Note 1–Description of the plan

The following description of the Wolverine Salaried Pension Plan (the Plan) provides only general information. Participants should refer to the individual Plan documents for more complete information.

General

The Plan is a defined benefit plan covering eligible employees of Wolverine Advanced Materials, LLC (Plan Sponsor), a former subsidiary of EP Management Corporation (fka EaglePicher Corporation) (the Former Plan Sponsor). In 2010, Wolverine Advanced Materials, LLC, became the Plan Sponsor. The Plan covers the active salaried employees of Wolverine Advanced Materials, LLC, as well as the former employees and retirees of Wolverine Gasket Division of EaglePicher Inc and Wolverine Gasket and Manufacturing Co.

Eligibility

Beginning December 1, 2006, certain employees, as outlined in the plan document, began participating on the date the employee first performed an hour of service. Employees hired on or after January 1, 2007 are not eligible to participate in the Plan.

Vesting

Prior to December 1, 2008, participants in the Plan became vested upon completion of 5 years of vesting service or reaching normal retirement age (age 65). Effective December 1, 2008, in accordance with the provisions of the Pension Protection Act, participants that are receiving benefits in the Plan under a cash balance formula become vested upon completion of 3 years of vesting service.

Benefits

Certain participants employed prior to January 1, 2004 under the Prior Plan had their accrued benefit provision frozen as of December 31, 2003. The accrued benefit for participants previously was based on the greater of (1) a percent of final average pay times years of service; (2) a larger percentage of final average pay times years of service less a portion of the primary Social Security benefit; (3) the benefit accrued under the prior retirement plan; or (4) $20 per year of service. In certain instances, lump-sum distributions are permitted.

Under provision 2 above, a salaried participant may receive credit for a maximum of 30 years of employment with the Company. Under provision 4 above, a salaried participant may receive credit for a maximum of 20 years of employment with the Company. There is no maximum number of years of service in determining the benefit amount under provisions 1 and 3 above.

Effective January 1, 2004, benefits are provided using a cash balance formula. Under the cash balance formula, participant benefits grow as an "account" each year based on contribution credits and interest credits. For most participants who were changed to the cash balance formula, annual contribution credits are equal to 4% of participant's compensation, plus 4% of compensation in excess of the taxable wage base for the calendar year and interest credits are based on the average 10-year U.S. Treasury rate for the month of November of the previous year, determined using the value of each participant's cash balance at the beginning of the year.

Note 1–Description of the plan-continued

Benefits-continued

Effective May 2013, the Plan was frozen for the accrual of additional benefits to participants. Participants will be entitled to their frozen accrued benefit and the cash balance benefit upon retirement. Benefit payments are recorded when paid.

Note 2–Significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in a near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment valuation

The Plan's investments are presented at fair value. In instances where quoted market prices are not available, the fair value of investments is estimated primarily by independent investment brokerage firms and insurance companies. Purchases and sales of investment securities are recorded on a trade-date basis. Appreciation (depreciation) includes that Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated participants or their beneficiaries, (2) beneficiaries of participants who have died, and (3) present participants or their beneficiaries.

Benefits under the Plan are described in Note 1 and accumulated plan benefits under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Note 2–Significant accounting policies-continued

Actuarial present value of accumulated plan benefits-continued
The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant assumptions used in the valuations as of December 1, 2014 and 2013 presented in Note 6 were:

- Interest rate: 2014 and 2013 – 6.75%
- Life expectancy of participants for 2014 and 2013:
  - Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.
- Average retirement age: 2014 and 2013 – 65 for active or 67 for terminated and vested

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

New accounting pronouncement
In July 2015, FASB issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan Sponsor is evaluating the impact of this update but does not expect it will have a material effect on the Plan's financial statements.

Subsequent events
The Plan has evaluated all subsequent events through September 12, 2016, the date that the financial statements were available to be issued.

Note 3–Investments

All investment information as of and for the years ending November 30, 2015 and 2014 disclosed in the accompanying financial statements, including investments held at November 30, 2015 and 2014 , interest and dividends and net appreciation in fair value of the investments and investment fees and expenses for the years ended November 30, 2015 and 2014, were obtained or derived from information supplied by the Plan Administrator and certified as complete and accurate by the Trustee, Comerica Bank as of and for the years ended November 30, 2015 and 2014. Such information has not been examined by independent auditors.

