23 Is the Plan maintained in a U.S. territory (i.e., Puerto Rico (if no election under ERISA section 1022(i)(2) has been made), American Samoa, Guam, the Commonwealth of the Northern Mariana Islands or the U.S. Virgin Islands)?	☐ Yes	☐ No

Independent Auditor's Report

To the Administrator of Retirement Plan for Hourly Employees of the Greenville Division of E-Systems, Inc.

We have audited the accompanying financial statements of Retirement Plan for Hourly Employees of the Greenville Division of E-Systems, Inc. (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and December 31, 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2015 and changes therein for the year then ended and its financial status as of December 31, 2014, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	**Nonstabilized**
• First 5 years	4.72%	1.22%
• Next 15 years	6.11%	4.11%
• Over 20 years	6.81%	5.20%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.	
• Disabled participants	Same as healthy.	
Other economic assumptions		
• Salary increases	N/A	
• Social Security wage base	N/A	
• Inflation	N/A	
• Expected investment return	8.00% per year, but not greater than the 3rd segment rate in effect for each year Rationale: The expected long-term return on assets assumption was developed based on the plan's current target investment allocation and a building block approach, which looked at the weighted average expected return for each asset class based on long-term capital market assumptions. The expected return for each asset class is composed of inflation plus a risk free rate of return, plus an expected risk premium for each asset class. The resulting return was then adjusted for administrative, investment management and trading expenses as well as recognition of alpha for active management	
• Expenses	$366,723 (added to current year target normal cost) Rationale: Based on actual administrative expenses incurred in the prior plan year	
Demographic assumptions

Form of payment	**Single life**
• Active retirements	N/A
• Future vested deferred	N/A
• Current vested deferred	100%
Rationale for all other demographic assumptions	These assumptions have been developed based on the benefit structure under the plan and the actuary's experience with similar plans. Annual review of the experience has shown that these assumptions provide similar results to the actual experience under the plan
Unpredictable contingent event assumptions	N/A

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Xerox HR Solutions, LLP provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 8 — Discrepancy in Application of Balances to Minimum Required Contribution

The balances used to offset funding requirement reported on line 35 of the 2014 Schedule SB was $0 of prefunding balance. The portion used to offset prior year's funding requirement reported on line 8b of the 2015 Schedule SB is $117,310. The discrepancy is a result of the plan sponsor making an election to apply prefunding balance to minimum funding requirements and although the minimum required contribution for 2014 was $0, the plan sponsor did not revoke this election.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

It is assumed that all terminated vested participants retire at age 65.

Independent Auditor's Report

To the Administrator of Retirement Plan for Hourly Employees of the Greenville Division of E-Systems, Inc.

We have audited the accompanying financial statements of Retirement Plan for Hourly Employees of the Greenville Division of E-Systems, Inc. (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and December 31, 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2015 and changes therein for the year then ended and its financial status as of December 31, 2014, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1. Plan Description

The following description of the Retirement Plan for Hourly Employees of the Greenville Division of E- Systems, Inc. (the "Plan") is for general information purposes only. Participants should refer to the Summary Plan Description or the Plan Document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that covers substantially all former employees of the former Greenville Division of Raytheon E-Systems, Inc. represented by the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America ("UAW"). The Plan provides for pension, disability, and death benefits.

On March 7, 2002, Raytheon's Aircraft Integration Systems business was sold to L-3 Corporation. The Plan was not terminated, as it still holds the accrued benefits for vested and retired employees.

Investments are held in the Raytheon Master Pension Trust ("Master Trust"). The Plan is administered by the Plan Administrator appointed by the Company's Vice President of Human Resources and Global Security and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Benefits, Eligibility and Vesting

The Plan provides for the payment of normal monthly retirement benefits at the age of 65 payable for life. The total benefit payment will be calculated using the appropriate pension rate multiplied by the number of years of benefit service. If an employee who has benefit service under the Plan prior to April 1, 1994 terminates after age 60, the employee is eligible for an optional early pension. If an employee hired after April 1, 1994 terminates after age 60, ten years of vesting service is required for optional early retirement. The benefit is computed as for normal retirement and payable for life. If an employee terminates after age 55, with ten or more years vesting service, the employee is eligible for an early pension with reduced benefits. An employee who terminates due to total and permanent disability after completion of ten or more years of vesting service is eligible for a disability pension commencing one year after the disability occurred (or, if later, the date written application is made), payable for life or until the disability ceases.

