Effective December 31, 2007, the Company merged the Visual Systems, Inc. Profit Sharing & 401(k) Plan into the Plan, with each person who was eligible to participate shall become eligible on January 1, 2008.

Effective June 26, 2013, the Plan was amended to clarify the definition of spouse.

Effective January 1, 2014, the Plan was amended to clarify that an affected employee may, in the event of a transaction, elect to rollover, in accordance with terms agreed to by Visant Corporation or one of its subsidiaries and the Purchaser, the portion of his or her account which constitutes a Plan loan into a Purchaser’s qualified plan.

Effective November 2, 2015, Visant Holding Corp., the parent company of Jostens, Inc. and other entities comprising the Jostens business was acquired by Jarden Corporation.

Effective December 31, 2015, all remaining inactive participants in the Visant 401(k) Retirement Savings Plan were merged with the Jostens 401(k) Retirement Plan. As of January 1, 2015 all Visant 401(k) Retirement Savings Plan participants were inactive.

General and Eligibility

The Plan was a defined contribution plan. Employees of Jostens, Inc. who were covered by the GCIU Local 49-C collective bargaining agreement (“Topeka Union”) were eligible to participate in the Plan on their date of hire. All other employees were eligible to participate in the Plan after 90 days of employment.

Effective January 1, 2007, the Plan was amended to provide that employees eligible for Plan participation include non-union hourly employees of The Lehigh Press, Inc. (“Lehigh”) hired on or after January 1, 2007 and salaried employees and office administrative employees of Lehigh.

NOTE A – PLAN DESCRIPTION – Continued

Effective February 1, 2007, the Plan was amended to reflect that eligibility was provided to individuals represented by GCC/IBT Local 14-M (those not covered by a defined benefit plan).

Effective October 1, 2007, the Plan was amended to reflect participation for certain individuals employed by Memory Book Acquisition LLC, a wholly owned subsidiary of the Company.

Effective January 1, 2013, the portion of the Plan representing the accounts of individuals who were employed on January 1, 2013 by the Company, Jostens, Inc. or Memory Book Acquisition LLC (a Jostens subsidiary) and who were not eligible as of such date to accrue benefits (other than vesting service) in an employer sponsored defined benefit pension plan were spun-off from the Plan to a new plan maintained under a new governing Plan document, the Jostens 401(k) Retirement Plan.

Effective January 1, 2014, participants in the Plan whose employment was governed by the terms of a collective bargaining agreement between Jostens, Inc. and the IAM&AW Local 924 ceased accruing benefits under a defined benefit pension plan so that their eligibility for this Plan ceased, and they became eligible for the Jostens 401(k) Retirement Plan.

Effective January 1, 2015, there were no active participants in the Visant Plan.

Funding Policy

Participants were able to contribute up to 50% of eligible compensation on a pre-tax basis and/or on a Roth after-tax basis as defined in the Plan, subject to limitations established by law. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allowed for automatic enrollment of new participants (except for Topeka Union) that met the eligibility requirements and deferral of 3% of eligible compensation, unless elected otherwise. Participants who were not covered by a collective bargaining agreement other than IAMAW Local 1416 ("Owatonna Union") and who made pre-tax or Roth after-tax contributions of at least 5% of eligible compensation were able to contribute up to an additional 10% of after-tax contributions if they are a non-highly compensated employee.

For employees of the Company not subject to a collective bargaining agreement other than the Owatonna Union, the Company made matching contributions of 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation that a participant contributes to the Plan. For certain employees at the Topeka location of the Company subject to collective bargaining agreements, the Company made matching contributions of 50% of the first 6% of eligible compensation that a participant contributed to the Plan. The Company may contribute to the Plan a specified percentage of eligible participant compensation excluding collectively bargained employees, as determined by the Company's Board of Directors. During 2015 and 2014, the Company made no discretionary contributions.

Participant's Accounts

Each participant's account was credited with the participant's contributions (elective deferral, Roth after-tax, after-tax, catch-up and rollover) and allocations of the Company's contributions (matching and discretionary) and Plan earnings and losses. Plan earnings were allocated to each participant by investment fund based on that participant's share of total investments. The benefit to which a participant is entitled was the vested portion of the participant's account.

