RANGERS BASEBALL 401(k) SAVINGS AND RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2015 and 2014

1. Description of the Plan

The accompanying financial statements include the net assets of the Rangers Baseball 401(k) Savings and Retirement Plan (the "Plan"). The following description of the Plan provides only general information. Participants should refer to the plan agreement or summary plan description for a more complete description of the Plan's provisions. The Plan's corporate offices are located in Arlington, Texas.

General

The Plan was formed on September 1, 2010, restated effective January 1, 2015, and is a defined contribution plan covering all eligible employees of Rangers Baseball LLC (the "Company"). The Plan was created as a result of a change in ownership in the Company. Assets attributable to employees under previous ownership were voluntarily rolled over into the current Plan as of September 1, 2010. The Plan is intended to conform to and qualify under Section 401 and 501 of the Internal Revenue Code of 1986 ("IRC"), as amended. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility

Employees of the Company are automatically enrolled in the Plan upon their date of hire or upon attaining age 21, if later.

Contributions

Participants may contribute between 1% to 100% of their pre-tax or Roth compensation, as defined by the Plan. Participant contributions are subject to the annual deferral limit of Section 401(k) of the Internal Revenue Code ($18,000 for 2015 and $17,500 for 2014) plus certain catch-up provisions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company cancelled discretionary employer matching contributions effective January 1, 2011, therefore, there were no matching contributions made during 2015 or 2014. The Company has no intentions to reinstate matching contributions in the near future.

The Company may also make discretionary profit-sharing contributions to the Plan. There were no discretionary profit-sharing contributions for the years ending December 31, 2015 or 2014.

Participant Accounts

Each participant's account is credited or debited with the participant's contribution and withdrawals, as applicable, and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers nine mutual funds and a money market fund as investment options for participants.

1. Description of the Plan – continued

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Participants become 100% vested in Company's profit-sharing contributions after five years of continuous service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) 50% of the vested account balance or (b) $50,000 reduced by the highest outstanding loan balance during the twelve month period prior to the date of the new loan. Loan transactions are funded on a prorated basis from the participant's existing accounts and investment funds. Loan terms range from one to five years, unless such loans are used for the purchase of a primary residence, in which the term is up to 15 years. The loans are secured by the balance in the participant's account and bear interest at the prime rate quoted in the Wall Street Journal on the day the loan is requested, plus 1%. Principal and interest are repaid ratably through payroll deductions.

Payment of Benefits

Upon death of a participant prior to normal retirement date, all amounts credited to the participant's account shall become fully vested. The value of the deceased participant's account shall be distributed to the participant's beneficiary in a lump-sum distribution. Participants, who have a full and permanent disability condition prior to retirement date and, by reasons of the disability, cease employment with the Company, become fully vested in the Plan. Upon a participant's disability, the Trustee shall distribute all amounts credited to the participant's account as though the participant had retired. The Plan allows for distributions upon a participant's separation of employment from the Company. Certain in-service withdrawals are also allowed under the Plan.

In the event of financial hardship, as defined in the plan description, or where a participant has attained the age of 59 1/2, a participant may elect, while still in the employment of the Company, to withdraw all or part of their vested balance. A participant may receive a hardship withdrawal only after obtaining the maximum number of loans to which they are entitled. Cases of financial hardship are reviewed and approved by the plan administrator in accordance with the applicable provisions of ERISA. A participant may elect at any time to withdraw amounts that were contributed to the Plan as a rollover contribution, subject to certain limitations in the plan description.

Forfeitures

Forfeitures from a participant's nonvested account will be used to pay plan expenses or reduce Company matching and profit sharing contributions in the Plan year in which the forfeitures are determined to occur. As of December 31, 2015 and 2014, forfeited non-vested amounts totaled $13,183 and $275, respectively. Approximately $6 and $4,000 were used to fund administrative expenses made by the Plan during the years ended December 31, 2015 and 2014, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Contributions and Contributions Receivable

Contributions are recorded on the accrual method of accounting. Contributions receivable are obligations arising from amounts owed to the Plan from participants or the Company that have not been included in the Plan's investments at year-end.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses and Administration

Company and participant contributions are held by Charles Schwab Trust Company as Trustee and managed by Milliman USA, Inc. as plan administrator, both of which were appointed by the Company. The Trustee invests cash received in accordance with participant's directions, credits interest and dividend income, and makes distributions to participants. Certain administrative fees are paid by the Company. Management and asset fees are paid by the participants.

2. Summary of Significant Accounting Policies – continued

Subsequent Events

Subsequent events have been evaluated through August 26, 2016, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Part II for the year beginning January 1, 2015.

3. Fair Value Measurements (Unaudited)

Auditing Standards Codification 820 ("ASC 820"), "Fair Value Measurements" provides a framework for measuring all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

3. Fair Value Measurements (Unaudited) – continued

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Money market fund. The investment seeks the highest current income consistent with stability of capital and liquidity. The money market fund invests in high-quality short-term money market investments issued by U.S. and foreign issuers, such as commercial paper, certificates deposit and time deposits, variable and floating-rate debt securities, bank notes and bankers' acceptances, repurchase agreements and obligations issued by the U.S. government, agencies or instrumentalities. It seeks to maintain a stable $1 share price. The investment is valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Mutual funds. These investments are public investment vehicles using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

3. Fair Value Measurements (Unaudited) – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements at Reporting Date Using		
As of December 31, 2015	**Total**	**Quoted Prices In Active Markets for Identical Assets (Level 1)**	**Significant Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**

		Fair Value Measurements at Reporting Date Using

4. Information Certified by the Plan's Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	December 31,	
	2015	2014
Investments, at fair value:		
Money market fund	**$ 999,806**	$ 1,040,812
Mutual funds	**13,873,894**	13,837,701
Total investments	**$ 14,873,700**	$ 14,878,513
Investment Income:		
Net depreciation in fair value of investments	**$ (1,004,941)**	$ (317,631)
Interest and dividends	**1,050,461**	1,033,237
Total investment income	**$ 45,520**	$ 715,606

5. Income Tax Status

Although the Plan has not received determination from the Internal Revenue Service ("IRS") as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the IRS dated September 20, 2010. The plan administrator believes that the Plan is in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-in-Interest Transactions

At December 31, 2015 and 2014, Plan investments included shares of a mutual fund with total market values of $2,164,813 and $2,117,923, respectively, along with shares of a money market fund with market values of $999,806 and $1,040,812, respectively, which are managed by affiliates of Charles Schwab Trust Company, the Trustee of the Plan. Plan assets also included loans to participants of $437,386 and $414,869 at December 31, 2015 and 2014, respectively. Interest income on loans to participants was $21,226 and $19,632 for the years ending December 31, 2015 and 2014, respectively. The aforementioned investments qualify as party-in-interest transactions permitted under provisions of ERISA.

7. Plan Termination

While it has expressed no intent to do so, the Company reserves the right to terminate the Plan at any time, subject to the Plan provisions and the applicable provisions of ERISA. In the event of Plan Termination, all participants become fully vested and the interest of each participant would be distributed to such participant or his or her beneficiary at the time prescribed by the Plan and the Internal Revenue Code.

8. Risks and Uncertainties

The Plan invests in various investment securities. The investment securities are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
