Note 1. Description of the Plan

The following description of the Timco Logistics Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of Timco Logistics Systems, Inc. (the Company) are permitted to make pretax contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (IRC). The Plan became effective January 1, 2014. The Plan is intended to satisfy the requirements for a qualified retirement plan under the appropriate provisions of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees of the Company become eligible for participation upon completing one hour of service.

Contributions

Participants may contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan document, not to exceed $18,000 in 2015 in accordance with Internal Revenue Service (IRS) regulations. In addition, those participants, who are over age 50 or turning age 50 on or before December 31, 2015, are eligible for an additional catch-up contribution of $6,000 in 2015. Participants may also contribute Roth contributions on an after-tax basis. The sum of a participant's Roth contributions and pre-tax contributions may not exceed the annual IRS limits. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. The Company may elect to contribute matching or profit sharing contributions to the Plan. No matching or profit sharing contributions were made for the year ended December 31, 2015.

Participant accounts

Each participant's account is credited with the participant's contributions and Company's matching contributions, if any, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Vesting in employer matching or profit sharing contributions plus actual earnings or losses thereon is based on years of service. Participants vest 20% per year after two years of service and are 100% vested after six years of service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator, as defined in the Plan document. Principal and interest is paid through payroll deductions.

Note 1. Description of the Plan, continued

Payment of benefits

On termination of service, a participant's account balance is payable, in cash, in one lump sum payment. Participants may elect to defer the payment of benefits until the participant attains the age of 70 ½. Participants may choose to receive in-service withdrawals after age 59 ½.

Forfeitures

Forfeited, nonvested accounts are retained in the Plan and may be used to restore forfeitures to participants, reduce Company contributions or to pay Plan expenses. There were no forfeitures for the year ended December 31, 2015.

Note 2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation, or depreciation, includes the Plan’s gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Administrative expenses

Certain of the Plan’s administrative expenses are paid by the Company, and certain Plan expenses are paid by the Plan. Expenses paid by the Plan are allocated to participants’ accounts. Certain Plan expenses, such as transaction fees for a withdrawal or distribution from the Plan, are deducted from individual participants’ accounts or investment income.

Note 2. Summary of significant accounting policies, continued

Payment of benefits

Benefits are recorded when paid.

Recent accounting pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* The purpose of this ASU is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part II of this update for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events

The Plan Administrator has evaluated subsequent events through September 8, 2016, the date on which the financial statements were available to be issued.

Note 3. Information certified and provided by Capital Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Capital Bank and Trust Company (the trustee) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	December 31, 2015	December 31, 2014
Investments, at fair value:		
Money market fund	$ 29	$ -
Mutual funds	278,657	93,848
Notes receivable from participants	6,348	-

The trustee also certified to the completeness and accuracy of $16,364 of net depreciation in fair value of investments and $12,282 of dividends related to the aforementioned assets for the year ended December 31, 2015.

Note 4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Accounting Standards Codification 820 (ASC 820) are described below:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable inputs for the asset or liability.

Note 4. Fair value measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. The money market fund and mutual funds are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market fund and mutual funds held by the Plan are deemed to be actively traded. Mutual funds are valued at the daily closing price as reported by the fund.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 29	$ -	$ -	$ 29
Mutual funds	278,657	-	-	278,657
Total investments at fair value	$ 278,686	$ -	$ -	$ 278,686

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 93,848	$ -	$ -	$ 93,848
Total investments at fair value	$ 93,848	$ -	$ -	$ 93,848

Note 5. Administration of Plan assets

Plan assets are held and managed by the trustee. The trustee invests cash received and interest and dividend income as directed by the participants of the Plan. The trustee also makes distributions to participants.

Certain administrative functions are performed by employees of the Company. However, no such employees receive compensation from the Plan. The Company and the Plan share in administrative expenses for the Plan.

Note 6. Party-in-interest transactions

Parties-in-interest are defined under DOL regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company and the trustee qualify as party-in-interest transactions.

Note 7. Tax status

Effective January 1, 2014, the Plan adopted a non-standardized profit sharing form of a prototype plan sponsored by Travis Wolff, LLP. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Note 7. Tax status, continued

Accounting principles general accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants would become 100 percent vested in their employer contributions.

Note 9. Risks and uncertainties

The Plan may invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Prohibited transactions

During 2015, the Plan sponsor inadvertently failed to deposit $4,434 of participant contributions and loan repayments within the required timeframe as stated by the United States Department of Labor regulations. The Plan sponsor deposited lost earnings in the amount of $5 to correct this failure. The Plan sponsor filed Form 5330 and paid the applicable excise tax during 2016. The excise tax payments were made from the Plan sponsors' assets and not from assets of the Plan.
