investments.

Note 6 – Income Tax Status

Effective 2010, the Plan adopted a prototype plan under the Automatic Data Processing Flexible Defined Contribution Prototype Plan and Trust, which received a favorable opinion letter from the Internal Revenue Service that stated that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan was last amended May 1, 2012. The Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC, and therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

GAAP require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Note 7 – Related Party Transactions

The Company, as Plan sponsor, paid certain plan administrative expenses for the years ended December 31, 2013 and 2012 including accounting and audit fees and certain other administrative expenditures. Total fees paid by the Plan sponsor during 2013 and 2012 were approximately \$12,000.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statements of changes in net assets available for plan benefits.