Investment Options

All funds of the Plan were participant directed. Participants could choose to allocate their contributions and/or all or part of their account balance among any of the Plan's investment alternatives on a daily basis.

Vesting

Participants were immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon.

Discretionary employer contributions for contributions made with respect to Plan years prior to 2007 other than H&S Graphics profit sharing contributions prior to January 1, 1999, vest as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than three	0%
Three but less than four	20
Four but less than five	40
Five but less than six	60
Six but less than seven	80

NOTE A – PLAN DESCRIPTION – Continued

Participants who transferred from Visual Systems, Inc. were subject to the following schedule for funds in their Company Match and Profit Sharing accounts:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than two	0%
Two years	20
Three years	40
Four years	60
Five years	100

Forfeited Accounts

The Plan provided that forfeiture of non-vested Company contributions were to be used to reduce administrative expenses or to reduce Company contributions. At December 31, 2015 and 2014, the forfeiture account balance was \$0 and \$18,566, respectively. During 2015 and 2014, \$5,270 and \$14,963 were used to reduce administrative expenses.

Payment of Benefits

The full value of the participant's vested account was payable upon termination, death and disability. If the participant's account balance did not exceed \$1,000 a lump-sum distribution, net of tax, is made. If the participant's balance was between \$1,000 and \$5,000 and the participant did not specify whether the distribution would be paid directly to an eligible retirement plan or paid directly to the participant, the Plan administrator paid the distribution through a direct rollover to an individual retirement account designated by the Plan administrator. If the participant's balance exceeded \$5,000, the participant could elect to receive a lump-sum distribution, net of tax, non-periodic payments or installment payments. Distributions must begin by April 1 of the year following the year the participant turns age 70½ (or retires if later).

In-service withdrawals from a participant's after-tax and rollover accounts were available in accordance with the Plan document. Participants who had attained age 59½ could also make in-service withdrawals. Hardship withdrawals were also available under the Plan.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (less their highest outstanding note receivable balance during the previous 12 months) or 50% of their vested account balance. Note terms range from six months to five years unless the note is for the purchase of a primary residence, in which case the maximum term is 15 years. The notes were secured by the vested balance in the participant's account and bear an interest rate established by the Plan administrator. Principal and interest was paid ratably through payroll deductions for active participants. Participants were assessed a loan fee upon approval of the note and an annual maintenance fee for the duration of the note. Notes that become in default were deemed distributions to the participants and are included in benefits paid.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Partial Plan Termination

On July 15, 2014, Visant announced the sale of The Lehigh Press LLC. Employees remained eligible for the Plan through August 10, 2014 per terms of the transaction agreement. On July 21, 2014, Visant announced an entry into a memorandum of understanding to sell AKI Inc. and Dixon Direct Corp. This transaction closed in September 2014. The Plan recognized a partial plan termination effective in 2014 due to the reduction of eligible participants. There were no remaining active employees in the Plan. There was no impact to the Plan as a result of the partial plan termination as all the affected participants were fully vested as of the date on which the participants were terminated.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Master Trust administered by the trustee held the Plan's investments. The Plan's interest in the Master Trust was stated at the collective fair value of each of the investments based on the units owned by the Plan's participants. Master Trust investments consisted of mutual funds and a collective trust fund. Mutual fund investments were valued at fair value as determined by the trustee. The collective trust fund invested in numerous guaranteed, bank and synthetic investment contracts. This fund was valued at its estimated fair value (contract value plus accrued interest thereon) as determined by the trustee.

Visant 401(k) Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

As described in the Financial Accounting Standards Board (“FASB”) Staff Accounting Standards Codification, (“ASC”) 962-325, *Plan Accounting – Defined Contribution Pension Plans Investments*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis.

Payments of Benefits

Benefits paid directly to participants or rolled over to other retirement plans on behalf of the participant are recorded by the Plan when paid.

Administrative Expenses

Transaction related expenses of the Plan are paid by the participants. Other administrative expenses of the Plan are paid by the Company. Former employees are charged a recordkeeping fee. The Company pays this fee for active employees.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits in future periods.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Increase (decrease) in Plan Interest in Master Trust

The Plan presents in the statements of changes in net assets available for benefits the increase (decrease) in plan interest in Master Trust, which consists of its share of the realized and unrealized appreciation (depreciation) on the Master Trust investments as well as interest and dividends, net of certain expenses, based on the specific performance of investment options and units owned by the Plan's participants.