Investments that represent 5% or more of the value of the Plan's net assets are as follows at November 30:

	2015	2014
Vanguard Long Term Bond	$ 7,151,428	$ 7,870,324
SkyBridge Multi-Advisor Hedge	1,817,966	1,857,375
Vanguard FTSE All World EX-US Index	859,901	1,220,156
Schwab Strategic TR US Large Cap	1,535,542	890,033

For the years ended November 30, 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows for the year ended November 30:

	2015	2014
Collective trust funds	$ 0	$ 847,344
Mutual funds	(564,876)	412,586
Appreciation (depreciation) of investments at fair value	$ (564,876)	$ 1,259,930

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4–Fair value measurements-continued

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at November 30, 2015.

Mutual Funds/Money Market – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4–Fair value measurements-continued

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Note 5–Funding policy

Contributions to provide benefits under the Plan are made solely by the Plan Sponsor. The Plan Sponsor intends to make contributions to the Plan sufficient to provide the Plan with assets to ensure it meets the minimum finding requirements of ERISA. The Plan Sponsor made contributions at least equal to the minimum funding requirements of ERISA for the years ended November 30, 2015 and 2014.

Note 6–Accumulated plan benefits

The actuarial present value of accumulated plan benefits is summarized as follows as of December 1:

	2014	2013

Note 7–Administrative fees and expenses

Fees and expenses of the Trustee paid for by the Plan, in addition to other allowable pension administrative expenses, qualify as party-in-interest transactions. Expenses paid by the Plan are direct expenses for administration of the Plan. All other expenses and costs of administering the Plan are paid for by the Plan Sponsor.

Total administrative fees and expenses paid by the Plan are as follows:

	2015	2014
Investment advisory and management fees	$ 16,750	$ 16,661
Professional fees	82,454	102,334
Trustee fees	9,775	10,603
Total party-in-interest transactions	108,979	129,598
Pension Benefit Guarantee Corporation expenses	47,930	41,958
Total administrative fees and expenses	$ 156,909	$ 171,556

Note 8–Party-in-interest transactions

Fees paid from plan assets in 2015 and 2014 for legal, accounting, and other services rendered to the Plan were based on customary and reasonable rates for such services. In addition, certain plan investments are managed by the Trustee and certain administrative expenses are paid by the Plan Sponsor. There are no known prohibited transactions with a party-in-interest.

Note 9–Tax status

The Plan has received a determination letter from the Internal Revenue Service dated November 17, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and is exempt from taxation. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 10–Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at the time. Some benefits fully or partially provided by the existing assets and the PBGC guaranty, while other benefits may not be provided at all.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

Unit Credit Method. The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Salary Increase assumption is based upon prior and anticipated compensation practice of the plan sponsor.

Current and Future Years:	3.00%
Prior Year:	3.00%

Cash Balance interest crediting rate

The Cash Balance Interest Crediting Rate assumption is based on anticipated yields for 10-year Treasury Bonds.

Current and Future Years:	3.00%
Prior Year:	3.50%

Frequency of optional payment forms

Cash balance benefits are assumed payable as a lump sum upon retirement or death and payable at age 63 upon termination. 60% of future retirements and terminations are assumed to elect a single Life Annuity and 40% are assumed to elect a Joint and Survivor 50% annuity.

Schedule SB, Part V – Actuarial Assumptions and Methods

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value. Accrued contributions, if any, are included in the Valuation Assets.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	6.75%	6.99%	6.75%
2013 Expected Return	6.75%	7.16%	6.75%
2012 Expected Return	6.75%	7.52%	6.75%

The Expected Rate of Return was set based upon the plan's target asset allocation and expected rates of return for each asset class included in the target allocation.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the December 1, 2013 Valuation

- The mortality assumption was updated according to the projection specified by IRS Reg. Section 1.430(h)(3)-1, with separate annuitant and non-annuitant static mortality tables.
- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA.
- The expected cash balance interest crediting rate decreased from 3.50% to 3.00% to reflect the change in expected annual interest rates for 10-year Treasury securities.
- The expected plan related expenses added to the Target Normal Cost decreased from $172,405 for the 2013 plan year to $150,263 for the 2014 plan year to reflect the most recent experience of the plan, and changes to the 2014 PBGC premium.

The assumption changes listed above increased the Funding Target by approximately $359,000.