Employees of the Raytheon Company (the "Company") who meet the eligibility requirements, as defined by the Plan, may participate in the Plan. Participants are fully vested upon completion of five years of vesting service.

Contributions

The Company makes contributions to the Plan to ensure assets are sufficient to pay the benefits of the Plan. The Plan does not permit contributions by participants.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value. Net investment income/ (loss) from the Master Trust is allocated proportionately on a monthly basis based on the Plan's interest in the Master Trust. See Note 5 for additional information.

Contributions
Employer contributions are funded and recorded as determined by actuarial computation. See Note 4 for additional information.

Benefit Payments
Benefit payments to participants are recorded when paid.

Administrative Expenses
All expenses of the Plan, which primarily consist of professional and administrative fees, are paid by the Plan. Expenses specifically related to the Plan are included in the Statements of Changes in Net Assets Available for Benefits under "Administrative expenses." Additionally, expenses paid directly by the Master Trust, which primarily consist of investment management fees, are allocated proportionally on a monthly basis based on the Plan's interest in the Master Trust and are included in the Statements of Changes in Net Assets Available for Benefits under "Raytheon Master Pension Trust investment income."

Use of Estimates
The preparation of the Plan's financial statements in conformity with U.S. Generally Accepted Accounting Principles ("GAAP") requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from the estimates included in the financial statements.

New Accounting Pronouncements
In July 2015, FASB issued ASU No. 2015-12 "I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient." Under Part I of the update, fully benefit-responsive investment contracts are measured, presented and disclosed only at contract value for defined contribution and health and welfare benefit plans. Part II of the update eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investment by general type. Additionally, Part II requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investment in multiple ways. Part III of the update provides a practical expedient to permit plans to measure investment and investment-related accounting as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

The update is effective for fiscal years beginning after December 15, 2015. The Plan's financial statements reflect early adoption, including retrospective application, as allowed by the accounting standard. The adoption of the standard did not result in a material change to the presentation of the financial statements as a whole.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) active employees or their beneficiaries. Benefits are based on a stated benefit rate multiplied by the number of years of covered service. Benefits payable under all circumstances - retirement, death,

disability and termination of employment - are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Company's consulting actuary, Mercer, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability or retirement) between the valuation and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2014 and 2013, are as follows:

Assumed rate of return on investments for accumulated benefits	8.00% as of December 31, 2014 8.75% as of December 31, 2013
Mortality basis	
Healthy & disabled participants	Modified version of the RP-2014 employee/retiree no collar tables, which has the projection scale backed off to 2007 and projected future generational mortality improvement based on a modified version of the MP-2014 scale, which reflects a 10-year downgrade period and an ultimate improvement rate of 0.75%
Retirement	Several rates, varying by age from 55 to 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Assumption Changes
There have been changes in the actuarial assumptions since the prior valuation of the Plan as follows:

- The discount rate decreased from 8.75% to 8.00%.

The above change was made to better reflect the long-term rate of return on plan assets.

As of December 31, 2014, the most recent valuation date, the actuarial present value of accumulated plan benefits is as follows:

Vested benefits		
Participants receiving benefits	$	33,667,900
Participants with deferred benefits		15,273,775
Total vested benefits		48,941,675
Total actuarial present value of accumulated plan benefits	$	48,941,675

The following is an analysis of changes in the present value of accumulated benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2013	$	47,151,558
Benefits accumulated and non-investment (gains)/losses		(875,017)
Increase for interest due to decrease in discount period		3,931,965
Benefits paid		(4,088,899)
Change in actuarial assumptions		2,822,068
Actuarial present value of accumulated plan benefits as of December 31, 2014	$	48,941,675

4. Funding Policy

The employer's contributions are actuarially determined and generally fund the existing unfunded liability on account of qualified service prior to the valuation date in accordance with the amortization schedules prescribed by ERISA minimum funding requirements (as amended by the Pension Protection Act). At the Company's discretion, and to the extent allowable under maximum tax deductibility regulations, contributions above the ERISA minimum requirements may be made to the Plan. Contributions for the years ended December 31, 2015 and 2014 met the minimum funding requirements of ERISA.

