1. PLAN DESCRIPTION

The Creative Food Ingredients, Inc. Profit Sharing/401(k) Retirement Plan (the "Plan"), established February 27, 1964, and as amended, is a defined contribution profit sharing and 401(k) Plan established for the employees of Creative Food Ingredients, Inc. (the "Company").

General – An employee who is not a member of a collective bargaining unit covered by a collective bargaining agreement may become a participant in the Plan after such employee has completed one year of service and is at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The custodians of the Plan's assets are Hand Benefits & Trust Company as of December 31, 2015, and for the period from September 8, 2015 to December 31, 2015, and TD Ameritrade Trust Company as of and for the year ended December 31, 2014, and for the period January 1, 2015 through September 7, 2015. The Plan provides for one trustee who is appointed by the Board of Directors of the Company. At December 31, 2015, the trustee was Jeffrey Arcand.

Contributions – Employer contributions to the Plan are determined at the discretion of the Board of Directors of the Company and can be allocated to participants in the form of a matching contribution based upon the deferred contribution, on a per capita basis based upon the number of qualifying participants or discretionary contributions based upon covered compensation as defined in the Plan. For the plan years ended December 31, 2015 and 2014, the Board did not elect to make an employer contribution.

In addition, employees who are eligible to participate may elect to contribute up to 100% of their covered compensation to the Plan up to the Internal Revenue Service dollar limitations.

Payment of Benefits – Benefits paid directly to participants upon retirement or withdrawal from the Plan can be made in the form of cash or investments, at market value, at the time of distribution.

Benefits Payable – Net assets available for benefits included benefits of approximately $118,000 due to participants who have withdrawn from participation in the Plan as of December 31, 2014. There were no benefits payable as of December 31, 2015.

Forfeited Accounts – Forfeitures arising from terminations are used first to offset administrative expenses, employer matching contributions, then employer discretionary contributions. There were no forfeitures available as of December 31, 2015 and 2014, respectively.

Plan Termination – Although the Company intends to continue the Plan indefinitely, it nevertheless assumes no contractual obligation to do so and reserves the right to terminate the Plan with respect to its employees at any time by action of its Board of Directors.

1. PLAN DESCRIPTION (continued)

In the event of termination of the Plan, its assets are to be allocated to Plan participants and beneficiaries along the following priorities:

1. Contributions made by employees, if any;
2. Contributions made by employer which are vested;
3. All other benefits under the Plan.

Vesting – Participants are immediately 100% vested for the amount in their 401(k) account which represents amounts attributable to their deferral contributions. Vesting of employer contributions are calculated based on an employee's length of service, as follows:

Years of Service	**Nonforfeitable Percentage**
Less than 1	0%
1 less than 2	20%
2 less than 3	40%
3 less than 4	60%
4 less than 5	80%
5 or more	100%

Administrative Expenses – Administrative expenses are primarily paid by the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition – The Plan determines the fair value of assets and liabilities which are subject to reporting at fair value based on Accounting Principles Generally Accepted in the United States of America. The standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2 and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds: Valued based on quoted market price available on an active market, which represents net asset values of the shares held by the Plan at year end.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Stable value fund: Valued based on the net asset value of units held by the Plan at year end.

The Plan presents in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Recent Accounting Standards Issued – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07 "*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*." ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share ("NAV") practical expedient. It also eliminates certain disclosures for investments eligible to be measured at fair value using the NAV practical expedient. The guidance is effective for fiscal years beginning after December 15, 2015, and requires retrospective presentation. Early adoption of ASU 2015-07 is permitted and these Notes to Financial Statements reflect early adoption.

In July 2015, the FASB issued ASU 2015-12*, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

The Plan elected early adoption of Parts I and II of ASU 2015-12. As a result of the retroactive application of Parts I and II, the Statements of Net Assets Available for Benefits have been retrospectively adjusted to report the fully benefit-responsive stable value fund (see Note 3) within Investments (at fair value). Additionally, these Notes to Financial Statements have been retrospectively adjusted to reflect the simplifications permitted by ASU 2015-12.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results may differ from those estimates.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through August 9, 2016, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures (as discussed in Note 2). The following table sets forth, by level within the fair value hierarchy, the Plan's assets that are measured at fair value as of December 31, with the exception of the stable value fund, which is measured at fair value using the NAV practical expedient. The fair value for the stable value fund is provided below to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits. Prior year amounts have been retrospectively adjusted for consistency with this presentation.

	2015	2014
Level 1:		
Mutual funds:	3,438,577	3,397,001
Investments measured at net asset value:		
Stable value fund	97,401	87,666
Total investments at fair value	$ 3,535,978	$ 3,484,667

4. SUMMARY OF CUSTODIAN INFORMATION

The following is a summary of the unaudited information regarding the Plan as of December 31, 2015 and 2014, included in the Plan's financial statements and supplemental schedule. The information was prepared by the Plan's custodians and furnished to the Plan Sponsor. The custodians have certified that the information is complete and accurate:

a. Statements of net assets available for benefits, as of December 31:

	2015	2014
Mutual funds	$ 3,438,577	$ 3,397,001
Stable value fund	97,401	87,666

b. Additions to net assets for the years ended December 31:

Net appreciation (depreciation) in fair value of investments	$ (171,730)	$ 161,543
Interest and dividends	101,588	24,038

c. Schedule of assets (held at end of year) See supplemental schedule on page 11.

5. INCOME TAX STATUS

The Plan obtained its latest determination letter on September 26, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares of mutual funds managed by Manning & Napier Advisors, Inc. ("Manning"). As Manning is the Plan's investment advisor, these transactions qualify as party-in-interest transactions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
