1. Plan Description

The McCain Foods USA, Inc. Retirement Plan (the "Plan"), a defined contribution plan, was established on January 1, 1991. The Plan's participants include employees of McCain Foods USA, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all common law employees of the Company, as defined by the Plan document, commencing on the date of employment.

Temporary and seasonal employees are eligible to participate in the Plan once they have completed one year of eligibility service which is defined as at least 1,000 hours of service in a Plan year. There are no eligibility service requirements in the Plan for employees other than temporary or seasonal employees.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Investments

All investments under the Plan are participant directed. Upon enrollment in the Plan, a participant may direct both employee and employer contributions in 1% increments in any of the 28 investment options. Participants may change their investment allocations at any time.

Contributions

Full time employees are automatically enrolled in the Plan upon hire, at 3% of their compensation, but are provided the option to opt out of participating in the Plan. A participant may also elect to contribute up to 50% of their annual compensation, within certain limitations, to the Plan on a pre-tax or post tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Each participant's annual compensation is required to be reduced by 3%, which represents the Safe Harbor Nonelective Contribution ("Automatic Core Contribution"). Automatic Core Contributions are classified as employer contributions in the Statement of Changes in Net Assets Available for Benefits. In addition to the 3% Automatic Core employer contribution described above, the Company will make an Employer Core Contribution, matching the amount of Automatic Core Contribution, equal to 3% of each participant's annual compensation. The Employer will also make an Excess Employer Core Contribution equal to 3% of each participant's annual compensation in excess of the Social Security taxable wage base. Further, the Company may, in its discretion, make a Regular Matching Contribution to the Plan for each Plan year up to an additional 3%, which shall be determined by the Company for each Plan year. The discretionary Regular Matching Contribution was 3% for the year ended December 31, 2015 and totaled $5,978,636.

Participants can also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer contributions and an allocation of Plan earnings, losses and expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Each participant is fully vested in his or her Automatic Core Contributions, elective employee contributions, catch-up contributions and rollover contributions immediately. Each participant becomes fully vested in his or her Employer Core Contributions, Excess Employer Core Contributions and Regular Matching Contributions upon completion of three years of vesting service or upon reaching normal retirement age of 65, with no vesting during the first two years.

Benefits
On termination of service due to death, disability, retirement or otherwise leaving employment, the participant or beneficiary may elect to receive a lump sum amount equal to the value of the vested balance allocated to his account. If a participant's vested interest in his or her account does not exceed $1,000, an automatic distribution of such interest shall be made in a lump sum payment or through direct rollover. Participants may withdraw all or a portion of the balance of their accounts without penalty upon attainment of age 70-1/2.

Notes Receivable from Participants
Notes receivable from participants are permitted under the Plan and are subject to such conditions and limitations as the Retirement Plan Administrative Committee deems necessary for administrative convenience and to preserve the tax-qualified status of the Plan.

No loan to any participant or beneficiary may be made to the extent that such loan, when added to the outstanding balance of all other loans to the participant or beneficiary, would exceed the lesser of (a) $50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the one-year period ending on the day before the loan is made, or (b) one-half the current value of the nonforfeitable accrued benefit of the participant. The loan terms are generally between one and five years with a term of up to twenty years for the purchase of a primary residence.

Loans shall be made available to all participants and beneficiaries on a reasonably equivalent basis. Loans shall not be made available to highly compensated employees (as defined in Section 414(q) of the IRS Code) in an amount greater than the amount made available to other employees. Loans must be adequately secured using not more than 50% of the participant's vested account balance and bear a reasonable interest rate. Interest rates ranged from 4.25%-9.5% at December 31, 2015 and 2014.

Forfeitures
When a participant terminates employment prior to vesting in all of his or her employer contributions, such employer contributions and the net investment income thereon are forfeited. Forfeitures are used to reduce future employer contributions under the Plan. During 2015, $496,280 of forfeitures were used to offset employer contributions. At December 31, 2015 and 2014, unallocated forfeitures totaled $554,978 and $551,779, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The preparation of financial statements in conformity with GAAP in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net depreciation in the fair value of its investments which consists of the net realized gains and the net unrealized appreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Income from investments is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Risks and Uncertainties
The Plan provides for various investments in any combination of collective trusts and mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid.

Delinquent Notes Receivable
Delinquent notes receivable from participants are classified as distributions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Administrative Expenses
Administrative expenses, such as legal, accounting, recordkeeping and trustee fees, are paid entirely by the Company. Loan processing fees and investment management fees are deducted from the participant's account balance.