5. Master Trust

Summary Financial Information

The Plan's assets are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. The assets of the Master Trust are held by the Bank of New York Mellon ("BNY Mellon"), the Trustee. The Investment Committee, appointed by the Chairman and CEO of the Company, periodically reviews the asset allocation and performance of the investments held in the Master Trust. The investment policy, as approved by the Investment Committee, permits asset diversification to include a combination of cash and cash equivalents, publicly traded equity securities, private equity funds, fixed-income securities, private real estate funds, commingled funds and other investments such as insurance contracts and derivatives.

Investment securities are exposed to various risks, such as interest rate, market, currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

At December 31, 2015 and 2014, the Plan owned approximately 0.3% of the fair value of the Master Trust net assets. The total net assets of the Master Trust at December 31, 2015 and 2014 were:

Fair Value Measurements
The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The accounting standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required as well as the assets and liabilities that we value using those levels of inputs.

Level 1:	Unadjusted quoted prices in active markets for identical assets or liabilities.
Level 2:	Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs which are observable or have been corroborated by observable market data for substantially the full term of the related assets or liabilities.
Level 3:	Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. See valuation policy section for further information.

Changes in Fair Value Levels
The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the years ended December 31, 2015 and December 31, 2014, there were no transfers in or out of Levels 1, 2 or 3.

The following tables summarize the fair value of investment assets and liabilities as of December 31, 2015.

Level 3 Investments

Level 3 investments consist mainly of unallocated insurance contracts. Unallocated insurance contracts represent less than 1% of the Master Trust assets and are valued at their contract price which approximates fair value.

A reconciliation of investments with significant unobservable inputs (Level 3) has not been provided as the amounts are immaterial.

The table below summarizes the fair value measurements of the investments in certain entities that calculate net asset value per share as of December 31, 2015.

Valuation Policy
The Plan's interest in the Master Trust is stated at fair value. The Trustee values Master Trust investments as follows:

Cash and cash equivalents are valued at amortized cost, which approximates fair value.

Investments in equity securities (common and preferred) and equity securities sold short, if any, are valued at the exchange traded closing price if available.

Investments in fixed income securities (U.S. Government, domestic and foreign bonds, asset backed securities and term loans) are valued by a pricing service which determines valuations for normal institutional-size trading units of such securities using methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the Trustee of the Master Trust and management.

Investments denominated in foreign currencies are translated into U.S. Dollars using the last reported exchange rate.

Investments in registered investment companies are valued at their last reported net asset value.

Investments in commingled funds, private equity fund and private real estate funds are estimated at fair market value, which primarily utilizes net asset values reported by the investment manager or fund administrator. Management reviews additional valuation and pricing information from fund managers, including audited financial statements, to evaluate the net asset values.

Unallocated insurance contracts are valued at their contract price which approximates fair value.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value.

Valuation policies for derivative investments are disclosed in the Derivative Policy paragraph.

Investment Income (Loss)
The Trustee maintains separate records of each plan's proportionate share in the Master Trust's investment accounts. The Plan's share of investment income (loss) and net appreciation (depreciation) in the fair value of investments of the Master Trust is included in the Statements of Changes in Net Assets Available for Benefits as Master Trust investment income (loss). The net appreciation (depreciation) in the fair value of investments consists of the realized gains (losses) and the change in unrealized appreciation (depreciation) on those investments.

Under the Master Trust Agreement, each plan's assets are jointly invested. The Plan uses the unit participation method to calculate the Plan's interest in the Master Trust. Under this method, contributions made to and benefits paid from the Master Trust result in increases or decreases in units of participation. All Master Trust income or loss results in a change in unit value.

Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on the trade date. Premiums and discounts on debt securities are amortized to maturity. Gains or losses on sales of securities are based on average cost.

