CLARK, SCHAEFER, HACKETT & CO. PROFIT SHARING RETIREMENT PLAN
(WITH 401(K) PROVISIONS)

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1 - Plan description

The following description of the Clark, Schaefer, Hackett & Co. Profit Sharing Retirement Plan (with 401(k) Provisions) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Clark, Schaefer, Hackett & Co. Profit Sharing Retirement Plan (with 401(k) Provisions) was established on July 1, 1997 and is sponsored by Clark, Schaefer, Hackett & Co. (the Company). The Plan was established to provide retirement benefits to full-time employees who have attained the age of twenty-one and completed one month of service in which the employee has completed at least 83 hours of service. The service requirement for profit sharing is one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company may make discretionary non-elective contributions as determined by the Company's Directors. Effective in 2015, participants must be employed at the end of the year in order to receive the discretionary non-elective contribution. For the year ended December 31, 2015, the Company made a discretionary non-elective contribution of \$2,086,363 to the Plan. Contributions are subject to certain IRS limitations.

C. Participant accounts

Each participant's account is credited with the participant's contributions and Company discretionary non-elective contributions, and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Investment options

Participants may direct all of their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the plan provisions.

Note 1 - Plan description, continued

E. Vesting

Participants are vested immediately in their contributions plus actual earnings (losses) thereon. Vesting in the Company's discretionary non-elective contribution is based on years of continuous service. A participant is 100% vested in the Company's discretionary contributions after 6 years of credited service.

F. Notes receivable from participants

Participants may borrow in the form of general purpose or principal residence loans from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 8.25%, which are commensurate with local prevailing rates as determined by the plan administrator as of the date of issuance. Principal and interest is paid ratably through payroll deductions.

G. Payment of benefits

On termination of service due to death, disability or retirement, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. Under certain conditions, participants may receive a hardship distribution.

For accounts with a distributable balance less than \$5,000, participants will receive an amount equal to the value of their vested account balance in a lump sum amount as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

H. Forfeitures

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$66,101 and \$25,960, respectively. The forfeitures will be used to reduce future employer non-elective contributions. In 2015, employer contributions were reduced by \$25,829 from forfeited non-vested accounts.

I. Administration

The Company is the administrator of the Plan and has appointed Great-West Life Annuity and Insurance Company as custodian and recordkeeper of the Plan. Pinnacle Financial Advisors, LLC serves as the plan's investment advisor. Three shareholders of the Company serve as the Plan's trustees. Costs of administering the Plan are paid by either the Plan or the Company.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 2 - Significant accounting policies

A. Accounting method

The Plan's financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

B. Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D. Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

E. Payment of benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Significant accounting policies, continued

F. Change in accounting principles

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of the month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III prospectively. Management elected to early adopt Parts I and II of this new standard and the amendments were retrospectively applied. Part III is not applicable to the Plan.

G. Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 29, 2016, the date on which the financial statements were available to be issued.

Note 3 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable relevant inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total assets at fair value	<u>\$ 50,605,084</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 50,605,084</u>

Note 5 - Tax status

The Company adopted a Prototype Non-standardized Profit Sharing Plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Note 6 - Information certified by custodian

Great-West Life Annuity and Insurance Company, the custodian, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related, thereto. This information includes investments and notes receivable from participants held at December 31, 2015 and 2014 and net depreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2015.

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the custodian. The Plan administrator, therefore, has instructed the independent public accountants to exclude the information certified by the custodian from the scope of their audits.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 7 - Party in interest transactions

The Plan paid fees to Great-West Life Annuity and Insurance Company, for investment management, trust services and other administrative services in the amount of \$92,975 for the year ended December 31, 2015. Great West is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan invests in the Great-West Life & Annuity Insurance Company's Key Guaranteed Portfolio Fund. As of December 31, 2015 and 2014, \$5,428,982 and \$5,510,177, respectively, was invested in the Guaranteed Portfolio Fund.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Guaranteed investment contract

The Plan has a fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company (Great-West). The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net asset available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was \$5,428,982 and \$5,510,177, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on completing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.
