Note 1—Plan description

Plan Description – The Central Maintenance and Welding, Inc. 401(k) Profit Sharing Plan (the "Plan") was established by Central Maintenance and Welding, Inc. (the "Company" or "Plan Sponsor") as a defined contribution plan effective August 31, 1974, and was restated effective August 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the amended and restated Plan agreement for a more complete description of the Plan's provisions.

Participation – All employees of the Company who have completed at least one year of service and have attained the age of eighteen are eligible to participate. Participants must have completed 1,000 hours of service within the Plan year and be actively employed on the last day of the Plan year to share in the employer contribution.

Contributions – Participants may contribute up to 100% of their total annual compensation, not to exceed certain limitations, on an annual basis. Participants who have attained the age of 50 are eligible to make pre-tax catch-up contributions, subject to certain limitations. Additionally, the Plan permits rollovers from other qualified retirement plans; during the 2015 plan year, there were no rollovers. The Plan Sponsor may make discretionary non-elective contributions based on a percentage, determined by management, of participants' eligible salary; during the 2015 plan year, the Plan Sponsor made $601,048 in discretionary non-elective contributions, which were funded in March 2016.

Participant Accounts – Each participant's account is credited with the participant's contribution, employer contributions, if any, and Plan earnings and are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant investment account earnings, elective deferrals, or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as defined by the Plan. Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

An active participant who is less than 100% vested is deemed to be 100% vested upon death or total disability.

Note 1—Plan description (continued)

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount not to exceed the value of the participant's vested interest in his or her account in either a lump-sum amount, annual installments over the life of the participant and beneficiary, or installments over a period of time not to exceed the assumed life expectancy of the participant or beneficiary. The beneficiary of a deceased participant may also elect to receive benefits over a period of time not exceeding the life expectancy of the beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – Pursuant to the Plan document, the non-vested portion of discretionary non-elective contributions credited to the accounts of participants who withdraw from the Plan are forfeited and held as nonparticipant-directed investments (Note 3). These amounts may be allocated to qualifying participants as an additional discretionary non-elective contribution. The Plan had $82,456 and $49,360 of forfeitures available to be reallocated to eligible participants as of December 31, 2015 and 2014, respectively. During April 2016, the Plan Sponsor allocated $82,456 of forfeitures as discretionary non-elective contributions effective for the 2015 Plan year.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting.

Change in Accounting Principle – In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. As permitted, the Plan has elected early adoption of Part II and has applied the ASU retrospectively for all periods presented.

New Accounting Pronouncement – In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU exempts investments measured using the net asset value practical expedient from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for the Plan for years beginning after December 15, 2016. Management is currently evaluating the impact of this new accounting standard.

Investments, Investment Valuation, and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 2—Summary of significant accounting policies (continued)

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Common/Collective Investment Trust – This is an investment vehicle valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with that of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through July 25, 2016 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3—Investments/financial data certified by the Plan's Trustee (unaudited)

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by SunTrust Bank, N.A. ("SunTrust"), the Trustee, as permitted by Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As of December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
SunTrust Retirement 500 Index Fund, Class B	$ 206,269	n/a	Daily	Daily

The primary investment objective of the SunTrust Retirement 500 Index Fund (the "Fund") was to emulate the performance of Standard and Poor's 500 Index, which is a benchmark index designed to measure the investment returns of stocks of large capitalization U.S. companies. The Fund's portfolio is comprised of common stock held in a variety of sectors, including consumer discretionary and staples, energy, financials, health care, industrials, information technology, materials, telecommunications and utilities.

Note 5—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Plan Sponsor contributions in their accounts.

Note 6—Income tax status

The Plan is identical to the SunTrust Prototype Defined Contribution Plan ("SunTrust Prototype Plan") approved as to form by the Internal Revenue Service ("IRS"). The SunTrust Prototype Plan is a qualified plan under Section 401(k) of the Internal Revenue Code ("IRC") and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The SunTrust Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7—Administrative expenses

Administrative expenses are comprised primarily of investment fees and are paid by the Plan. Additionally, any professional fees incurred on behalf of the Plan are paid by the Company. During the year ended December 31, 2015, approximately $11,000 of professional fees were paid by the Company on behalf of the Plan.

Note 8—Party-in-interest transactions

Certain Plan investments have shares in mutual funds and a common/collective investment trust managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Financial Administrative Services Corporation is the financial advisor and Plan record keeper. The services performed by Financial Administrative Services Corporation qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services, as permitted under ERISA.

Note 9—Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits included in the financial statements to those included in the Form 5500:

	December 31,	
	2015	**2014**
Net assets available for benefits per the financial statements	$ 8,521,867	$ 8,582,802
Less: contributions receivable	(601,048)	(1,242,595)
Net assets available for benefits per the Form 5500	$ 7,920,819	$ 7,340,207

The following is a reconciliation of the net increase in net assets available for benefits included in the statement of changes in net assets available for benefits for the year ended December 31, 2015, to the Form 5500:

Net increase in net assets available for benefits per the financial statements	$ (60,935)
Add: December 31, 2014, contributions receivable	1,242,595
Less: December 31, 2015, contributions receivable	(601,048)
Net increase in net assets available for benefits per the Form 5500	$ 580,612

Note 10—Risks and uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.
