Luvata Ohio, Inc.
401(k) Plan
Notes to Financial Statements
December 31, 2015 and 2014

1. Description of the Plan

The following brief description of the Luvata Ohio, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. For more complete information, participants should refer to the plan agreement.

General – The Plan is a contributory defined contribution plan sponsored by Luvata Ohio, Inc. (the "Company"). The Plan covers substantially all employees of the Company. The Plan was adopted by the Company effective April 1, 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Contributions to the Plan are made by the participants through salary reductions and by the Company through discretionary matching contributions. Participants may elect to contribute a specific percentage of their compensation up to 75%, subject to certain limitations under Sections 401(k) and 415 of the Internal Revenue Code. Participants who are age 50 and over are able to elect to contribute an additional amount as a catch-up contribution allowed under Section 414(v). During the plan years ended December 31, 2015 and 2014, discretionary matching contributions amounted to 50% of participant contributions for a maximum match of 3% of compensation. Forfeitures are used to reduce future employer contributions.

Participant Accounts – Individual accounts are maintained for each plan participant. Participant accounts are increased by participant contributions, Company contributions, and the participant's share of any plan earnings. Participant accounts are decreased by participant distributions and the participant's share of plan expenses and losses. The allocation of earnings and losses to participant accounts is based on procedures set forth in the plan document. Upon death, disability, retirement or termination of employment, the vested benefits of a participant are calculated based on the valuation of their account at the date of distribution.

Investment Allocation – The investments can be allocated to any combination of various investment securities, as directed by the participants.

Luvata Ohio, Inc.
401(k) Plan
Notes to Financial Statements (continued)
December 31, 2015 and 2014

1. Description of the Plan (continued)

Vesting – Participants are fully vested immediately in their contributions plus actual earnings thereon. Participants are vested in the Company's matching contributions according to the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Payment of Benefits and Withdrawals – Withdrawals during employment from participant accounts are limited to financial hardship, as defined by the Plan, and represent taxable distributions to the participant. Distributions under the Plan commence immediately if a participant dies or is permanently disabled.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.5 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Income Taxes – The prototype plan sponsor, Lincoln Retirement Services Company, LLC, has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter and has not received a determination letter specific to the Plan itself, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the Internal Revenue Code. Accordingly, no provision has been recorded for income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014 there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Luvata Ohio, Inc.
401(k) Plan
Notes to Financial Statements (continued)
December 31, 2015 and 2014

1. Description of the Plan (continued)

Income Taxes (continued) – The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Plan Termination – The Company may elect to discontinue the Plan at any time. Upon any such termination, all amounts credited to participant accounts shall be fully vested. Upon such plan termination, the Company will distribute the Plan's assets to participants in accordance with the terms of the plan agreement.

2. Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Investment Income – Net appreciation or depreciation in the fair value of investments includes both realized gains and losses and unrealized appreciation and depreciation on the fair value of investments. Interest and dividend income is recognized as earned. Investment transactions are accounted for on the trade date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to participant contributions.

Benefit Payments – Benefits are recorded when paid.

December 31, 2015 and 2014

2. Significant Accounting Policies (continued)

Party-in-Interest Transactions – Certain plan investments are shares of mutual funds and collective trust funds managed by Lincoln Financial Group Trust Company Inc., the Plan's trustee as of and for the year ended December 31, 2015 and, accordingly, qualify as party-in-interest transactions. Certain plan investments are shares of mutual funds and collective trust funds managed by Wilmington Trust Company, the Plan's trustee as of and for the year ended December 31, 2014 and, accordingly, qualify as party-in-interest transactions.

Expenses – During the years ended December 31, 2015 and 2014, the necessary expenses to administer the Plan were paid primarily by the Company. Investment related expenses are included in net appreciation or depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Management Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, changes therein and disclosure of contingent net assets at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the balances of participant accounts and the amounts reported in the statements of net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through August 10, 2016, the date the financial statements were available to be issued, and has identified no subsequent events for recognition or disclosure.

3. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance is effective for non-public business entities for fiscal years beginning after December 15, 2016, with early adoption permitted. The guidance requires retroactive application.

Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in no leveling of investments for which fair value is measured using the net asset value (NAV) per share practical expedient such as collective trust funds.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Part I exempts fully benefit-responsive investment contracts from reflecting fair value and presenting related fair value measurement disclosures. Part II simplifies the level of disaggregation for investments measured using fair value by allowing plans to disaggregate their investments and present related fair value information disclosures by general type rather than by class. In addition, Part II simplifies plan investment disclosures by allowing the net appreciation or depreciation in fair value of investments to be disclosed in the aggregate rather than by general type and by eliminating the requirement to disclose individual investments with value equal to or greater than 5% of net assets available for benefits. Part III simplifies accounting for plans with a fiscal year end that does not coincide with a calendar month end by allowing plans to measure their investments using the month end closest to their fiscal year end, a measurement date practical expedient. The standard is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II should be applied retroactively and Part III should be applied prospectively.

Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retroactively applied resulting in no disclosure for individual investments greater than 5 percent of net assets, and net appreciation or depreciation disclosed in aggregate, not by investment type.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly such as:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs that are unobservable for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

The Plan's investments are stated at fair value, based on the following methodologies.

Mutual Funds – Valued at current market value as measured by quoted market prices in an active market.

Collective Trust Funds – Valued at fair value using the net asset value based on the value of the underlying assets owned by the trust net of liabilities. The net asset value is not a quoted price in an active market.

Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers between Levels

For the years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.