Derivatives Policy
The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to: (1) hedge a portion of the Master Trust's portfolio to limit or minimize exposure to certain risks, (2) gain exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or capturing value disparities between financial instruments. The Master Trust may utilize both exchange traded investment instruments such as equity and fixed income futures and options contracts and over-the-counter derivatives such as forward contracts and swaps. Select major financial institutions are used in derivatives transactions. When engaging in over the counter derivatives and forward foreign exchange contracts, there is exposure to credit loss in the event of nonperformance by the counterparties to these transactions. As needed for material exposures, the Master Trust manages these exposures through credit approvals, limits, monitoring procedures, and to the extent possible, by restricting the period over which unpaid balances are allowed to accumulate. The Master Trust does not anticipate nonperformance by counterparties to these contracts.

The following tables present the values of derivatives carried on the Statement of Net Assets and the Statement of Changes in Net Assets of the Master Trust as of and for the year ended December 31, 2015:

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Forward Foreign Currency Exchange Contracts
A forward foreign currency exchange contract ("forward currency contract") is a commitment to purchase or sell a foreign currency at a future settlement date and at a negotiated rate.

Forward currency contracts are utilized to hedge a portion of the currency exposure that results from the Master Trust's holdings of equity and fixed income securities denominated in foreign currencies.

Forward currency contracts are marked-to-market at the prevailing forward exchange rate of the underlying currencies and the difference between contract value and market value is recorded as unrealized appreciation (depreciation) in Master Trust net assets. When the forward exchange contract is closed, the Master Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the forward exchange contract when it was opened and the value at the time it was closed or offset. Sales and purchases of forward currency contracts having the same settlement date and broker are offset and any gain (loss) is realized on the date of offset.

Certain risks may arise upon entering into a forward currency contract from the potential inability of counterparties to meet the terms of their contracts. Additionally, when utilizing forward currency contracts to hedge, the Master Trust gives up the opportunity to profit from favorable exchange rate movements during the term of the contract.

As of December 31, 2015 and 2014, the total aggregate face value of open forward currency contracts in the Master Trust was $20,308,587 and ($1,778,759), respectively.

Futures Contracts
A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated futures exchange.

The Master Trust may use equity index, fixed income, cash and cash equivalents and commodities futures contracts to manage exposure to the market. Buying futures tends to increase the Master Trust's exposure to the underlying instrument. Selling futures tends to decrease the Master Trust's exposure to the underlying instrument held, or hedge the fair value of other fund investments.

Futures contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract ("initial margin"). Pursuant to the futures contract, the Master Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are recorded as “margin flows,” and the accumulated balances resulting from those flows are represented on the balance sheet as “cash held at broker” and “cash due to broker.” The Master Trust will also record an unrealized gain or loss on futures, which is calculated as the difference between the notional cost and the notional market value of open futures contracts.

Futures contracts involve, to varying degrees, credit and market risks. The Master Trust enters into futures contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement

on the futures contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a futures contract and the underlying index or security.

At December 31, 2015, U.S. Government Bonds with a par value of $14,195,000 ($30,695,366 fair value) were pledged as collateral for open equity, fixed income and cash and cash equivalents futures positions. These bonds are restricted from trading until the futures positions for which they are pledged as collateral are settled. A cash balance of $10,270,155 was pledged to cover margin requirements for open futures contracts.

At December 31, 2014, U.S. Government Bonds with a par value of $20,209,000 ($20,316,268 fair value) were pledged as collateral for open equity, fixed income and cash and cash equivalents futures positions. These bonds are restricted from trading until the futures positions for which they are pledged as collateral are settled. A cash balance of $31,406,093 was pledged to cover margin requirements for open futures contracts.

A summary of the open futures as of December 31, 2015 are presented below:

6. Termination Policies

The Company has not expressed any intent to terminate the Plan or discontinue its contributions. However, in the event the Plan is discontinued:

(a) The assets comprising the Plan, including the net income/ (loss) of the Plan shall be revalued at market by the Trustee.

(b) The Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

(c) To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants, up to specified limitations, as described in ERISA.

Whether all participants receive their full or partial benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

The Company may terminate the Plan in whole or in part at any time. This summary of termination priorities is provided for general information purposes only. Participants should refer to the Plan Document for more information.

