THE WEBER EMPLOYMENT CORPORATION 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

PERIOD JANUARY 1, 2015 THROUGH NOVEMBER 30, 2015
AND YEAR ENDED DECEMBER 31, 2014

1. Description of the Plan:

The following brief description of The Weber Employment Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan, established January 1, 1990, and as amended on January 1, 2010, was a defined contribution plan covering all employees of The Weber Employment Corporation (the "Corporation") who met the eligibility requirements. The Corporation was the employment corporation for Weber Corporation and its wholly-owned subsidiaries and affiliated companies. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees was responsible for oversight of the Plan, and determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Plan termination:

On December 30, 2014, the Corporation's affiliated entities sold and leased their operating assets to an unrelated third party and, therefore, the Corporation no longer employed most of its employees. Most of the Corporation's employees were provided the opportunity to be employed by the unrelated third party. Consequently, the Board of Trustees passed a resolution to terminate the Plan effective December 31, 2014. Contributions to the Plan were suspended as of this date, except for the contributions receivable at December 31, 2014 on the statement of net assets in liquidation available for benefits. All assets of the Plan were distributed as of November 30, 2015 and, therefore the Plan was terminated effective that date.

Contributions:

Each year, participants could elect to contribute up to 100% of their compensation (which may not exceed annual dollar limits established by the Internal Revenue Service (IRS)) into the Plan on a pre-tax basis. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also able to contribute, subject to approval by the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Corporation made Safe Harbor Qualified Non Elective Contributions (QNEC) of 3% allocated to participants based on their eligible compensation totaling \$92,154 in 2014.

The Corporation could make a discretionary profit sharing contribution to the Plan. The amount of the profit sharing contribution was determined annually by the Corporation. No profit sharing contribution was made for 2014.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

PERIOD JANUARY 1, 2015 THROUGH NOVEMBER 30, 2015
AND YEAR ENDED DECEMBER 31, 2014

1. Description of the Plan (continued):

Participant accounts:

Each participant's account was credited with the participant's contributions, as well as allocations of the Corporation's contributions and earnings from investments held in the account. Each participant's account was charged with losses from investments held in the account and with an allocation of administrative expenses that were paid by the Plan. Participants were able to direct their contributions, including the Corporation's portion, into various investment options offered by the Plan.

Vesting:

Participants were immediately vested in their pre-tax contributions and the Corporation's Safe Harbor QNEC contributions, plus actual earnings and losses thereon. Vesting in the Corporation's discretionary profit sharing contributions was based on years of service, with the participant being fully vested after three years of credited service. Effective December 31, 2014, participants became 100% vested as a result of the termination of the Plan.

Notes receivable from participants:

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their pre-tax contribution or profit sharing account balances. Note transactions were treated as transfers between investment funds and the participant note fund. Repayment of a note must be made over a period not to exceed five years, unless the note was used to purchase a principal residence, in which case the note was to be repaid over a reasonable period of time that could exceed five years. The notes were secured by the balance in the participant's account, and bore a reasonable prevailing rate of interest (4.25% at December 31, 2014). Principal and interest were paid through payroll deductions. All notes were either paid or deemed a distribution.

Payment of benefits:

Participants who suffered serious financial hardship, as defined by the Plan, could withdraw a portion of their vested account in order to meet their financial needs. Once participants attained age 59-1/2 or 25 years of service, they could also elect to withdraw from their account, any amount not to exceed their vested portion. All accounts were subject to distribution upon the participant's termination, retirement, disability, or death.

After sustaining a one-year break in service, participants received a lump sum distribution equal to their vested account balance.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

PERIOD JANUARY 1, 2015 THROUGH NOVEMBER 30, 2015
AND YEAR ENDED DECEMBER 31, 2014

1. Description of the Plan (continued):

Forfeitures:

When certain terminations of participation in the Plan occurred, the nonvested portion of the participant's account (as defined) represented a forfeiture. Forfeitures were used to pay administrative expenses of the Plan or could be added to the Corporation's discretionary profit sharing contribution and allocated to participants in the same manner.

The amount of forfeited nonvested account balances totaled \$3,422 at December 31, 2014. Forfeitures totaling \$3,563 were used to pay administrative expenses of the Plan in 2015. No forfeitures were used to pay administrative expenses of the Plan in 2014.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared on the liquidation basis of accounting.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Investment valuation and income recognition:

The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determined the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

PERIOD JANUARY 1, 2015 THROUGH NOVEMBER 30, 2015
AND YEAR ENDED DECEMBER 31, 2014

2. Summary of significant accounting policies (continued):

Notes receivable from participants:

Notes receivable from participants were measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses, and were expensed when they were incurred. No allowance for credit losses was recorded as of December 31, 2014. If a participant ceased to make note repayments and the plan administrator deemed the note receivable to be in default, the note receivable was reduced and a benefit payment was recorded.

Payment of benefits:

Benefits were recorded when paid.

Expenses:

Administrative expenses were paid by the Plan with the expense allocated to each participant. Certain other professional fees were paid by the Corporation, and are excluded from these financial statements. The Corporation provided other accounting and administrative services at no cost to the Plan. Expenses of the Plan paid by the Corporation totaled \$7,100 in 2015 and \$6,900 in 2014.

Investment related expenses were included in net appreciation in fair value of investments on the statements of changes in net assets in liquidation available for benefits.

Adoption of new accounting standard:

During 2015, the Plan adopted a new accounting standard related to the measurement of investment disclosures, that is part of the amendments of Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plan* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965). The investment disclosures were previously required to include 1) the disaggregation of the fair value of investments by type and class, 2) investment appreciation (depreciation) in fair value by general type, and 3) individual investments with a value equal to or greater than 5% of net assets available for benefits. Due to this change in accounting standard being required to be implemented retrospectively, the footnotes no longer include the above investment disclosures, effective January 1, 2014.

3. Investments:

The following table presents the fair value of investments at December 31, 2014. All investments were participant-directed.

	<u>2014</u>
Mutual funds	\$ 1,914,255
Money market fund	<u>24,601</u>
	<u>\$ 1,938,856</u>

4. Fair value:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2015 and December 31, 2014.

PERIOD JANUARY 1, 2015 THROUGH NOVEMBER 30, 2015
AND YEAR ENDED DECEMBER 31, 2014

4. Fair value (continued):

The mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

The money market fund was valued based on its face value, which approximated its fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31, 2014.

	<u>2014</u>
	<u>Level 1</u>
Mutual funds	\$ 1,914,255
Money market fund	<u>24,601</u>
	<u>\$ 1,938,856</u>

5. Certified investments:

Other than contributions receivable, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 31, 2014, and net appreciation in fair value of investments and interest for the period January 1, 2015 through November 30, 2015 and the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Ascensus, Inc., as agent for Ascensus Trust Company (custodian of the Plan), in accordance with Section 2520.103-5 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

6. Tax status:

The IRS had determined and informed the Corporation by a letter dated March 31, 2008, that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan had been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believed that the Plan was designed, and was being operated, in compliance with the applicable requirements of the Code and, therefore, believed that the Plan was qualified, and the related trust was tax-exempt.

6. Tax status (continued):

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the DOL. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Risks and uncertainties:

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Subsequent events:

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 13, 2016, the date the Plan's financial statements were available to be issued.
