KOMET of America, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of KOMET of America, Inc. 401(k) Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers substantially all employees of KOMET of America, Inc. (the "Company"). The Plan does not cover nonresident aliens, leased employees or employees who are covered by a collective bargaining agreement that does not provide for their participation in the Plan. The Plan was established by the Company on July 1, 1987 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Any covered employee is eligible to participate in the Plan upon date of hire. Any employee hired after October 1, 2005 shall be automatically enrolled in the Plan unless they elect otherwise. The employee payroll deferral rate for such participants will be set at three percent.

Contributions: Participants may elect to make pretax 401(k) deferral contributions that are not less than \$5.00 and not greater than 100 percent of their compensation each pay period. Participants may also make Roth 401(k) deferrals, which are subject to taxation in the year of deferral but not at the time of withdrawal. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Contributions are made through payroll deductions and are subject to certain IRS limitations. The Plan also accepts rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investments offered by the Plan.

The Company has elected to contribute a safe harbor matching contribution to the Plan on behalf of each eligible employee equal to (i) 100 percent of the amount of the employee's elective deferrals that do not exceed three percent of the employee's compensation for the plan year, plus (ii) 50 percent of the amount of the employee's elective deferrals that exceed three percent of the employee's compensation but that do not exceed five percent of the employee's compensation.

Effective October 1, 2015, the Plan was amended to remove the safe harbor matching provision. The safe harbor provision was replaced by the Company option of funding discretionary matching contributions. No discretionary matching contributions were funded for the remainder of 2015.

Participant Accounts: Each participant's account is credited with the participant's contribution, the employer matching contribution, and allocations of plan earnings and charged with allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: All participants are immediately vested in all their participant accounts.

KOMET of America, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (cont.)

Notes Receivable from Participants: Participants may borrow from their plan accounts up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance and a minimum of \$1,000. Loan terms range from one to five years. The loans are secured by the vested balance in the participant's account and bear a reasonable rate of interest, as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: Upon termination of service due to death, disability, retirement, or termination of service, a participant may request a lump-sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions may be made from a participant's vested account at any time after the attainment of age 59½. Hardship distributions are also permitted if certain criteria are met.

The Plan has the ability to make automatic distributions without participant consent for terminated participants that fail to affirmatively elect a distribution and have a vested account balance under \$1,000.

Note 2. Summary of Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

KOMET of America, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies (cont.)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to participant withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment advisory fees are included in administrative expenses and are allocated to participant accounts. Other investment related expenses are included in net depreciation of fair value of investments.

New Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share*. For investments eligible to be measured at fair value using the net asset value per share practical expedient, ASU 2015-07 removes the requirement to categorize within the fair value hierarchy level and also removes requirements to make certain disclosures. The new guidance is effective for reporting periods beginning after December 15, 2016 with early adoption permitted.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Contribution Plans*. ASU 2015-12 was issued to reduce complexity and simplify employee benefit plan reporting and disclosures. The new guidance is effective for reporting periods beginning after December 15, 2015 with early adoption permitted.

The Plan adopted both ASU 2015-07 and 2015-12. Changes have been applied retrospectively to all periods presented. Application of the new standards did not change total net assets available for plan benefits.

Subsequent events: The Plan has evaluated subsequent events through September 14, 2016, the date the financial statements were issued.

Note 3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

KOMET of America, Inc. 401(k) Plan

Notes to Financial Statements

Note 3. Fair Value Measurement (cont.)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

Guaranteed interest accounts: The unallocated insurance contracts are not considered benefit responsive and are presented at fair value. The unallocated insurance contracts invest in the general assets of John Hancock Life Insurance Company. Since there are no specific securities in the general accounts related to these contracts and due to contract terms, including the frequency of interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed interest rates, less withdrawals and fees.

In accordance with Subtopic 820-10, all of the Plan's investments were measured at net asset value, or its equivalent, and have not been classified in the fair value hierarchy.

KOMET of America, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Plan's custodian, John Hancock Life Insurance Company.

Note 5. Related-Party Transactions

John Hancock Life Insurance Company is the non-discretionary custodian as defined by the Plan. Administrative and recordkeeping fees of \$514 were paid to John Hancock in 2015. Also, certain Plan investments are managed by John Hancock. These transactions qualify as exempt party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in any employer contributions.

Note 7. Tax Status

The Company has adopted a prototype plan document. The specimen plan received a determination letter dated March 31, 2014, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
