HAMILTON SCIENTIFIC RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF THE PLAN

The following description of the Hamilton Scientific Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more detailed and complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible full time employees of Hamilton Scientific, LLC (the "Company") who meet eligibility requirements and choose to participate. The Company serves as the plan sponsor and plan administrator of the Plan. State Street Bank and Trust Company ("Trustee") serves as trustee to the Plan and its affiliate Boston Financial Data Services, Inc. as agent for the trustee and recordkeeper to T. Rowe Price Trust Company ("T. Rowe"). T. Rowe serves as the third party administrator and Plan assets are invested in funds offered by T. Rowe. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan Sponsor was previously a division owned by Thermo Fisher Scientific Inc. ("Thermo Fisher") and was sold in October 2012. Upon the sale, the employees that were part of the division sold were terminated by Thermo Fischer and were given the option to rollover their account balances from Thermo Fisher's plan into this plan.

Effective August 21, 2015, the Company's Board of Directors voted to terminate the Plan subject to the provisions set forth in ERISA. Benefits continued to accrue through August 31, 2015 whereupon all participants became fully vested. Employees had until September 30, 2015 to take action to transfer their funds. All remaining balances in the plan at September 30, 2015 were distributed to nonaffiliated individual retirement accounts. Final distribution of plan assets occurred on November 23, 2015.

Eligibility

All full time employees who have completed thirty days of service and attained the age of 21 are eligible to participate in the Plan on the first day of the month coinciding with the completion of the service requirement. Employees whose employment is governed by a collective bargaining agreement under which retirement benefits are the subject of good faith bargaining are not eligible to participate in the Plan unless such collective bargaining agreement expressly provided for participation in the Plan.

Contributions

Each year, participants may contribute pre-tax and Roth deferrals up to 100% of pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (the "Code") limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

1 - DESCRIPTION OF THE PLAN (Continued)

Contributions (Continued)
Eligible employees may also elect to roll over distributions from a former employer's qualified retirement plan to the Plan.

As of January 1, 2015, the Plan provided for Company safe harbor matching contributions ("safe harbor") of 100% of the first four percent of compensation deferred. Effective April 8, 2015, the Company stopped all safe harbor Contributions. The Plan also provided for discretionary Company matching and profit sharing contributions, of which none were made for the period ended November 23, 2015.

Investment Options
Participants direct the investment of contributions into various investment options offered by the Plan. The Plan offered mutual funds and a collective investment fund as investment options for participants. If a participant elected to invest in the T. Rowe Price Stable Value Fund, they invested in a collective investment fund which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions.

The Pension Protection Act created the Qualified Default Investment Alternative (the "QDIA") which provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. The Plan selected the T. Rowe Price target funds as its QDIA.

Participant Accounts
Each participant's account is credited with the participant's contribution and Company matching contributions and allocations of (a) the Company's profit sharing contribution, if any, and (b) Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting
Participants are immediately vested in their voluntary contributions and investment earnings. Company matching contributions made under Safe Harbor Provisions, discretionary Company matching and profit sharing contributions are 100% vested at the time the contributions are made; accordingly there are no forfeitures in the Plan.

1 - DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding loan balance during the prior 12 months or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Loan repayment terms may not exceed five years, except for the purchase of a principal residence where the Company may permit a longer repayment term. Principal and interest are paid ratable through payroll deductions.

Payment of Benefits
Participants will receive the full amount of their vested account balances in the event of termination of service or death. Early withdrawals are permitted at the participants requests after the age of 59½. Certain hardship withdrawals are also permitted. Distributions are made in lump-sum payments.

Hardship Withdrawals
Prior to termination of employment, a participant may withdraw, subject to the Plan's notice requirements, all or a portion of the value of his or her participant account in the event of demonstrated financial hardship, subject to the Plan's provisions. Withdrawals to which a participant is entitled are the amounts that can be provided by the participant's pre-tax elective deferral contributions and income thereon (including net realized and unrealized investment gains and losses) allocated to each participant's account, less allocated expenses. Salary deferral contributions are suspended for six months after withdrawal.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Use of Estimates
The Plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, reported changes in net assets available for benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Recognition
Net appreciation (depreciation) in the fair value of investments included both realized and unrealized gains and losses bought and sold as well as held during the year, based on the value of assets at the beginning of the period or at the time of purchase during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are allocated based upon participant account holdings on the record date and are recorded on the ex-dividend date.

Notes Receivable from Participants
Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded.

Investment Valuation
Generally accepted accounting principles ("GAAP") defines fair value, provides guidance for measuring fair value and requires certain disclosures. It discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The statement provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

- Level 3: Unobservable inputs that reflect management's own assumptions.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation (Continued)
Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are publicly traded funds of registered investment companies. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Collective Investment Fund - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the fund, the investment adviser reserves the right to temporarily delay withdrawal from the fund in order to ensure that liquidations will be carried out in an orderly manner.

Fully Benefit-Responsive Investments
As described by GAAP, Collective Investment Funds which invest in fully benefit-responsive investment contracts and are held by defined contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts held by a Collective Investment Fund. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP, the statements of net assets available for benefits present the fair value of the Collective Investment Fund and any adjustments from fair value to contract value, as applicable.

As of December 31, 2014, the Plan held an interest in the T. Rowe Price Stable Value Fund ("the Fund") as an investment option available to participants. This account was managed by Price Associates. The account is credited with the participant's contributions plus earnings and charged for participant withdrawals and administrative expenses.

	2014
Average yields for investments in Collective Investment Fund:	
Based on actual earning	1.83 %
Based on interest rate credited to participants	2.29 %

Payment of Benefits
Benefits are recorded when paid.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses
Plan expenses not paid by the Company may be paid out of Plan assets provided that such payment is consistent with ERISA.

The Plan has an agreement with T. Rowe, whereby T. Rowe is required to make quarterly contributions to an administrative budget account in the amount of $5,750 ($23,000 annually). The amounts received from T. Rowe may be utilized to pay Plan administrative expenses or be allocated at the discretion of the Company. During the period ended November 23, 2015, T. Rowe contributed and fully utilized $23,000 in the administrative budget account.

Management Fees and Operating Expenses
Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the change in fair market value of such investments.

Subsequent Events
These financial statements were approved by management and available for issuance on September 14, 2016.

3 - INVESTMENTS (UNAUDITED)

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of November 23, 2015 and December 31, 2015, are presented at fair value as follows:

	November 23, 2015	December 31, 2014
T. Rowe Price Retirement 2015 Fund	*	$ 1,199,491
T. Rowe Price Retirement 2020 Fund	*	5,195,096

*Investment is less than 5%

During the period January 1, 2015 through November 23, 2015 the net realized and unrealized appreciation in fair value of the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) was $102,753 relating to mutual funds.

5 - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

6 - INCOME TAX STATUS

The Company obtained the latest opinion letter for the prototype plan it has adopted, on December 17, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the code.

7 - PARTY-IN-INTEREST TRANSACTIONS

The Plan holds units of mutual funds managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7 - PARTY-IN-INTEREST TRANSACTIONS (Continued)

Certain officers and employees of the Employer (who may also be participants in the Plan) perform administrative services related to the operation, record keeping and financial reporting of the Plan. The Employer pays these individuals salaries and also pays other administrative expenses on behalf of the Plan. Certain fees, to the extent not paid by the Employer, are paid by the Plan.