7. Certain Transactions Involving Related Parties and Parties-in-Interest

The Bank of New York Mellon ("BNY Mellon") is the Trustee and Custodian of the Plan, and is therefore a party-in-interest with respect to the Plan. Certain investments within the Master Trust were advised by or affiliated with BNY Mellon. The Plan Sponsor, Raytheon Company, is a party-in interest with respect to the Plan and incurs expenses in connection with the administration of the Plan and the Master Trust.

	Year Ended 2015	Year Ended 2014
Expenses specifically related to the Plan (included in "Administrative expenses")	$ 500	$ 500
Plan allocation of expenses paid directly by the Master Trust (included in "Raytheon Master Pension Trust investment income")	14,873	18,009

	As of December 31, 2015	As of December 31, 2014
Accrued expenses (included in "Accrued administrative expenses" and "Other liabilities")	3,707	3,527

All of these transactions either fall outside the scope of, or are exempt from, ERISA's prohibited transaction rules.

8. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated September 23, 2013, that the design of the Plan meets the requirements for qualification under Code section 401(a), on which the tax exemption of the Trust under Code section 501(a) is based. The Plan has been amended since receiving the determination letter. The Plan

Administrator and the Company's benefits counsel believe that the current design and operation of the Plan are consistent with continued qualification of the Plan and exemption of the Trust in the context of applicable IRS procedures. The Company, on behalf of the Plan, applied for a new determination letter on January 29, 2016.

The Plan adopted the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentations and disclosure of uncertain tax positions. The Plan may from time to time hold investments that give rise to certain tax liabilities. Based upon management's assessment, the Plan has not recognized any tax liabilities at December 31, 2015 and 2014, respectively. The Plan is subject to examinations by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to federal tax examination for years prior to 2012.

9. Risks and Uncertainties

The Plan financial statements are based on the application of U.S. GAAP, which require the Plan to make estimates and assumptions about future events that affect the amounts reported in financial statements and the accompanying notes.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The investments of the Plan, which are held in the Master Trust, are exposed to various risks, such as interest rate, currency, market and credit risks. See Note 5 for additional information with respect to investment risk.

10. Subsequent Events

The Plan has evaluated subsequent events and transactions subsequent to December 31, 2015 through the date the Plan's financial statements were available to be issued, September 9, 2016.

On March 7, 2002, the active participants of the Retirement Plan for Hourly Employees of Greenville Division of E-Systems, Inc. became terminated employees as a result of being a part of the AIS divestiture. As a result, the terminated vested employees in this group have a pension multiplier of $36.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	Age 55 and 10 years of vesting service.
• Benefit	If the benefit commences prior to age 60, it is reduced according to the following table: **Age at Date of Commencement** / **Percent Reduced** 55 — 25% 56 — 16% 57 — 9% 58 — 4% 59 — 1% 60 or later — 0% Participants sold as part of the AIS divestiture that attained age 55 and completed 10 or more years of vesting service on March 7, 2002 will receive the subsidized early retirement reduction according to the table above on their benefit.
Optional Early retirement	
• Eligibility	Hired prior to June 26, 1991: Age 60 (attained or reached during the normal recall period if laid off) Hired after June 26, 1991: Age 60, and 10 years of vesting service
• Benefit	Benefit, commencing immediately and payable for life with a minimum of 60 monthly payments, is computed as for normal retirement considering service and compensation to date of retirement and projected primary Social Security.
Level Income Supplemental Allowance (LISA)	If an employee terminates with 20 years of benefit service at or after age 60 but prior to age 62 and agrees to restrict his post-retirement earnings, he is eligible for a LISA in addition to his early pension.
Deferred vested	
• Eligibility	Five years of service
• Benefit	Monthly annuity, commencing at age 65 if the employee is then living is computed by multiplying his benefit service by the pension rate in effect at termination. An actuarially reduced pension may commence after age 55 and completion of 10 years of vesting service.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	Participants who become totally and permanently disabled with 10 years of vesting service
• Benefit	Monthly annuity will commence one year after the disability occurred and will be payable for life or until disability ceases. If the employee qualifies for disability Social Security benefits, his monthly pension will be computed as for normal retirement, considering service to disablement. For any month in which the employee does not qualify for disability or unreduced old age Social Security, his benefit will be two times the amount computed above.
Benefit Increases for Retirees and Survivors	Effective January 1, 1979, participants and survivors who are receiving benefits on July 1, 1978, shall receive an increase of $1.00 times benefit service. Effective January 1, 1980, participants and survivors who are receiving benefits on January 1, 1980, shall receive an increase of $1.00 times benefit service. Effective August 1, 1981, participants and survivors who are receiving benefits on August 1, 1981, shall receive a 5% increase in the monthly amount of their pension benefit. Effective January 1, 1984, participants and survivors who are receiving benefits on January 1, 1984, shall receive a 6% increase in the monthly amount of their pension benefit. Effective January 1, 1987, participants and survivors who are receiving benefits on January 1, 1987, shall receive a 5% increase in the monthly amount of their pension benefit.
Death Benefits	
• Transition Survivor Income	Payable upon the death of an active employee or an employee on disability retirement prior to his normal retirement date. The monthly benefit commencing immediately is $100 payable for 24 months or until the death of all eligible survivors, if earlier. Eligible survivors are the spouse, dependent children, and dependent parents. The monthly benefit increases to $300 for each month in which the survivor is ineligible for unreduced monthly Social Security benefits.

