401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization: The Hall Ambulance Service, Inc. 401(K) Profit Sharing Plan (the Plan) was established September 1, 1987, as a defined contribution profit sharing plan, sponsored by Hall Ambulance Service, Inc. (Employer) to provide retirement benefits to eligible employees of the Employer. It is intended to conform to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended from time to time, as that act applies to defined contribution plans.

Principles of Accounting: The accompanying financial statements have been prepared on the fair value method using the cash basis of accounting; consequently, income is recognized when received rather than when earned and expenses are recognized when paid rather than when incurred. Realized gains and losses for financial reporting purposes are calculated based on participant specific cost, revalued as of the beginning of each year, aggregated at the plan level, when investments are sold or otherwise disposed. Realized gains and losses for reporting under ERISA are calculated based on actual participant specific costs, aggregated at the plan level. Unrealized gains and losses are recognized as the change in the fair value of the investments. Financial instruments that potentially subject the Plan to credit risk include investments and loans to participants. Investments, which are uninsured, are reported at quoted market prices. Future changes in market prices may make such investments less valuable. Loans to participants are valued at their unpaid principal balance. Loans to participants are collateralized by vested accrued benefits and have been adjusted for all known doubtful accounts.

Accounting for Investments: The Plan's Trustee has been designated to hold and invest Plan assets for the benefit of the participants. The Trustee utilizes an investment firm, State Street, for investment in various mutual funds as selected by individual participants. These investments are stated at their fair value as of the last day of the Plan year as reported by State Street. See Note 4.

Administrative Expenses: All significant administrative expenses are paid by the employer/sponsor and are not passed through to the Plan.

Income Taxes: The Internal Revenue Service has issued a favorable determination letter as of May 15, 1995 in favor of the qualification of the Plan as a tax-exempt entity under Section 401 of the Internal Revenue Code.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 2 - DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration: The Plan is administered by Hall Ambulance Service, Inc. (the Corporation). The appointed trustees are members of the Board of Directors or management of the Corporation. The Corporation has retained the services of State Street as the Plan's contract administrator. Costs of administering the Plan are paid by the Corporation or by the Plan, at the discretion of the Corporation.

Eligibility: The Plan is offered to substantially all employees of the Employer who have attained age 21. The Corporation provides for an automatic enrollment for eligible employees who have failed to enroll 60 days after becoming eligible. Employees that are automatically enrolled are set up at a 3% contribution rate per Plan provisions.

Contributions: Each year, the Employer contributes to the Plan based on the total amount of the salary reduction the employees elected to defer, but limited to a discretionary matching contribution amount as set by the Plan document. An employee must complete one year of service and be actively employed on the last day of the Plan Year to share in the discretionary contributions. The Employer's contribution for 2015 totaled $285,883.

Participants Accounts: Each participant has an account established in the Plan upon becoming a participant. This account is credited with all contributions and forfeitures allocated to each participant according to compensation. In addition, the account is credited with all investment return earned based upon the participants account balance.

Distributions: The Plan does not require distributions to terminated employees until the participant's death, total and permanent disability, or retirement. Distribution will be made in a lump sum or in installments, if the participant elects to defer distribution.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contributions and earnings thereon is based on years of service. If an employee completes one year of service during a plan year, they are credited with one year of vesting service. The vesting schedule is as follows:

Years of Vesting Service	Vesting Percentage Attributable to
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTE 2 - DESCRIPTION OF THE PLAN (continued)

In the event of death, disability or retirement, a participant's interest in employer matching contribution becomes fully vested.

Investments: Each participant is allowed to direct his contributions and the related matching contributions by the Corporation into any of the various investment vehicles offered by the Plan. These vehicles consist of low risk mutual funds.

Forfeitures: Forfeitures (participants' allocated interest in Plan assets which are not vested because employment is terminated before the vesting period is complete) remain subject to being restored over five consecutive one-year breaks in service. Amounts subject to restoration share in earnings or losses of the Plan. Forfeiture occurs on the valuation date following the participant's five consecutive one-year breaks in service. The forfeitures are subject to reallocation as of the last day of the fiscal year in which employment is terminated.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 4 - INVESTMENTS

The Plan has invested funds in various mutual funds and common collective trusts at State Street. These investments are also managed by State Street. Net realized and unrealized loss for these investments was $243,060 for the year ended December 31, 2015. The investments at fair value at December 31, 2015 are as follows:

Mutual funds	$	4,474,097
Common collective trusts		667,025
	$	5,141,122

NOTE 4 – INVESTMENTS (continued)

Individual investments that represent 5 percent or more of the Plan's net assets are as follows:

Description	Amount
Lord Abbett Total Return	$ 340,522
Oppenheimer International Growth	$ 495,341
The Hartford Healthcare	$ 305,201
MFS Value Fund	$ 335,173
T Rowe Price Retirement 2050	$ 602,063
Thornburg Value Fund	$ 303,924
Invesco Stable Asset	$ 648,126

Due to the nature of the trustee and investment management services provided by State Street, they qualify as a party-in-interest of the Plan.

NOTE 5 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, net appreciation or depreciation in fair value of investments, and interest and dividend income for the year then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street, the trustee of the Plan.

NOTE 6 - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) provides a framework for measuring fair value under U.S. generally accepted accounting principles. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

The following provides a general description of the three levels of inputs that may be used to measure fair value under ASC 820:

Level 1 - Inputs to the valuation methodology are based on quoted prices available in active markets for identical assets or liabilities on the reporting date.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology include significant inputs that are generally unobservable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value including assumptions regarding risk. Level 3 instruments include those that may be more structured or otherwise tailored to the Plan's needs.

As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds and common collective trusts are valued at the market value of shares held by the Plan at year-end.

Participant loans are valued at amortized cost, which approximates fair value.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies for assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Assets measured at fair value as of December 31, 2015 and 2014 are as followed:

2015