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which amends Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures. This ASU removes the requirement to categorize within the fair value hierarchy investments without readily determinable fair values in entities that elect to measure fair value using net asset value per share or its equivalent. The ASU requires that these investments continue to be shown in the fair value leveling disclosure to allow the disclosure to reconcile to the investment amounts presented in the statements of net assets available for benefits. The retrospective application of this guidance is effective for annual reporting periods beginning in 2017. Plan management does not believe the adoption of this guidance will have a material effect on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12 (ASU 2015-12), Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965). ASU 2015-12 seeks to reduce complexity in employee benefit plan accounting. Part I (Fully Benefit-Responsive Investment Contracts) and Part II (Plan Investment

Disclosures) are applicable to the Plan. The amendments in Part I of ASU 2015-12 designate contract value as the only required measure for fully benefit-responsive investment contracts, which maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts. The objective of Part II of ASU 2015-12 is to simplify and make more effective the investment disclosure requirements under ASC 820 and under ASC 960, 962, and 965 for employee benefit plans. The Plan has adopted this guidance for the year ended December 31, 2015 with retrospective application effective January 1, 2014. The adoption did not have a significant impact on the Plan's financial statements

3. Plan Trustee Certification

As of December 31, 2015 and 2014 and for the year ended December 31, 2015, the Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements, notes to the financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Interest and dividend income, as shown in the Statement of Changes in Net Assets Available for Benefits.
- Interest on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits.
- Net depreciation in fair value of the investments, as shown in the Statement of Changes in Net Assets Available for Benefits.
- Investments detailed on Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measures level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at quoted market prices that represent the net asset value ("NAV") of the shares held by the plan at year end. The fair value of the mutual funds is classified as level 1.

Collective trusts:

Stable value

The stable value fund included in the common/collective trusts represents an investment in the Vanguard Retirement Savings Master Trust III. The trust fund is valued determined using NAV and is used for expedience purposes. NAV is provided by the trustee of the trust fund based on the value of the underlying assets divided by the number of units outstanding. The fair value of the trust fund's underlying assets is determined by pricing agents using observable inputs on a daily basis plus the total wrap contract rebid value, which is calculated by discounting the annual rebid fee over the duration of the contract's assets. The only restriction is that the Plan is required to provide a one-year redemption notice to liquidate its entire share in the trust fund. There are no unfunded commitments. The fair value of the trust fund is classified as level 2.

Core equity

The core equity fund included in common/collective trusts represents investment in various level I common stocks. The fair market value of the Plan's interest in the collective trust has been determined using NAV and is used for expedience purposes. The NAV is based on the value of the underlying assets owned by the collective trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is not active. Participant transactions (issuances and redemptions) may occur daily. There are no limitations over the amount or frequency in which money may be transferred into the trusts. There are no unfunded commitments. The fair value of the trust fund is classified as level 2.

Target date

Target date trust investments included in the common/collective trusts are primarily comprised of investments in Vanguard mutual funds using an asset allocation strategy for investors planning to retire and leave the workforce in or within a few years of the target year. The trust fund's asset allocation will become more conservative over time. The underlying funds are: Vanguard Total Bond Market II Index Fund, Vanguard Total Stock Market Index Fund, Vanguard Total International Bond Index Fund, and Vanguard Total International Stock Index Fund. The trust fund's indirect stock and bond holdings are a diversified mix of domestic and foreign capitalization stocks and fixed income securities. The trust fund is valued using the NAV for expedience purposes. NAV is provided by the trustee of the trust fund based on the value of the underlying assets divided by the number of units outstanding. There are no unfunded commitments. The fair values of the trust funds are classified as level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment holdings at fair value were comprised of the following at December 31, 2015:

	Investment Assets at Fair Value as of December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 311,820,867	$ -	$ -	$ 311,820,867
Collective trusts	-	61,497,670	-	61,497,670
Total assets in the fair value hierarchy	311,820,867	61,497,670	-	$ 373,318,537
Investments at fair value	$ 311,820,867	$ 61,497,670	$ -	$ 373,318,537

Investment holdings at fair value were comprised of the following at December 31, 2014:

	Investment Assets at Fair Value as of December 31, 2014			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 147,415,073	$ -	$ -	$ 147,415,073
Collective trusts	-	231,388,542	-	231,388,542
Total assets in the fair value hierarchy	147,415,073	231,388,542	-	378,803,615
Investments at fair value	$ 147,415,073	$ 231,388,542	$ -	$ 378,803,615

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring level 3 measurements. During 2015, the Plan changed its investment options

and transferred $173,938,546 of its target date collective trusts classified as level 2 investments to target date funds classified as level 1 investments.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 8, 2014, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has subsequently been amended. The Company believes the Plan continues to be designed and operating in compliance with applicable requirements of the Internal Revenue Code.

The Company has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2012.

6. Plan Termination

While the Company has not expressed any intent to terminate the Plan, it reserves the right to do so at any time. In the event the Plan is terminated, participants will become 100% vested in their accounts, and the assets would be distributed to participants in accordance with the terms set forth in the Plan.

7. Party-In-Interest Transactions

Certain investments of the Plan are shares of mutual funds and units of a collective trusts managed by the trustee. Transactions involving these investments, in addition to transactions involving notes receivable from participants are considered to be party-in-interest transactions.

8. Reconciliation to Form 5500

The following is a reconciliation of the amounts reported in the financial statements as of December 31, 2015 and 2014 and for the year ended December 31, 2015 to the Form 5500:

Adjustment to contract value for interest in collective trust relating to fully benefit-responsive investment contracts	(1,060,019)

The Vanguar**d** Inflation-Protected Securities Fund will shift from Investor to Institutional Shares. Participant's accounts were automatically transferred between these investments unless otherwise directed.
