MORRISON INDUSTRIES, INC.
401(k) RETIREMENT PLAN
Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Morrison Industries, Inc. 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established November 1, 2009 is a defined contribution plan which provides for employee contributions under Section 401(k) of the Internal Revenue Code. The Plan covers all employees of Morrison Industries, Inc. (the Company), and it is governed by the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees may become participants in the Plan on the Plan entry date coinciding with the date on which he or she has completed one year of service and 1,000 hours of service and attained age 21. Plan entry dates are the 1st day of the calendar month following the completion of the eligibility requirements.

Contributions: Employees participating in the Plan can make deferred contributions under the 401(k) provisions of up to \$17,500 in 2014 and 2013. The Company recorded a discretionary contribution of \$120,600 and \$120,000 for the years ended December 31, 2014 and 2013, respectively.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the applicable Company's contribution; (b) the applicable contribution and forfeitures thereof are allocated based on a fixed dollar amount as determined by the Company. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Voluntary contributions vest immediately, along with the earnings thereon. Company contributions are vested in the participant's account based on years of continuous service. A participant is 100% vested in the employer discretionary contribution portion of their account after five years of credited services. A participant is also entitled to 100% of his or her vested account balance upon retirement or death.

Forfeitures: Plan forfeitures of employer discretionary contributions are used to reduce employer contributions. As of December 31, 2014 and 2013, there were \$2,106 and \$8,000, respectively, of forfeitures available.

Payment of Benefits: On termination of service, a participant can elect either a lump-sum amount equal to the value of his or her account or a direct rollover.

Participant Loans and Distributions: Under certain circumstances, as defined in the Plan agreement, the Plan allows participants to borrow money from the Plan up to the lesser of \$50,000 or one-half of the participant's vested account balance. Loans must have a term of no longer than five years, bear a reasonable interest rate, and be secured by at least 50 percent of the participant's vested account balance under the Plan and may not be refinanced.

Notes to Financial Statements

Note 2 – Summary of Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Fair Value Measurements: The Plan has adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, (SFAS 157), which defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States, and enhances disclosures about fair value measurements. SFAS 157 applies whenever other financial reporting standards require (or permit) assets or liabilities to be measured at fair value and, therefore, does not expand the use of fair value in any new circumstance.

Fair value is described as the exchange price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction (i.e., not a forced transaction, such as liquidation or a distressed sale) between market participants at the measurement date. SFAS 157 establishes a fair value hierarchy that prioritizes the information used to develop these assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS 157 requires fair value measurements to be separately disclosed by level within the fair value hierarchy.

The Levels within this hierarchy are:

Level 1: Valuation is based on quoted prices for identical instruments traded in active markets.

Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect the estimates of assumptions that market participants would use in pricing the asset or liability.

Assets at fair value as of December 31, 2014 are as follows:

	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Pooled separate accounts	\$ 11,230,802	\$ -	\$ -	\$ 11,230,802

401(k) RETIREMENT PLAN
Notes to Financial Statements

Note 2 – Summary of Accounting Policies (continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investment options including investments in pooled separate accounts. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Investments Valuation: Investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: These financial statements considered subsequent events through August 19, 2015 the date the financial statements were available to be issued.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4 – Information Certified by the Trustee (Unaudited)

Transamerica Life Insurance Company, the trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements as of December 31, 2014, except that information described in Note 5, has been certified by them. This information has not been audited by independent accountants.