Schedule SB, Part V — Summary of Plan Provisions

• Bridge Survivor Income	Upon the death of a participant, bridge survivor income is payable to the spouse if: (a) The spouse was between age 45 and age 60 at the date of the employee's death (b) The spouse has received 24 transition survivor income benefit payments and (c) The spouse continues to qualify as an eligible spouse. The monthly benefit of $300, commencing the month following the 24th transition benefit, is payable until the remarriage or death of the spouse, or until age 62 or commencement of unreduced Social Security benefits, if earlier.
• Automatic Survivor Income	Upon the death of an active employee with 10 years of credited service, a benefit is payable for life to the surviving spouse. The monthly amount is payable at the date the participant would have attained age 55, or immediately, if over age 55 at death. The amount is computed by taking 55% of 95% of the monthly pension the participant would have received had he retired on the date of death and commenced receiving payments at age 55, or immediately if past age 55 at death. This amount is adjusted for spousal age differences and may be paid immediately with the amount reduced actuarially. The benefit is reduced by the amount of any Transition Survivor Income or Bridge Survivor Income to be received the same month.
• Optional Survivor Benefit	Unless an employee elects to the contrary, his pension (except a disability pension) will be paid in the form of an optional survivor pension. The benefit, payable for the employee's lifetime, is 95% of his accrued benefit and, upon his death, 55% of such pension will be paid to the spouse, if then living, for her remaining lifetime. The benefit is reduced 1/2% for each year that the spouse's age is more than five years less than the participant's age, and is increased 1/2%, to a maximum of 5%, for each year that the spouse's age exceeds the participant's age by more than five years.
Unpredictable contingent event benefits	N/A
Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	Actuarially equivalent 55% Joint & Survivor Annuity
• Optional forms	50% Joint & Survivor Annuity 66 2/3% Joint & Survivor Annuity 75% Joint & Survivor Annuity 100% Joint & Survivor Annuity 66 2/3% Last To Survive Annuity 5 or 10 year Certain & Life

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	Unless otherwise stated in the Plan Document, optional forms of payment are computed on an Actuarial Equivalent basis using a 7% interest rate and 1971 Group Annuity Mortality Table, Projected by Scale D to 1975 using a unisex rate that is 50% male and 50% female.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is $210,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as amended through January 16, 2015.

- **Most recent plan amendments included:** January 16, 2015
- **Plan amendments excluded:** None.
- **Late retirement increases:**
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** None.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

- Maximum benefits were updated from 2014 to 2015.
- Reflects updated plan provisions as of January 16, 2015.

Schedule SB, line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2014 to 2015 in accordance with PPA.
- Expenses loaded on the normal cost decreased from $405,617 to $366,723 to reflect our best estimate of the current plan year's expenses.
- The expected investment return assumption was updated from 8.75% to 8.00%.
