Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following description of Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Kyklos Bearing International, LLC (the "Company") who have at least six months of service and who are not members of a collective bargaining agreement or a leased employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for eligible employee wage deferral contributions up to a maximum of 60 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Roth, after-tax, catch-up, and employee rollover contributions are also permitted. The Plan allows automatic deferrals of 3 percent of compensation for all employees that become eligible for participation in the Plan.

The Plan provides for employer matching contributions. For non-highly compensated employees, the employer matching contribution is 50 percent of a participant's deferral up to 7 percent of compensation. For highly compensated employees, the employer matching contribution is 40 percent of a participant's deferral up to 6 percent of compensation. The Plan also provides for employer discretionary matching contributions to highly compensated employees, which, when added with the employer matching contribution as noted above, shall not exceed 50 percent of a participant's deferral up to 7 percent of compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Master Trust Investment Options and Participation - Participant contributions and company contributions are invested in accordance with the participant's election in one or more investments, which are held in the Kyklos Bearing International, LLC Master Trust (the "Master Trust") (see Note 3).

Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their vested account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Withdrawals may also be made when a participant attains age 59½. A participant may withdraw the value of their after-tax account or rollover account at any time for any reason.

Hardship Withdrawals - Participants may request that a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The withdrawal can only be made from the before-tax contributions and Roth 401(k) contributions and cannot include earnings accrued on such accounts.

Vesting - Participants are immediately 100 percent vested in their voluntary contributions, rollover contributions, and any income or loss thereon. Vesting in the Company's matching and discretionary contribution portions of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in matching and discretionary contributions made by the Company after three years of service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay plan administrative expenses.

Party-in-interest Transactions - Certain master trust investments are investments managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Additionally, the Company pays certain administrative expenses of the Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 29, 2016, which is the date the financial statements were available to be issued.

Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)* - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Part II of ASU No. 2015-12 was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Change in Presentation - The presentation of the Master Trust's investment in a stable value common collective trust fund for 2014 has been changed to be consistent with the 2015 presentation. The Master Trust's investment in the fund is presented using net asset value (NAV) per unit as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board, and had no effect on total net assets available for benefits or the change in net assets available for benefits.

Note 3 - Interest in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other company-sponsored plan. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by Fidelity Management Trust Company (the "Trustee"). At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 45 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Notes to Financial Statements December 31, 2015 and 2014

Note 3 - Interest in Master Trust (Continued)

A summary of net assets of the Master Trust as of December 31, 2015 and 2014 is as follows:

	2015	2014
Master trust investments:		
Mutual funds - At fair value	\$ 36,941,066	\$ 38,750,038
Common collective trust fund - At contract value	7,134,642	7,059,756
Total master trust investments	<u>\$ 44,075,708</u>	<u>\$ 45,809,794</u>

The investment income for the Master Trust for the year ended December 31, 2015 is as follows:

Net realized and unrealized losses - Mutual funds	\$ (1,831,720)
Interest and dividends	<u>2,107,103</u>
Total master trust investment income	<u>\$ 275,383</u>

Note 4 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all investment transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements, including master trust information included in Note 3, are based solely on information provided by the Trustee.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees

Notes to Financial Statements December 31, 2015 and 2014

Note 6 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which are based on the fair value of the funds' underlying assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Kyklos Bearing International, LLC Savings and Retirement Plan for Salaried Employees

Notes to Financial Statements December 31, 2015 and 2014

Note 6 - Fair Value Measurements (Continued)

The Plan holds the Fidelity Managed Income Portfolio, a stable value fund. The fund has certain limitations on withdrawals and exchanges as follows: withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day and transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.
