Instawares Holding Company, LLC 401(k) Plan

Notes to Financial Statements

(1) Description of the Plan

The following description of the Instawares Holding Company, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Instawares Holding Company, LLC and Subsidiaries (the "Company" and "Plan Sponsor") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established January 1, 1999 and was last restated effective September 1, 2015. Entrance in the Plan is on the first day of the month following the employee's initial date of eligibility.

Effective January 1, 2011, the 401(k) plans of Instawares, LLC, Simple Offers, LLC, SOTF, LLC, and eCompanystore, LLC were merged into Instawares Holding Company, LLC 401(k) Plan. The merger was performed for administrative simplicity and had no effect on the benefits provided.

Effective June 29, 2016, the Plan was amended to remove two participating employers, Instawares, LLC and SOTF, LLC, as a result of change in common ownership by acquisition of these employers. The amendment was not a partial plan termination from the Plan and no participant accounts were automatically transferred out of the Plan.

Eligibility

Employees, who have attained the age of 21 and have worked three months, are eligible to enter the Plan. Once these eligibility requirements are met, the participant is automatically enrolled in the Plan with a deferral rate of 3%. After enrollment, employees have the option to change deferral rates at any time or cease to contribute. All investments are participant-directed and participants may elect to invest in a single fund or allocate among several funds. Participants can also periodically change their instructions concerning the allocation of their accounts. All contributions are allocated based on participant investment elections. The Plan's investments are maintained on a pooled basis, and actual investment income is allocated to the participant accounts based on their relative account balance.

Contributions

Eligible employees may make contributions to the Plan of up to 100% of their annual compensation, with certain limitations. The Plan allows for discretionary matching employer contributions on behalf of eligible participants based on an elected rate applied to employee deferral contributions, including catch-up contributions, made to the Plan. No matching employer contributions were made by the Plan Sponsor in 2015. The Company may also make nonelective employer contributions on behalf of each of its eligible participants using an integrated allocation formula as defined in the Plan Document. The Company's nonelective contribution is discretionary each Plan Year. No discretionary contributions were made by the Plan Sponsor in 2015. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Participants vest in the Company's contributions according to the following vesting schedule:

Years of Service	Percent Vested
Less than 1	0%
1	33%
2	66%
3 or more	100%

Participants become fully vested upon retirement (as defined in the Plan Document), death, or becoming disabled while employed. Participants will also fully vest upon termination of the Plan.

(1) Description of the Plan, continued

Forfeitures

Upon termination of employment of a participant, amounts not vested will be forfeited and first, pay reasonable Plan expenses, second, to reduce employer match contributions, and third, reduce employer non-elective contributions. As of December 31, 2015 and 2014, there were no unallocated forfeitures. No forfeitures were used to pay Plan expenses in 2015. Forfeitures of \$3,798 and \$1,575 were available at December 31, 2015 and 2014, respectively, to reduce the Sponsor's future expenses and/or contributions.

Payment of Benefits

Upon retirement (as defined), a participant is entitled to receive 100% of his or her vested account balance in a lump sum or in installment distributions. Upon the death of a participant, the designated beneficiary is entitled to receive 100% of the participant's account in a lump sum distribution. In addition, disabled participants are entitled to 100% of their account balances. Plan participants who are terminated for reasons other than retirement, death or disability are entitled to receive only the vested portion of their accounts. Effective September 1, 2015, mandatory distributions will be made without consent up to a maximum of \$1,000 upon a participant's severance of employment. The Plan also allows for certain hardship withdrawals prior to termination of employment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The participants affected by any termination or discontinuance of contributions will immediately become fully vested in their accounts.

Notes Receivable from Participants

Participants may borrow from the Plan up to the lesser of \$50,000 or 50% of their vested account balance in the Plan with a minimum of \$1,000. The loans are secured by the vested balance in the participant's account and bear interest at 4.25%. Principal and interest are paid monthly under a level amortization schedule through payroll deductions.

Investment Options

Each participant may direct his or her interest in the Plan among investment options. The investment options consist of mutual funds that represent varying degrees of risk.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC 820. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is

effective for fiscal years beginning after December 31, 2015, with retrospective application to all periods presented. Early application is permitted. Management will adopt ASU 2015-07 as prescribed for the Plan year commencing January 1, 2016 and does not believe this ASU will materially impact the Plan's net assets or disclosures related to fair value measurement of the Plan's investments.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate the investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 31, 2015 with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II effective January 1, 2015 and has adjusted the Plan's disclosures in 2015 and 2014 accordingly.

Investment Valuation and Income Recognition

The Plan investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

The net gain/(loss) from investment activity includes realized and unrealized gains and losses from investment activity as well as earnings on investments. Securities transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Unrealized gains/(losses) are calculated as the difference between the current value of securities as of the end of the Plan year and either the current value at the end of the preceding year or the actual cost if such investments were purchased during the current year. Realized gains or losses on sales of investments are calculated as the difference between sales proceeds and the current value of investments at the beginning of the year or the actual cost if such investments were purchased during the year. Additions to net assets in the Plan are generated from contributions (from participants and matching from the employer), interest income, dividend income and increases in fair market value of Plan investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any unpaid interest, which approximates fair value. Delinquent notes receivable are recorded as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Company generally absorbs significant costs of Plan administration related to legal, accounting, recordkeeping and general administration.

Subsequent Events

Management has evaluated subsequent events for potential recognition or disclosure in the financial statements through September 6, 2016, the date on which the financial statements were available to be issued.

(3) Information Certified and Provided by Reliance Trust Company

The Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Fidelity Management Trust Company, the Trustee, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that information provided to the Plan administrator by the Trustee related to the Plan investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears in these financial statements and the Supplemental Schedule of Assets Held for Investment Purposes.

(4) Tax Status

Effective October 1, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by the Fidelity Management & Research Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(5) Risks and Uncertainties

The Plan provides for investments in various securities, which are exposed to several risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(6) Transactions with Parties-In-Interest

Members of management of the Plan Sponsor are also participants in the Plan; however, there are no transactions with these individuals other than their participation in the Plan. The participants in the Plan direct the investment of their accounts.

Certain Plan investments are mutual funds through Fidelity Management Trust Company, the Trustee. Transactions in these investments qualify as party-in-interest transactions. Investment fund earnings and losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

(7) Fair Value Measurements and Disclosures

The FASB establishes a framework for measuring a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Instawares Holding Company, LLC 401(k) Plan

Notes to Financial Statements, continued

(7) Fair Value Measurements and Disclosures, continued

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds

Investments in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and classified within level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

<u>December 31, 2015</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