Adoption of New Accounting Rules

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in the removal of the Plan's investments for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that the total investments in the fair value hierarchy can be reconciled to the total investments measured at fair value on the statements of net assets available for benefits.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for the fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted.

Part III is not applicable to the Plan but management has elected to adopt Part I and Part II early. Accordingly, the amendments were retrospectively applied, resulting in the Plan's stable value investment being reported only at contract value in accompanying statements of net assets available for benefits and the removal of certain fair value disclosures related to this investment. The disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation of investments by general type and the investment strategy for the Plan's investment measured at NAV have been removed and the level of disaggregating investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

Subsequent Events

The Plan evaluated its December 31, 2015 financial statements for subsequent events through August 23, 2016, the date the financial statements were available to be issued. Effective April 15, 2016, Jarden Corporation was acquired by Newall Brands, Inc. The Plan is not aware of any other subsequent events, which would require recognition or disclosure in the financial statements, except as noted above.

NOTE C – TRUSTEE CERTIFICATIONS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Total investment income (loss) and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.

NOTE D – FAIR VALUE MEASUREMENTS

ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Visant 401(k) Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE D – FAIR VALUE MEASUREMENTS - Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the net asset value of shares held by the plan at year end based on quoted market prices.

Collective trust: Valued at net asset value based on the fair value of the underlying investments at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

NOTE E – INTEREST IN THE MASTER TRUST

The Master Trust holds the assets of the Plan and other plans sponsored by the Company. Each participating plan in the Master Trust is allocated its proportionate share of the net assets based on the fair value of the investment options and units owned by each plan's participant. Fidelity Management Trust Company holds the assets of the Master Trust. Investment income, gains and losses, and administrative expenses relating to the Master Trust are allocated to each participating plan based on each plan's participant balance activity. The Plan's interest in the net assets of the Master Trust, which approximated 0% and 31.5% of the total value at December 31, 2015 and 2014, respectively, is included in the accompanying statements of net assets available for plan benefits.

NOTE E – INTEREST IN THE MASTER TRUST – Continued

The Plan is applying the practical expedient as of December 31, 2015 and 2014 to its investment in Fidelity's Managed Income Portfolio II Fund (the "Fund"), a collective trust fund. The Fund's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Participants' ownership of the Fund is represented as units. Units are issued and redeemed daily at the Fund's constant NAV of \$1 per unit. The Fund allows for daily liquidity with no additional days' notice required for redemption. It is the policy of the Fund to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

To assess the reasonableness of the fair value methodology used for the collective trust funds, the Financial Asset Management Committee, with the assistance of an investment advisor, evaluates a variety of factors including review of the fund's financial statement, economic conditions, industry and market developments, and overall credit ratings.

The Fund invests in assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The following events may limit the ability of the Plan to transact at contract value:

- The Plan's failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have material adverse effect on the Fund's cash flow.
- Any transfer of assets from the Fund directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merge with another plan.
- Any substantive modifications of the Fund or the administration of the Fund that is not consented to by the wrap issuer.

NOTE E – INTEREST IN THE MASTER TRUST – Continued

- Any change in law regulation or administrative ruling applicable to a plan investing in the Fund that could have a material adverse effect on the Funds' cash flow.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from the Fund's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets declines.

NOTE F – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated July 25, 2012, that the Plan and related trust were designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator analyzed the tax positions taken by the plan, and concluded that as of December 31, 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. Currently the Department of Labor is conducting an examination on the Plan. The years under examination are 2010 through 2014. The Plan complied with all the Department of Labor requests and awaits the resolution to the examination.

NOTE G – RELATED PARTIES

The Company had been designated as the Plan administrator and Plan Sponsor. Certain employees provided administrative services to the Plan. These services were provided at no cost to the Plan. Administrative expenses, such as audit, legal and trustee fees were paid by the Company. Certain investments of the Master Trust were shares of mutual funds managed by Fidelity Management Trust Company. These transactions qualified as party-in-interest transactions.
