1. DESCRIPTION OF PLAN

The following description of the Banesco USA ("Bank") 401K Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a complete description of the Plan's provisions.

General

The Plan is established by the Plan sponsor and employer, Banesco USA. The Plan is a defined contribution plan, which covers all employees who have completed 3 months of service and attained the age of 21. The contributory portion of the Plan is based on elective contributions from participants in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Prior to October 1, 2014, the trustee of the Plan was Fidelity Management Trust Company. Effective October 1, 2014, the Plan changed its trustee to Reliance Trust Company.

Contributions

Elective deferrals by participants are based on a percentage of their compensation as defined in the Plan agreement, which are subject to certain limitations. Employees also may rollover account balances from other plans into their account. The Bank may, at the sole discretion of the Board of Directors, contribute to each participant's account a matching contribution, which is a percentage of the participant's elective contribution for the year. The Bank elected to make matching contributions equal to 100% of the first 3% of the of the participant's compensation contributed to the Plan and 50% of the next 2% of the eligible participant's compensation contributed to the Plan subject to certain limitations as specified in the Plan agreement.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, if any, and an allocation of (a) the Bank's contributions and (b) Plan's earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the aggregate of the participant's deferrals, rollovers and vested employer contributions.

Investment Options

Participants may direct the trustee to invest their elective 401(k) contributions, rollovers, if any, as well as employer matching contributions to the Plan in any of the available investment options. Participants can individually determine their investment options based on desired level of risk and return for all contributions (employer and participant) to the Plan.

Vesting

Participants are vested immediately in their contributions and in their employer contributions plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or his or her beneficiary may elect to receive the vested portion in the participant's account in a lump sum distribution or in installment payments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document. Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined quarterly by the Plan administrator.

1. DESCRIPTION OF PLAN (CONTINUED)

Administrative Expenses

During the years ended December 31, 2015 and 2014, administrative expenses amounting to $3,400 and $1,277, respectively, were paid by the Plan and shown as a deduction from net assets. Additionally, all fees and expenses of the Plan for legal, accounting, and other miscellaneous administrative services are paid by the Bank.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in NOTE 7. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions could significantly affect the estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions, which affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Upon termination of service, due to employment termination, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or through installment payments over a period not to exceed the life expectancy of the participant or beneficiary of the participant. Benefits are recorded when paid.

Adoption of Accounting Pronouncements

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

In May 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standard update that removes the requirement to include investments in the fair value hierarchy for which fair value is measured at net asset value using the practical expedient. The update also changes certain disclosure requirements. The update is effective retrospectively for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. Early application is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

Defined Benefit Pension Plans

In July 2015, the FASB issued an accounting standard update which amends requirements for defined contribution, defined benefit, and health and welfare benefit plans. Generally, Part I of the update requires fully benefit responsive investment contracts to be reported at contract value. Generally, Part II eliminates the requirements for plans to disclose (a) individual investments that represent 5 percent or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type. Generally, Part II also requires that investments be grouped only by type of investment. Part III provides an alternative date for measuring investments for plans with fiscal year-ends not falling on a month-end date. Parts I and II of the update are effective retrospectively for fiscal years beginning after December 15, 2015 with early application permitted. Part III of the update is effective prospectively for fiscal years beginning after December 15, 2015 with early application permitted. The Plan has elected to early adopt the update as of December 31, 2015, as permitted, and has applied the provisions retrospectively. Part III is not applicable to the Plan. The early adoptions of Parts I and II are reflected in the notes to the financial statements and certain disclosures that are no longer required have been removed. There are no material effects on the net assets available for plan benefits or the changes in net assets available for plan benefits.

Subsequent Events

The Plan has evaluated subsequent events through August 22, 2016, which is the date the financial statements were available to be issued.

3. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100 percent vested in their accounts.

4. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, a trustee, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate as of and for the year ended December 31, 2015 and as of and for the period from October 1, 2014 to December 31, 2014 and Fidelity Management Trust Company, a trustee, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate for the period from January 1, 2014 to September 30, 2014.

	December 31, 2015	December 31, 2014
Interest in registered investment companies	$ 4,315,342	$ 3,765,739
Notes receivable from participants	208,997	161,735
Total	**$ 4,524,339**	**$ 3,927,474**

	Year Ended December 31, 2015	Year Ended December 31, 2014
Investment income:		
Net (depreciation) appreciation in fair value of investments	$ (250,990)	$ 144,019
Dividends	155,178	109,919
Total investment (loss) income	(95,812)	253,938
Interest income on notes receivable from participants	9,611	8,791
Total	**$ (86,201)**	**$ 262,729**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Certain plan investments are administered by Reliance Trust Company. Reliance Trust Company is the trustee as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions. All of the Plan's investments, including notes receivable from participants of $208,997 and $161,735 as of December 31, 2015 and 2014, respectively, are party-in-interest assets, as the issuer of the registered investment companies, Reliance Trust Company, is the Plan's trustee.

6. TAX STATUS

The Plan has adopted a standardized plan, which has obtained an Internal Revenue Service ("IRS") letter on March 31, 2008, in which the IRS stated that the form of the Plan was acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended from that prototype since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made.

6. TAX STATUS (CONTINUED)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Interest in registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.
